51st ANNUAL REPORT 2007-2008

Chairman's Statement

I have pleasure in presenting, on behalf of the Court of Governors, the Fifty-First Annual Report and Audited Statement of Accounts of the Administrative Staff College of India (ASCI), for the year ending 31 March 2008.

The financial results for the period under review have been quite encouraging, with a higher operating income of Rs. 2,072.64 lakhs compared to Rs. 1,823.20 lakhs during 2006-07. The total income of Rs. 2,176.72 lakhs, including other income of Rs. 104.08 lakhs, was higher by 10.42 per cent compared to Rs. 1,971.26 lakhs in 2006-07. Overall expenditure amounted to Rs. 2,080.73 lakhs as against Rs. 1,884.84 lakhs in 2006-07. The operating income of the year was thus just Rs. 8 lakhs short of the operating expenditure. I should add that the expenditure figure is inclusive of the increase on account of the wage revision of Group III, IV and V employees, amounting to about Rs. 100 lakhs. With an interest income of Rs. 166 lakhs, the college ended up with a surplus before appropriations of Rs. 159.65 lakhs compared to Rs. 40.46 lakhs during 2006-07. As can be seen from the Audited Statement of Accounts, out of this surplus, Rs. 100 lakhs was transferred to the newly created Govt. of India Loan Repayment Reserve, Rs. 25 lakhs, as in the previous year, to the Reserve for Contingencies and the balance Rs. 34.65 lakhs to the ASCI Development Fund as against Rs. 15.46 lakhs in the previous year.

Training activity has continued to register an increase. The income earned in 2007-08 was Rs. 1,215.47 lakhs, excluding the income of Rs. 98.40 lakhs from the PGDHM programme, compared to Rs. 1,087.52 lakhs in the previous year—an increase of Rs. 127.95 lakhs. Programmes in the areas of General Management (Rs. 405.56 lakhs), Human Resources (Rs. 268.80 lakhs) and Operations (Rs. 173.01 lakhs) contributed significantly to the management development activity. The college

conducted 160 programmes (one less than in the previous year) with 3,773 participants—an increase of 141 over the previous year. This included 361 foreign participants and 376 women participants compared to 268 and 233, respectively, in 2006-07. Thus, there was an increase of 61 per cent in women's participation and 35 per cent in foreign participation. Forty-five per cent of the participants were from the government, 21 per cent from the public sector, 16 per cent from the private sector, 7 per cent from banks and 9 per cent from abroad.

During the period under review, five programmes were conducted exclusively for women participants. Consistent with the college's policy of developing and conducting new and innovative programmes, nine new programmes were conducted: Developing Emotionally Intelligent Leadership, Mentoring and Career Development, Managing Performance, Improving Work Culture, Leadership Skills Development, e-Procurement, Inventory Management, Using Data for Monitoring and Evaluation, and Marketing for Hospital and Health Care Professionals.

The two-year Post-Graduate Diploma in Hospital Management Programme, recognized by AICTE in 2005, had 30 participants of whom 12 were doctors and 18 other graduates. Several hospitals have come forward with offers for placements.

Conferences, research seminars and panel discussions were organized on subjects of contemporary relevance and were well attended. They were well received by the participants. Details are available in Annexure 5.

The efforts of the college in improving its international reach gained further momentum. ASCI conducted programmes in collaboration with, and targeted at participation by, neighbouring countries of South Asia and Africa. Some of them had funding support from the World Bank Institute, Commonwealth Secretariat, German Technical Cooperation (GTZ)-Gender Mainstreaming Project, Government of Afghanistan, and Government of Sri Lanka. Here, mention may also be

made of the programmes conducted by the college for Afghanistan: Gender Budgeting and Gender Mainstreaming for Officials of the Government of Afghanistan and a Policy Seminar-cum-Exposure Visit for Afghan Civil Servants.

Consultancy and research activities have continued to grow. During the year, the college received 69 new research and consultancy projects compared to 55 in 2006–07, valued at Rs. 789 lakhs compared to Rs. 699 lakhs in 2006–07, representing an increase of 25 and 13 per cent in volume and value, respectively, over the previous year. As in the past, areas under the Centre for Energy, Environment, Urban Governance and Infrastructure Development and the Centre for Public Policy, Governance and Performance contributed significantly to the activity.

The college successfully completed 51 projects—24 research and 27 consultancy assignments—as compared to 33 in the previous year, comprising 16 research and 17 consultancy projects. ASCI earned an income of Rs. 284.40 lakhs from research and Rs. 474.37 lakhs from consultancy assignments, while the corresponding figures for 2006–07 were Rs. 285.58 lakhs and Rs. 411.08 lakhs, respectively. Notable among the completed projects were: Impact of Trade Liberalization in the Information Technology Sector on Development; Rapid Assessment of the Functionality of First Referral Units (FRUs) and 24x7 Primary Health Centres (PHCs) in Andhra Pradesh; Coal Regulatory Bill; Preparation of Six Detailed Project Reports—Bus Rapid Transit System; Evaluation of the Impact of Kisan Call Centres; National Host Institution: State of Environment Reporting—Phase VI; Demand and Supply of Power in the Eastern and Northern Regions of India during 11th and 12th Plan Periods; Enabling Urban Local Bodies (ULBs) and Kerala Water Authority to Work in the Context of Mandatory Reforms under JNNURM; and National Workshop on Good Practice Approaches to Integrated Solid Waste Management—Water and Sanitation Programme (ISWM-WSP). For the third successive year, the Dept. of Administrative Reforms & Public Grievances (DARPG), Govt. of India, awarded ASCI the work relating to the selection process for the prestigious Prime Minister’s Awards for Excellence in Public Administration.

In line with the Vision Committee recommendations suggesting more focus on good governance, poverty

studies, rural development and human development, ASCI has been directing its endeavours towards building capacities and achieving good results in these new key areas in training, research and consultancy activities.

One of the events of 2007–08 that merits mention is the Conference on the North-Eastern Region of India: Constraints and Opportunities for Development organized by ASCI, which was inaugurated by Mr. Mani Shankar Aiyar, Hon’ble Minister of Development of the North-Eastern Region, Govt. of India. The proceedings of this conference have since been published as a special issue of the *ASCI Journal of Management* (vol. 37 no. 2 March 2008).

During 2007–08, 11 new faculty members were recruited. By the end of March 2008, the faculty strength was 43. Recruitment of young members has improved the age profile of the faculty. At our invitation, Mr. B. G. Verghese, Chairman, Commonwealth Human Rights Initiative and former Information Advisor to the Prime Minister, joined the college as Visiting Professor during the year.

As in previous years, the college organized memorial lectures in honour of Mr. Rajiv Gandhi, Mr. C. C. Desai and Dr. B. R. Ambedkar. These lectures were respectively delivered by the following eminent persons: Mr. Mani Shankar Aiyar, Hon’ble Minister, Govt. of India, on “Panchayati Raj: From Yesterday to Tomorrow”; Dr. D. Subbarao, IAS, Finance Secretary, Govt. of India, on: “Elephants Too Dance: The India Growth Story”; and Prof. Andre Beteille, FBA, Chairman, Indian Council of Social Science Research, on: “Constitutional Morality”. Eight public lectures by eminent personalities were also organized by the college (details are available in Annexure 7).

