

HR AUDIT & ANALYTICS

Programme Overview

There has been growing realisation among enterprises that the alignment of human resource and HRM processes is prerequisite to complete internal alignment processes to respond to the ever-changing business environment. Gearing up to the emerging opportunities and staying in a competitive business environment requires more responsive and innovative approaches to Human Resource Management. In this context, it is extremely important for an organisation to orient their HR function in consonance with corporate goals. In order to achieve this, it is essential to carry out an HR Audit to understand the current status, gaps between existing and desired levels of HRM function, and to develop appropriate action plan to bridge the gaps.

Keeping the above in view, the Administrative Staff College of India, therefore, takes pleasure in announcing a Programme on HR Audit. The Programme focuses on current status of HRM function and the issues involved in aligning HRM processes with the business goals by developing an insight into various facets of HR Audit to make HRM function more business-oriented.

The Programme is meant for senior and middle level executives connected with the responsibility of managing Human Resources, including those dealing with HRD, Employee Appraisal, Manpower Planning, Employee Relations, etc.
