## TEAM DYNAMICS: ACTIVITY BASED APPROACH

### Programme Overview

If we are to succeed in unleashing the talent and potential of our people, then we must first understand their desired results and how these are aligned with their organisations top goals. Managers in past often delegated change, but did not follow it. Today's successful managers are willing to adapt and improve team performance by sharpening their own leadership team development skills. This management training programme empowers you to practice the skills you need to stop pushing and start pulling. By taking this programme you will become an engaging manager that creates confident, inspired, empowered, and enthusiastic teams. The centre stage of the programme revolves around self-development in leading teams.

### Impact

- ◆ Improve your performance by strengthening your management skills
- ◆ Ability to manage and lead teams more effectively
- ◆ Team Analysis and strategic plan for effective teamwork
- ◆ Understanding of team and group behaviour
- ◆ Develop a management style that suits your unique personality
- ◆ Handle difficult management situations with greater certainty in your decisions

### The Learning Model

Leading and working in Teams is designed to give managers the skills needed to overcome group challenges, maximize team performance and achieve the results that matter most for success. The session is designed based on the principle of "flipping the training session", which will establish that learning happens not with a trainer, but by giving practitioners access to discover things on their own through activity/simulation based learning. The pedagogy of this training is designed to accelerate your abilities for practical functioning and creative thinking.

### Participant Profile

The Programme is designed to cater the need of Leaders of cross-functional teams, Leaders/ Managers responsible for creating team-based organisational systems, Team members who can influence leadership & collaboration on teams in public and private sector, government departments and service organisation.