Infrastructure development continues apace. The conference hall at the ASCI New Delhi Centre was renovated. Plans for the proposed construction at the College Park campus in Banjara Hills have been submitted to the GHMC for their approval.

During 2007–08, the General Body of the College Society met once, the Court of Governors (CoG) thrice and the Standing Committee of the CoG four times. The College continues to receive valuable guidance and direction from

its Court of Governors on various aspects of its activities, the development of infrastructure and its investments.

Looking ahead to 2008-09, the prospects are good. The college has been further reinforcing its existing capacities and building new ones by recruiting new faculty and approaching various funding agencies for their support. Concrete steps are being taken to further widen its international reach. Streamlining of administrative and financial processes and upgrading of infrastructure facilities continue to be given due attention.

The college continues to enjoy the cooperation and support of the Government of India, state governments

and international organizations, such as The World Bank, the Commonwealth Secretariat and the United Nations Development Programme.

The achievements of the college during 2007-08 were possible due to the sustained and continued efforts put in by the Director-General, the faculty and staff at all levels. They deserve our commendation for their efforts.

Governance of the College

A. General Body

During 2007–08, the General Body of the College Society met once. The composition of the 94-member College Society as on 31 March 2008 is as follows:

Table 1: **College Society**

<i>Member Category</i>	<i>Public Sector</i>	<i>Private Sector</i>	<i>Government</i>
Honorary patrons for life	10	11	–
Patrons	–	1	–
Ordinary	28	28	12

The detailed list is presented in Annexure 1.

B. Court of Governors

During the year under review, the Court of Governors (CoG) met thrice. On the invitation of the college, Dr. Vijay Kelkar, Chairman, Finance Commission and Mr. R. Seshasayee, Managing Director, Ashok Leyland Ltd., joined the CoG as co-opted members. Dr. D. Subbarao, IAS, Finance Secretary, Govt of India, was invited as a member of the CoG in his ex-officio capacity.

The General Body of the College Society, at its meeting on 6 December 2007, elected the existing members of the CoG for a further term of five years. Mr. M. Narasimham was unanimously elected as Chairman of the Court of Governors.

The list of elected, co-opted and ex-officio members of the CoG as on 31 March 2008 is given in Annexure 2.

C. People

The Director-General of ASCI, Dr. S. K. Rao, was invited to participate in the Regional Forum on Reinventing Government in Asia, held in Jakarta on 14–16 November 2007 on the theme Towards Transparent and Accountable Governance. It was organized by the United Nations Governance Centre, Korea, and the Dept. of

Economic & Social Affairs (UNDESA), New York, in partnership with the Govt. of Indonesia and UNDP.

During the year 2007–08, the college recruited 11 faculty members. The new members joined the following centres:

- ▶ Centre for Energy, Environment, Urban Governance and Infrastructure Development:
 - Dr. Valli Manickam, Associate Professor
 - Mr. T. Murali Mohan, Assistant Professor
 - Ms. Vasavi Narla, Assistant Professor
 - Dr. Suresh Kumar Rohilla, Associate Professor
- ▶ Centre for Management Studies:
 - Mr. Piush Bahl, Associate Professor
 - Prof. Rahul Bhimjiani, Professor
 - Ms. Kanupriya Katyal, Assistant Professor
 - Prof. Vilas Shah, Professor
- ▶ Centre for Human Development:
 - Dr. Anand Akundy, Associate Professor
 - Ms. Sohini Basu, Assistant Professor
 - Prof. Usha Rani Vyasula Reddi, Professor

The following faculty members left the college during the year: Mrs. Khadeeja Zeenath M. Ali, Assistant Professor, Prof. Somnath Ghosh, Professor, Prof. B. Muralidharan, Professor, Dr. A. Indira, Associate Professor, Mr. N. Sateesh Babu, Associate Professor, Prof. V. Sanal Kumar, Professor, Mr. B. Venkata Rao, Associate Professor and Dr. Suresh Kumar Rohilla, Associate Professor.

Ms. Mamta Desai and Ms. E. A. Savitha, Senior Research Fellows, also left the college.

Others who joined the college are: Prof. Somnath Ghosh, former Professor, ASCI, as Advisor, HR; Mr. B. G. Verghese, Chairman, Commonwealth Human Rights Initiative, as Honorary Visiting Professor; and Dr. B. Venkateshwara Rao, Director–Projects, Aravind Eye Care System, as Advisor.

The list of faculty members, officers in administration, and honorary visiting professors, advisors and consultants, as on 31 March 2008, is given in Annexure 3.

Academic Activities

A. Research & Consultancy

Pursuant to the recommendations of the Vision Committee, the Administrative Staff College of India has been directing its endeavours in a proactive way, and in an increasing measure, towards identifying and assisting in areas of topical and special interest to the government and industry. The overarching purpose behind these endeavours is to improve the managerial and business practices in organizations and help develop policy approaches, leading to enhanced economic performance and long-term effectiveness. The college has also been paying special attention to tracking the impact of the work accomplished by it, to establish whether the outputs generate the outcomes expected of them.

New Business

During the year under review, ASCI actively continued its efforts in securing new projects in functional as well as sectoral areas. These include energy, urban infrastructure, corporate governance, administrative reforms, service delivery, regulatory issues, trade issues, clean environment, technology management and human capital building. The sizeable number of assignments received in these spheres is testimony to the varied capabilities of the college. ASCI has effectively leveraged the expertise and experience gained over the years to successfully carry out the assignments and maintain its momentum in attracting new contracts.

Thus during 2007–08, the college received 69 new research and consultancy assignments (compared to 55 in the previous year), valued at Rs. 789 lakhs (Rs. 699 lakhs in the previous year). Of these, research accounted for 26 assignments (23 in the previous year), worth Rs. 264 lakhs (Rs. 179 lakhs in the previous year); and consultancy accounted for 43 projects (32 in the previous year) worth Rs. 525 lakhs (Rs. 520 lakhs in the previous year). The project assignments secured this year are thus higher, compared to the previous year, by 25 per cent and 13 per cent in volume and value, respectively.

As in the previous year, the Centre for Energy, Environment, Urban Governance & Infrastructure Development (CEEUG) was in the lead in undertaking projects work. Its share in the new assignments received was the highest (see Table 1). Areas under CEEUG have

won several prestigious contracts, many of them via an open, competitive bidding process.

The clientele for these assignments included national and international agencies, enterprises and establishments in the corporate sector, as well as the central and state governments. Andhra Pradesh (AP), Gujarat, Kerala, Orissa and West Bengal were among the states from whom projects were secured by the college. Many assignments were also secured from departments, ministries and agencies under the union government, such as Administrative Reforms & Public Grievances, Agriculture, Defence, Environment & Forests, Power, Science & Technology, Urban Development, and Planning Commission. The international bodies that awarded prestigious contracts to the college include: The Department for International Development (DfID) of UK, International Finance Corporation (IFC), Japan Bank for International Cooperation (JBIC), South Asia Network of Economic Research Institutions (SANEI) of Pakistan, United Nations Development Programme (UNDP) and The World Bank group.

ASCI continued to work, for the third consecutive year, with the Dept. of Administrative Reforms & Public

Grievances (DARPG), Govt. of India (GoI), in implementing the prestigious Prime Minister's Awards for Excellence in Public Administration. The college assisted the department in carrying out scrutiny, evaluation as well as spot studies of the nominations received under the scheme. The college also facilitated the work of the Expert Committee (headed by the Secretary, Administrative Reforms, GoI) and the Empowered Committee (headed by the Cabinet Secretary, GoI) in selecting the awardees. Consequent to ASCI's notable contribution to the selection exercise in 2005-06 and 2006-07, DARPG awarded the contract for 2007-08 as well to the college. Similarly, the Director-General of ASCI was a member of a panel of judges that selected the best steel plant in the country for award of the Prime Minister's trophy.

Among the prestigious assignments bagged by the college are: study of corporate governance in public enterprises in Orissa; assisting the Ministry of Coal, GoI, in drafting the Coal Regulatory Bill; review of the implementation by banks of the Code of Commitment to Customers as brought out by the Banking Codes and Standards Board of India; study of the socio-economic impact of the Tehri Hydro-electric project; assessment of the functionality of the first referral units and public health centres in AP; repositioning of the postal services of GoI; facilitating the implementation of reforms under the Jawaharlal Nehru National Urban Renewal Mission (JNNRUM) in urban management, city development, sanitation and water supply; facilitating the strengthening of administrative and rural development training institutions in the lagging states; advisory and technical assistance services to state electricity companies and regulatory commissions; study of the export potential of khadi institutions; factor productivity study of major crops in India; analysis of the environmental instruments to implement the National Environment Plan; impact of the World Trade Organization on oil seed growers and processors in India; building the institutional capacities of research and manufacturing organizations in technology management; developing science and technology performance measures and indicators; study of competition issues in the domestic segment of the air transport sector in India.

Assignments Completed

The college successfully completed 51 projects (24 pertaining to research and 27 to consultancy) during the year (as compared to 33 in the previous year, comprising

16 research projects and 17 consultancy projects). On this front too, the Centre for Energy, Environment, Urban Governance & Infrastructure Development maintained its lead, with a project closure score of 29 (see Table 2 below).

Income Earned

On account of new projects contracted as well as completion of ongoing projects (either in full or in part as per the defined milestones), the college earned, during 2007-08, an income of Rs. 758.77 lakhs (Rs. 696.66 lakhs in the previous year). The break-up is given in Table 3 below.

Table 3

Income Earned from Research & Consultancy

Research	258.58	284.40
Consultancy	411.08	474.37
Total	696.66	758.77

Thus, there is an increase in the project income to the tune of about 9 per cent.

Further, during the year under review, ASCI submitted many proposals for providing consulting, advisory, technical assistance and contract research services in several focus areas. It is envisaged that some of these endeavours will translate into contracts of substantial size in the coming year.

Projects Carried Forward

A total of 71 research and consultancy projects are carried forward to 2008–09. Here, too, a major chunk of the assignments are those undertaken by the Centre for Energy, Environment, Urban Governance & Infrastructure Development (see Table 4 below).

Research Output/Publications

The research and consultancy work carried out by the college is almost entirely of the sponsored nature. Hence, its ownership rests with the respective sponsors/clients. Before the findings generated during the course of the research and consultancy work can be published, consent needs to be obtained from the sponsor/client concerned. This may not be readily forthcoming due to the confidentiality and sensitivity of the assignment and/or owing to the usual norms of non-disclosure agreed to by both the parties.

However, wherever possible, ASCI continued its endeavours to bring out publications based on its research work. Faculty members have been publishing articles and presenting research papers at national/international conferences. A list of publications is provided separately in Annexure 8. Considerable scope, however, exists for improvement in this area.

Towards this end, the college instituted during 2006–07 a seed research fund of Rs. 10 lakhs. It can be availed by faculty members for pursuing research on issues of topical interest and contemporary concern. Each member whose research proposal is selected will receive Rs. 50,000. The objective of this initiative is that scientific and evidence-based research carried out by faculty members with internal funding will be freed of the above-mentioned restrictions and constraints. This, in turn, should facilitate the publication of research findings and case studies, which can also be used in the management development programmes of the college. During 2007–08, two faculty members availed of the seed fund for their research projects.

Impact Assessment of Projects

In tune with the suggestions of the Court of Governors, ASCI has stepped up its endeavour to collect evidence on the impact of the research and consultancy projects (R&C) being carried out. Towards this end, a concrete plan of action has been readied.

With the help of the project leaders concerned, contact has been established with the R&C clients so as to get them on board the impact assessment initiative. The Urban Governance area, which is the most active in terms of the volume and value of projects being carried out by the college, has since integrated the impact assessment aspect into its projects.

B. Training & Conferences

The management development programme activity of the college during 2007–08 has done exceedingly well. The income earned is Rs. 1,215.48 lakhs—an increase of Rs. 127.97 lakhs over previous year—from three categories of programmes (see Table 5 below). It may, however, be added that this income does not include the income of Rs. 98.40 lakhs generated from the Post-Graduate Diploma in Hospital Management offered by ASCI.

Table 5
Programme Income, 2007–08

<i>Programme Type</i>	<i>Income (in Rs. Lakhs)</i>
College-announced	474.35
In-company on-campus*	720.52
In-company off-campus	20.60
Total	1,215.47

* Includes workshops, conferences & seminars

Programmes in the areas of General Management (Rs. 405.56 lakhs), Human Resources (Rs. 268.80 lakhs) and Operations (Rs. 173.01 lakhs) contributed significantly to the management development training activity (See Annexures 4 and 5 for details of the programmes in the three categories).

The conscious decision to reduce the number of off-campus programmes compared to the previous year (see Table 6 below) resulted in higher revenues and faculty productivity. At the same time, greater emphasis was placed on conducting more customized on-campus programmes. This yielded good results in terms of income generation.

Table 6

Of the 160 programmes conducted during 2007–08, 57 were announced programmes, 91 were in-company on-campus programmes and 12 were in-company off-campus programmes (see Tables 8, 9 & 10 for a detailed area-wise break-up). The client details of the training programmes can be found in Tables 11a and 11b. The total number of participants in these programmes was 3,773. The sector-wise break-up of the participants is given in Table 7 below.

Table 7
Profile of Participants

Private sector	472	623
Banks	225	293
Foreign participants	268	361
Total	3,632	3,773
Women participants	233	376

The maximum participation during 2007–08 was from the government, followed by the public sector and the private sector. As can be seen from Table 7, there is an increase of 61 per cent in participation by women, 35 per cent in foreign participation, 32 per cent in private sector participation, 30 per cent in participation by banks and 9 per cent in government sector participation. However, public sector participation in the programmes fell by 28 per cent. During the period, five programmes were conducted exclusively for women participants—one announced and four in-company programmes.

Nine new programmes were conducted during the year under review: Developing Emotionally Intelligent Leadership, Mentoring and Career Development, Managing Performance, Improving Work Culture, Leadership Skills Development, e-Procurement, Inventory Management, Using Data for Monitoring and Evaluation, and Marketing for Hospital and Health Care Professionals.

Two conferences, three workshops, two panel discussions and two research seminar were conducted during 2007–08 (see Annexure 5).

Outlook for Future

ASCI has consistently striven to not only maintain but also improve upon its core competencies. The college has harnessed and strengthened the experience and expertise gained over years and tapped suitable opportunities in the marketplace. Due attention is being paid to work aimed at benefiting the disadvantaged regions of the country and lagging sectors of the economy. Sound economic growth, ably aided by the ongoing reform interventions of the central and state governments, and

the good governance initiatives of the corporate sector have opened up exciting research and consulting avenues. College activities in this area will not only chart fresh territory but also expand in scope. To enable ASCI to convert the current as well as emerging opportunities into income-generating projects, its faculty strength is being commensurately increased. Thus, it can be said that the outlook on the research and consultancy front is positive and encouraging.

Activities of Centres

I. Centre for Economics and Finance

International Trade and Finance, Industry, Macroeconomic Policy & Public Finance Area

Training

The area has built expertise over the past few years in conducting specialized programmes on WTO and international trade. The target groups of participants have included government officers, corporate executives and scientists. Specific programmes conducted during the year under review, led by the area faculty, are delineated below.

Intellectual Property Rights and WTO-Related Issues

Three programmes on the theme, sponsored by the Dept. of Science & Technology, (DST) Govt. of India (GoI), were conducted during 2007–08. The basic objective of the programmes was to facilitate an understanding of the Trade-Related Aspects of Intellectual Property Rights (TRIPS) Agreement and prepare scientists to meet the challenges emerging from the current IPR scenario. Among the issues addressed by the programmes were: amendments to the Indian Patent Act, 1970, plant breeders' rights, basics of copyright law and IPR protection in bio-technology. The programmes were greatly appreciated by the participating scientists.

Intellectual Property Rights and WTO-Related Issues for Women Scientists: 18–22 February 2008

The above-mentioned programme was for the first time conducted exclusively for women scientists. This programme too was sponsored by DST, GoI.

Basic Course on WTO for IAS Officers: 20–24 August 2007

The course was sponsored by the Dept. of Personnel & Training (DPT), GoI. Its objective was to providing an understanding of the basic issues on the WTO negotiating agenda and its implications for developing countries like India. The programme included lectures, case study discussions and panel presentations. Lectures on the major agreements in the WTO were delivered by academicians, lawyers and government officials. Joint

Secretary, Ministry of Commerce, GoI, delivered a talk on the Current Status of Negotiations in the WTO.

This is an ongoing programme, which has been conducted by the Economics area for the past six-seven years.

Advanced Course on WTO for IAS Officers: 19–23 November 2007

A one-week programme, it too was sponsored by DPT, GoI. Compared to the basic course, it assumes a prior awareness of WTO issues and adopts a more case study-based approach. The programme is more detailed in terms of the discussions and lectures on various aspects.

This ongoing programme has been conducted for the past six-seven years.

Management Development Programme for Executives of NMDC Ltd.: 27 August–7 September 2007

A two-week programme, it was sponsored by National Mineral Development Corporation. This programme aimed at helping participants to acquire managerial competencies for shouldering higher responsibilities. It also encompassed inputs for strengthening the interfunctional as well as the personal competencies of the participants.

Science and Law for Senior Scientists: 25–29 February 2008

A new training programme, it was specially designed to help scientists to understand how the legal environment impacts them. The programme was sponsored by DST, GoI.

Health Economics

A member of the area faculty also completed a module on health economics for the Post-Graduate Diploma in Hospital Management, including lectures, problem sets and assignments. Sessions were also handled in various courses on topics such as enterprise risk management, IPR cases, decision-making under alternative market structures, dynamics of exchange rates and basic economic concepts.

Training/Workshop Proposals

- ▶ Proposal for a programme on Capital Account Convertibility for Officers of the Project Implementation Unit submitted to the office of Engineer-in-Chief, World Bank Projects, Govt. of Orissa, in July 2007.
- ▶ Proposal for a programme on Technology-led Economic Growth submitted to DST, GoI, in March 2008; programme to be conducted in December 2008.

Research and Consultancy

- ▶ Resettlement and Rehabilitation of Hydro Projects: An Overview: Sponsored by the Tehri Hydro Development Corporation (THDC). The final report was submitted to the client in October 2007.
- ▶ Role of District Administration: Sponsored by the Administrative Reforms Commission, GoI. The final report was submitted to the client in July 2007.
- ▶ Common Framework for Service Delivery: India, Brazil and South Africa: Paper submitted to the Dept. of Administrative Reforms & Public Grievances (DARPG), GoI. The paper was discussed in Brazil under the IBSA Cooperation Agreement in November 2007.
- ▶ Pro-poor Service Delivery: Sponsored by Govt. of Andhra Pradesh (GoAP). Draft reports for five departments were submitted to GoAP in December 2007.
- ▶ Socio-economic Study of the Tehri Hydro-electric Project: Sponsored by Tehri Hydro Development Corp. (THDC) Ltd. The project was sanctioned in June 2007. It may be mentioned here that this project has been approved based on a similar study carried out by ASCI 13 years ago. That study was well received, and the recommendations made were accepted by THDC.
- ▶ Impact of Trade Liberalization in the Information Technology Sector on Development: Sponsored by UNCTAD, New Delhi. The study involved an analysis of secondary as well as primary data on 200 software firms to examine the impact on different aspects of development of IT firms, including socio-economic indicators. The final report was submitted in October 2007 and has been accepted by the client.

- ▶ Regulating the Coal Sector: Sponsored by the Ministry of Coal, GoI. A Consumer Stakeholders Workshop was organized in New Delhi, and a Producer Stakeholders Workshop was held in Hyderabad. The final report was submitted to the client in September 2007.

Research & Consultancy Proposals

Competition Issues in the Domestic Segment of the Air Transport Sector in India: Proposal for a study sponsored by the International Finance Corporation and The World Bank Group, New Delhi. The major client is Competition Commission of India, New Delhi. A five-month project, the research study was awarded to the Economics Area in February 2008.

Money, Banking, Corporate Finance and Governance Area

Training and Conferences

The area faculty conducted the following programmes:

College-Advertised

- ▶ New Tax Regime: VAT and Service Tax (23-25 July 2007)

- ▶ Valuation and Due Diligence for Finance Executives of Oil and Natural Gas Corp. (21-25 January 2008).

Research and Consultancy

The area faculty undertook the following R&C projects:

- ▶ Corporate Governance Study for the Govt. of Orissa. All written deliverables were submitted by March 2008.
- ▶ Five-year Corporate Plan for North-Eastern Handicrafts and Handloom Development Corp. (NEHHDC) (jointly with the Center for Public Policy, Governance & Performance). The inception report was submitted in February 2008.
- ▶ Study of the Cost Chart Mechanism for Khadi and Village Industries Commission (KVIC). A draft report was submitted in January 2008.
- ▶ A one-day seminar on Emerging Practices in Corporate Governance for SMEs (26 March 2007, in Mumbai) sponsored by the National Foundation for Corporate Governance (NFCG).
- ▶ A one-day seminar on Corporate Governance Reform for Public Sector Enterprises of Andhra Pradesh (15 March 2008, in Hyderabad) sponsored by NFCG.
- ▶ Evaluation Study of the Impact of the Product Development, Design Intervention and Packaging (PRODIP) Scheme for KVIC. A draft report was submitted in January 2008.
- ▶ Study of Corporate Governance Practices for NFCG. The research report was submitted in December 2007.
- ▶ A two-day Workshop on Basel II Norms and Integrated Risk Management was completed for the Board of Directors of South Indian Bank in November 2007.

II. Centre for Energy, Environment, Urban Governance and Infrastructure Development

During 2007–08, the Centre for Energy, Environment, Urban Governance and Infrastructure Development (CEEUG&ID) conducted two announced management development programmes and ten customized (organization-specific) programmes. CEEUG&ID carried over 46 research and consultancy assignments from 2006–07 and received 31 new assignments during the

year. Of these 77 ongoing projects, 29 were completed in 2007–08 (see Annexures 6A–6C).

Training

The two college-announced programmes directed by the CEEUG&ID faculty during 2007–08 were: Change Management for Achieving Continuous Water Supply for All in Urban Areas, and Strengthening Urban Management in India.

With the objective of enhancing human resource capacity, CEEUG&ID organized 11 workshops under its research projects. These include:

- Demand-Driven Approaches for Provision of Urban Sanitation
- Effective Implementation of Reforms under JNNURM
- Urban Sanitation Policy in India
- Public-Private Partnerships in Integrated Solid Waste Management in India: Experiences, Challenges and Strategies
- Good Urban Governance for Building Resilient Cities

The Urban Governance area conducted training programmes on Exposure Visits to Water Utilities in India for Senior Officials of Kerala Water Authority (KWA). The programmes comprised: Exposure Visit for Trade Union Members of KWA to Hyderabad; Exposure Visit for Trade Union Members of KWA to Mumbai; and Exposure Visit for Trade Union Members of KWA to Chennai; Consolidated Workshop on Enhancing Water and Sanitation Service Delivery, held at Trivandrum.

Rapid training programme (RTP) workshops were conducted by the Urban Governance area for municipal officials and elected representatives of urban local bodies in various cities—Mysore, Bhubaneswar, Puri, Guwahati, Imphal and Ujjain. The second phase of this programme will cover 23 cities and comprise 27 events.

Research and Consultancy

In the Energy and Infrastructure Development (E&ID) areas, 15 R&C assignments were carried over to 2007–08 and 10 projects were received during the year. Of these 25 assignments, 9 were completed. Among the projects received were repeated requests for assisting the Punjab State Electricity Regulatory Commission (PSERC) in analyzing the tariff application of the Punjab State

Electricity Board (PSEB), as well as several assignments for third-party inspection of works in two distribution companies of Andhra Pradesh. The Calcutta Electricity Supply Company (CESC) continues to retain ASCI for advisory services in 2008. The new assignments received relate to the business of electricity distribution in terms of quality inspections, gap analysis in rural distribution networks and the efficacy of consumer grievances redressal mechanisms across 15 states.

The E&ID areas conducted for the first time a specialized training programme on Electricity Tariffs: Annual Revenue Requirement and its Analysis for Senior Executives of NTPC. Two programmes were conducted—in August 2007 and February 2008.

The Last-Mile Franchisee Project for Bundled Pro-poor Electricity and Other Infrastructure Service Delivery Employing S³IDF's Social Merchant Bank Approach, an action research project, was completed for Global Village Energy Partnership. The project initialized, developed and mentored an electricity distribution franchisee under an 11 KV rural feeder at Cherlapatlguda close to Hyderabad.

Two research seminars on coal were conducted during 2007–08 on the following themes: (a) Coal Exploration and Assessment (August 2007) and (b) Mining Technology and Environment & Social Issues Related to Coal and Coal-Based Power Project Development (January 2008), in collaboration with the J. F. Kennedy School of Government, Harvard University and Planning Commission, Govt. of India.

In the Urban Governance area, 28 R&C assignments were carried over from 2006–07 and 19 projects were received during the year. Of these 47 ongoing assignments, 19 were completed in 2007–08. In the Environment area, three R&C assignments were carried over from 2006–07 and two projects were received during the year. Of these five ongoing assignments, one was completed in 2007–08.

The college has acquired a reputation for its work in the Urban Governance, Infrastructure Development and Environment areas. Activities in all these areas are growing at a rapid pace.

ASCI continues to extend strategic technical support to the Jawaharlal Nehru National Urban Renewal Mission (JNNURM)—a major centrally supported incentive scheme for urban renewal. In recognition of the close

collaboration with the Ministry of Urban Development (MoUD), Govt. of India (GoI) in much of its JNNURM work, the college was unanimously identified as a National Knowledge Manager for JNNURM. ASCI is continuing its role of third-party monitoring and evaluation agency, appointed by GoI, for appraising the MoUs of 18 cities and corresponding state governments.

ASCI, in partnership with MoUD and World Bank Institute (WBI), has launched the Urban Resources Link (URL)—an information support help desk for cities. URL aims to provide timely and reliable information support in the fields of service delivery, infrastructure, financial reforms, decentralization, accountability, and citizen engagement. GoI and WBI are expected to extend financial support to the college for scaling up URL services in a significant way.

In response to the urgent need for capacity building under JNNURM, MoUD has identified (after an intensely competitive selection process) and empanelled ASCI as a regional hub institute for effective implementation of reforms. This assignment will be for a period of one year and will cover all the 63 JNNURM cities.

In recognition of the excellent work undertaken during 2007–08, WSP-SA and WBI are expected to extend the partnership for 2008–09. The partnership (with an outlay of Rs. 1 crore) involves research, policy advocacy and capacity-building activities in the areas of water supply, sanitation, solid waste management and urban governance.

III. Centre for Human Development

The Centre for Human Development (CHD) comprises three areas: Health Studies, Education Studies and Gender Studies. All the three areas of social development are critical to the achievement of the global Millennium Development Goals.

Much of the work that was carried out by the centre during the year under review was in the Health Studies area, which already had a critical mass of faculty in place to take its work forward. The area was strengthened by the recruitment of Dr. Anand Akundy, a social anthropologist, as Associate Professor. Dr. Akundy joined the Health Studies area in November 2007.

The Health Studies area was engaged in research and consultancy and in training programmes. The area completed a research project for the UK government's

Dept. for International Development (DfID) on the Rapid Assessment of the Functionality of First Referral Units (FRUs) and 24x7 Primary Health Centres (PHCs) in Andhra Pradesh.

A partnership between the School of Public Health, University of Pittsburgh, Medici-SHARE and ASCI was forged in November 2007 to conduct a longitudinal study of maternal and child health in the Medchal mandal of Andhra Pradesh. The partnership began jointly sourcing funds for work in the public health area.

The capacity-building and training programmes conducted during the year under review were as follows:

- Workshop on National Spatial Data Infrastructures on 25–27 April 2007
- Programme on Medical Audit on 30 July–1 August 2007
- Ninth batch of the Health Insurance for the CEOs/CAOs of Third-Party Administrators on 10–11 September 2007
- Programme on Using Data for Programme Monitoring and Evaluation on 3–5 December 2007

With regard to the Post-Graduate Diploma in Hospital Management (PGDHM) offered by ASCI, teaching for the first batch of students was well underway. Admission applications of the second batch of students were processed, and classes commenced from July 2007 for this group.

The focus of the Gender Studies area was on forging a vision and charting a direction. This was done through a process of external and internal consultations with various stakeholders, from internal faculty to external experts, to the Ministry for Women & Child Development, Govt. of India. A gender sensitization module was envisaged for incorporation in the ASCI management development programmes (MDPs) from the following year, i.e., 2008 onwards. There was an active engagement with the MDPs to train Afghan civil servants on gender mainstreaming in February 2008. The planning efforts in the Gender Studies area will become a strong and visible part of the centre's activities during the next and subsequent financial years.

Similarly, planning for a future set of activities and finding direction formed the bulk of the Education area's efforts. The focus of the area, arrived at after consultations with

external stakeholders and internal faculty, will be on leadership. A series of management development programmes for leaders of educational institutions has been envisaged. Activities are expected to pick up and become visible during the forthcoming financial year.

A member of the CHD faculty was invited to write the anchoring module of an initiative by the UN Economic and Social Commission for Asia and the Pacific (UN-ESCAP)—Academy of ICT Essentials for Government Leaders. The initiative is being overseen by the newly created UN Asian and Pacific Training Centre for Information and Communication Technologies in Development (UN-APCICT). As a result of this effort, ASCI was invited to partner with UN-APCICT to deliver and test the first three modules at a week-long South Asian training programme. The planning for the effort, which carried forward to the next financial year, was undertaken during the year under review.

Following a request from the World Bank Institute (WBI) in the area of social accountability in November 2007, ASCI is being invited to develop modules for electronic delivery on the theme. At the close of the year under review, negotiations were underway between ASCI and WBI to enter into contractual arrangements to develop and deliver the programme.

After a hiatus, CHD is beginning the process of synergizing the three different but interconnected areas of engagement into a common vision and sharper focus. Although this process will take time, the changes it will trigger will be substantial—both in terms of organizational attitudes and processes and institutional vision.

IV. Centre for Innovation & Technology

Ever since its formation in 2005, following the recommendations of the ASCI Vision Committee, the Centre for Innovation & Technology (CIT) has consolidated its share of the activities of the college. CIT has also increased its contribution significantly in terms of scale, scope and specialization of tasks undertaken. The centre has taken up new and innovative research and consulting projects and has value-added to its capacity-building assignments.

Training

CIT has played a catalytic role in the consolidation and growth of the ongoing partnership between ASCI and the Dept. of Science & Technology (DST), Govt. of India

(GoI). As a result, the centre was awarded programmes on new themes (e.g., science audit) during 2007–08.

CIT has been handling DST-sponsored capacity building assignments in such cutting-edge areas as technology commercialization, decision support tools and techniques, e-procurement, science audit, and data warehousing and data mining. Exclusive programmes for women scientists on these themes are a highlight of the centre's performance.

CIT undertook several training assignments for new clients during the year under review. One such programme is for scientists and science administrators of the Council of Scientific and Industrial Research (CSIR), GoI, in the area of e-procurement. The centre is also helping CSIR to build capacities in this area, which is gaining increasing importance. Through a first-of its kind initiative in the college, the practice sessions of all these e-procurement programmes were conducted using an online network in the classrooms. This enabled the participants to gain hands-on experience in a simulated environment through mock sessions on the extant sourcing methods, techniques and practices.

The Programme on Research Management, conducted for first time for the Indian Council of Forest Management and Research, is another novel initiative taken up during 2007–08. The design, development and delivery of this new programme were duly researched and customized to the needs of the client by CIT.

In the company-sponsored and announced programme categories too, the centre continued its strong contribution. CIT successfully conducted programmes in the areas of strategic use of IT, business intelligence and IT-enabled knowledge management.

The centre also lent useful support, by way of direction as well as lecture delivery, for various general management and management development programmes conducted by the college. Among the proactive initiatives taken by CIT, to bring innovation into the training programmes, was introducing a marketplace simulation game in the Senior Executives Course, using web-based software.

Research and Consultancy

The centre has made significant inroads into the research and consultancy domain during the year, winning as many as five new projects.

The Banking Codes and Standards Board of India (which operates under the aegis of the Reserve Bank of India) commissioned a study that involved ascertaining the compliance by banks to the code of commitment to customer service. It was awarded to CIT and completed by the centre during the period under review.

Further, in tune with the special focus being accorded to e-governance, the centre bagged a contract from DST, GoI, on the impact assessment of e-governance initiatives in Orissa—in the land records, property registration and transport sectors.

It is also heartening that in a significant step towards enlarging the scope of the partnership, DST entrusted CIT with an exciting and novel project on the development of science and technology (S&T) performance measures and indicators. The purpose of this task is to evolve tangible, quantitative and objective, as well as intangible, qualitative and subjective, metrics so as to facilitate a more efficient and effective assessment of the outputs and outcomes of S&T programmes and projects.

Leveraging its considerable experience in handling innovation management issues, CIT won a prestigious contract from the Dept. of Scientific & Industrial Research (DSIR), GoI, for building institutional capabilities in technology management. Select research institutions and manufacturing organizations are the target beneficiaries of the study.

The DSIR project also involves an in-depth study of the wine industry in India. The objective is to develop deeper insights and bring forth findings and recommendations on the policy and technology aspects of viticulture that will help the sector become more vibrant. The study encompasses the entire value chain of wine grape growers, wine equipment manufacturers, wine-makers and wine sellers. It is expected that the results of the study will provide useful inputs for the agricultural and food-processing sectors.

Suggesting incentive measures for scientists of the Defense Research & Development Organization (DRDO), GoI, was another interesting project awarded to CIT during 2007–08. It involved visiting, and closely interacting with, large groups of scientists and technologists at various labs of the DRDO family within a short span of two months.

The centre continued to provide technical assistance and implementation support to Mishra Dhatu Nigam Ltd., a defence public sector undertaking, in the exacting task of

selection, and monitoring the operationalization, of an enterprise resource planning (ERP) solution.

CIT faculty also continued to play an active role in the research and consultancy projects anchored in other centres, providing inputs and assistance in the innovation management and information technology space.

CIT has been active in identifying suitable opportunities in new and emerging areas of topical interest. Through its good work, the center has translated some of the key proposals it submitted into projects. Thus, CIT received five new projects and completed three projects during the year under review; and carried forward two projects to the next year—as against one, two and three projects, respectively, for the previous year.

Overall, CIT's performance during 2007–08 has been impressive, and the outlook for the future is promising and encouraging.

V. Centre for Management Studies

A. Overall Performance

The Centre for Management Studies (CMS) continued to contribute significantly to the college's activities during 2007–08. The center undertook a very large number of management development programmes, and research and consultancy activities that addressed the needs of the corporate sector and government organizations. CMS has designed and delivered several unique programmes in each of its areas—Human Resources (HR), Marketing, Operations, Strategic Management and General Management. An impressive total of 86 programmes, with a record number of 2,161 participants attending them, were conducted during the period under review. As in the past, the centre continued to attract a large number of foreign participants from different countries across the globe.

<i>Programme Type</i>	<i>No. of Programmes</i>	<i>No. of Participants</i>
Announced	41	1,029
On-Campus	35	852
Off-Campus	10	280
Total	86	2,161

i. General Management Programmes

CMS conducted the heavily-subscribed announced general management programmes. These include the General Management Programme (GMP) for Senior Executives, Programme for Young Managers and Management Development Programme for Women Executives.

A number of customized in-company on-campus as well as off-campus general management programmes were offered. These include: GMP for Senior Executives of Shipping Corporation of India Ltd., Specialized Management Programme on Leadership for Excellence for Senior Executives of SAIL with Study Tour abroad, MDP for Indian Space Research Organization (ISRO) Scientists/Engineers, MDP for Women Executives of Dept. of Science & Technology, MDP for Women Executives of North-Eastern Region, GMP for Scale IV Officers of Punjab National Bank, MDP for Senior Management Grade Officers of Andhra Bank, Advanced Techno-Management Programme for Middle-Level Scientists of Dept. of Science & Technology, Advanced Techno-Management Programme for Assistant General Managers & Deputy General Managers of NTPC, GMP for Women Scientists of Dept. of Science & Technology, and GMP for Senior Executives of NMDC Ltd.

ii. Human Resources Area

The announced programmes in the HR area were as follows: HR Audit, Communication Skills for Managers, GMP for Senior Executives (Session 109), Leadership through NLP, Developing Emotionally Intelligent Leadership, Strategic Human Resource Management (twice), Leadership & Organization Development, Negotiation Skills, Managing Creativity, Personal Growth for Effective

Leadership, Mentoring & Career Mapping, Management of Change, Effective Human Resource Training & Development, Managing Human Relations in Organizations, Managing Performance, Personality Development, Competency Management, Human Resource Management for Line Managers, Transactional Analysis for Interpersonal Effectiveness, Improving Work Culture, Team Building & Conflict Management, Enhancing Managerial Effectiveness, Effective Trade Union Management, and Leadership Skills Development.

The HR faculty also conducted several customized in-company on-campus as well as off-campus programmes for central government and public sector organizations. These programmes were: GMP for Senior Executives of Shipping Corporation of India, Leadership & Organizational Development for Defence Research & Development Organization (DRDO), Programme on Effective Leadership & Creativity for Senior Scientists of Dept. of Science & Technology, Programme on Management Insight for Faculty Members of National Institute of Technology (Warangal), Vertical Interaction Programme for IPS Officers, Specialized Management Programme on Leadership for Excellence for Senior Executives of Steel Authority of India Ltd. (with two-week Study Tour to The Netherlands, Belgium, Luxembourg and France), MDP for Women Executives of the North-Eastern Region, MDP for Senior Grade Management Officers of Andhra Bank (twice), Managerial Effectiveness for Executives of HMT-MTL, MDP on Mentoring & Career Mapping for DRDO, MDP for ISRO Scientists/Engineers (twice), Communication & Presentation Skills for IFS Officers, Faculty Development Programme for Veterinary Science Faculty of Sri Venkateshwara Veterinary University, Strategic Human Resource Management for Executives of NHPC Ltd., Faculty Development Programme for Punjab National Bank, Negotiating Strategies in the Work Environment for Executives of Dept. of Science & Technology, MDP for Women Executives of Dept. of Science & Technology, MDP for Fortis Healthcare Ltd., Performance Appraisal for Executives of Rural Electrification Corp., Effective Management & Leadership for Fortis Healthcare Ltd., GMP for Scale IV Officers of Punjab National Bank, Gender Budgeting & Gender Mainstreaming for Officials of Government of Afghanistan.

The HR area completed a couple of consultancy assignments, while others are in progress.

iii. Marketing Area

The Marketing area conducted two announced programmes: one on Sales Management and the other on Strategic Marketing. The area also conducted customized in-company on-campus as well as off-campus programmes. These included three programmes on Sales Effectiveness for My Home Industries Ltd. and a programme on Product Management for Indofil Chemicals Co.

iv. Operations Area

The Operations area conducted announced programmes on Inventory Management, Procurement Procedures for World Bank-Aided Projects (with heavy participation, including by foreign participants), Materials Management, Project & Contract Management, and the Programme for Young Managers.

The Operations area also conducted customized in-company on-campus as well as off-campus programmes. These included: Procurement Procedures for AP Tanks Project, Project Management Skills for Senior Executive Engineers of AP Irrigation, Scientific Project Formulation, Implementation & Evaluation for Dept. of Science & Technology, World Bank Procurement Procedures for Ministry of Labour & Employment, Operational Management for Project Implementation Unit of Orissa Govt., Project Management Skills for Defence Electronics Research Laboratory (DLRL), Project Management for National Remote Sensing Agency (NRSA), GMP for Senior Executives of NMDC Ltd., Advanced Techno-Management Programme for Middle-Level Scientists of Dept. of Science & Technology, and Advanced Techno-Management Programme for Assistant General Managers & Deputy General Managers of NTPC.

The Operations area completed two consultancy assignments, while others are in progress.

v. Strategic Management Area

The Strategic Management area conducted an announced programme on Strategic Management. The area also provided key inputs on strategic

management processes for several management development programmes.

The customized in-company on-campus as well as off-campus programmes conducted by the Strategic Management area include: Leadership for Women Executives of Dept. of Science & Technology, MDP for Senior Management Executives of Quality Care of India Ltd. (Care Hospitals) (thrice), General Management Programme for Women Scientists of Dept. of Science & Technology, and General Management Programme for Scientists of Dept. of Science & Technology.

Research and Consultancy

Besides training, a group of nine full-time CMS faculty members, with expertise in various functional areas of management, are engaged throughout the year in a number of research and consultancy (R&C) assignments that are awarded against open market competition. During 2007–08, R&C assignments were undertaken in the following areas: Corporate Planning, Organizational Restructuring, Manpower & Systems Studies, Training Needs Assessment and Competency Mapping. Four consultancy assignments were carried over from 2006–07, and five projects were received in 2007–08. Out of these nine assignments, four were completed during the year under review (see Annexures 6A–6C).

VI. Centre for Poverty Studies & Rural Development

I. Training and Conferences

1. The Centre for Poverty Studies & Rural Development (CPSRD) assisted the Director-General in organizing a two-day Conference on the North-Eastern Region of India: Constraints & Opportunities for Development on 1–2 June 2007. The conference was inaugurated by Shri Mani Shankar Aiyar, Minister of Development of the North-Eastern Region, Panchayati Raj and Youth Affairs & Sports, Govt. of India (GoI).
2. A two-day Management Development Programme for Executive Directors of Andhra Pradesh Scheduled Caste Cooperative Finance Corporation was organized on 6–7 September 2007 with a view to enhancing their leadership competence in effectively implementing anti-poverty programmes for Scheduled Caste beneficiaries.

3. A series of five 2-week international management development programmes (MDPs) were offered for small and medium enterprises (SMEs) of Africa and South Asia, sponsored jointly by the Indian Technical & Economic Cooperation (ITEC) division of the Ministry of External Affairs, GoI, and the Commonwealth Secretariat, London. The key objective of these programmes was to build the strategic thinking competencies of SMEs so that they can introduce best management practices to compete with large businesses.
4. The last programme in the series, Strategic Leadership Development Programme (SLDP), was specially customized for bringing together CEOs of SMEs and policy-makers responsible for promoting the development of SMEs across continental Africa. The aim was to explore and assimilate business models for the development of globally competitive SMEs. This programme was scheduled at the request of the Ministry of External Affairs, GoI, in the run up to the India-Africa Partnership Summit held in New Delhi on 8–9 April 2008. The participants of the programme travelled to New Delhi to participate in the plenary session of the summit after concluding a one-week classroom component of the course at ASCI.
5. A panel discussion on the Commodity Derivatives Market was organized by CPSRD on 16 November 2007. The discussion was jointly sponsored by the Forward Markets Commission, overseen by the Ministry of Consumer Affairs & Public Distribution, GoI, and the Multi Commodity Exchange of India.
6. Two programmes of one-week duration each were awarded by the Ministry of Development of the North-Eastern Region, which are scheduled to be conducted during 2008–09, for the panchayat raj functionaries of N-E state governments.
7. The Indian Council of Agricultural Research (ICAR) under the Ministry of Agriculture, GoI, has awarded CPSRD, in principle, a series of programmes on priority setting, planning, monitoring, evaluation, public-private partnership and leadership development for senior agricultural research personnel under the World Bank-funded National Agricultural Innovation Project (NAIP). The programmes are likely to be scheduled after a formal approval from the World Bank and ICAR.

8. CPSRD has also been making a significant contribution to the MDPs organized by other centers of the college. The center also prepared a programme design on rural management for the South African Management Development Institute (SAMDI).

II. Research and Consultancy

9. A study on evaluating the Professional Development Course (PDC) conducted by the National Institute of Health and Family Welfare and state-level institutes of health and family welfare was assigned to ASCI by the Ministry of Health & Family Welfare (MoHFW), GoI. The 10-week training programme sponsored jointly by GoI and the European Commission was attended by 600 medical officers across 13 states in India. The study was carried out with a sample of 11 states and 150 participants who attended the PDC, apart from 100 non-participating medical officers. Initiated in November 2007, the fieldwork in all the 13 states has been completed. The draft report has been submitted to MoHFW, and their feedback and comments are awaited.
10. A study on evaluating the impact of the pilot programme for the control of micronutrient malnutrition in five states of the country—Gujarat, Orissa, Jharkhand, West Bengal and Assam—was initiated in mid-February 2007. The study is funded by MoHFW, GoI.
11. Under the Government of Orissa-DFID-UNDP project for operationalizing the Orissa Resettlement and Rehabilitation (R&R) Policy 2006, CPSRD has been commissioned to carry out impact assessment studies in respect of major industrial and irrigation/hydro-power development projects in the state. The center has also actively contributed to the evaluation study of the R&R initiatives of the Tehri Hydro-power Development Corp.

VII. Centre for Public Policy, Governance & Performance

Consultancy Activities

1. For the year 2005–06, two awards for Excellence in Public Administration were given away by the Prime Minister. These were presented on 21 April

2007, which is celebrated as Civil Service Day. The Centre for Public Policy, Governance & Performance (CPPGP) had provided considerable support to the Dept. of Administrative Reforms & Public Grievances (DARPG), Govt. of India (GoI) in the selection exercise during 2006–07. At the request of DARPG, the center prepared the following two discussion papers for Civil Service Day 2007:

- Realizing the Human Resource Potential for Inclusive Growth
- Governance Challenges in Resurgent India: Enhancing Policy Implementation and Outcomes

CPPGP also received the mandate to work on the PM's Awards for Excellence in Public Administration, 2006–07. The support work for the selection exercise was completed during 2007–08, in time for Civil Service Day 2008. This included detailed deliberations and concerted efforts at setting up the modalities; drafting the advertisement, both for the media and the websites; sifting through the nominations and making summaries of the eligible nominations; servicing three meetings of the ASCI committee and the committee headed by the Secretary, Personnel, Govt. of India; carrying out spot verification studies; and servicing the final committee headed by the Cabinet Secretary.

2. The centre finally concluded its project on Restructuring of the Central Water Commission (CWC) during the year under review. This work was completed largely due to the efforts of Prof. Hemnath Rao (with the Centre for Poverty Studies & Rural Development).
3. CPPGP secured a project to study the proposed Coal Regulatory Authority and draft the bill for legislation. Three workshops were held—two in New Delhi and one in Hyderabad—to consult with stakeholders (producers, consumers and important decision-makers) on the proposed coal regulatory bill. The final report and draft bill were subsequently submitted to the Ministry of Coal, GoI, during the year under review. The project has been completed to the satisfaction of the client.
4. The centre also completed the project on Irrigation Impact and Best Practices Study for the Japan Bank of International Cooperation (JBIC), New Delhi.

Training Activities

5. Faculty of the center directed a training programme for district institutes of education and training.

CPPGP conducted a training programme for senior Sri Lankan public managers, funded by the Commonwealth Secretariat, London. There was participation by 23 senior civil servants, most of them working as additional secretaries to the Government of Sri Lanka. The programme was designed as a seminar-cum-study visit to facilitate learning and sharing of experiences between senior civil servants of the two countries.

6. At the request of the Asia Foundation, Kabul, the center organized two 5-day policy seminar-cum-exposure visits for senior civil servants from the office of the President of Afghanistan. The programme aimed to give participants an exposure to the working of Indian institutions of democracy and state structures. Its thrust was to develop their perspectives on various models of managing social, economic and political processes within a broadly democratic and pluralist set-up.
7. CPPGP organized two preparatory workshops for writers contributing papers for the Conference on Growth and Development in the Lagging Regions of India, led by the Director-General of ASCI. The conference was jointly held by ASCI and The World Bank in the subsequent financial year.

Projected Activities

1. The selection exercise for the PM's Awards for Excellence in Public Administration, 2008–09 will also be carried out under the leadership of CPPGP.
2. The center continues to be associated with DARPG, GoI, and expects to receive further work in the course of 2008–09.

Impact

1. Public recognition for ASCI as the secretariat for the PM's Awards.
2. The Coal Regulatory Authority study has brought appreciation for ASCI's research and consultancy capabilities.

3. The project on Restructuring of CWC has also had a definite impact—the extent and direction of which remains to be assessed once the final report is submitted.

AUDITORS' REPORT

THE MEMBERS OF
ADMINISTRATIVE COLLEGE OF INDIA
HYDERABAD

1. We have audited the attached Balance Sheet of Administrative Staff College of India ("**the College**") as at March 31, 2008, and also the Income and Expenditure Account of the College for the year ended on that date, annexed thereto. These financial statements are the responsibility of the management of the College. Our responsibility is to express an opinion on these financial statements based on our audit.
2. We conducted our audit in accordance with the auditing standards generally accepted in India. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.
3. We report as follows:
 - i. we have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
 - ii. the Balance Sheet and the Income and Expenditure Account dealt with by this report are in agreement with the books of account;
 - iii. in our opinion and to the best of our information and according to the explanations given to us, the said accounts give a true and fair view, in conformity with the accounting principles generally accepted in India:
 - a) in the case of the Balance Sheet, of the state of the affairs of the College as at March 31, 2008; and
 - b) in the case of the Income and Expenditure Account, of the excess of income over expenditure for the year ended on that date.
