ADMINISTRATIVE STAFF COLLEGE OF INDIA

PROGRAMME OVERVIEW

The increased volatility and uncertainty in the external business environment has significantly increased the risks facing an organization. Consequently, proactive management of risks is crucial for survival, especially in view of the increase in corporate collapses that have taken place in the past decade.

Thus, in the increasingly uncertain environment marked by political crises, regulatory changes and price volatility, a deep understanding of the risks faced by an organization is essential. Academic research shows that organisations that have proactively formulated risk management strategies have been able to successfully mitigate the risks. It is therefore important that organisations enable their executives to develop skills in identifying, measuring and managing the risks.

Traditionally, risk management was confined to functions such as corporate treasury, safety, project risk management, etc. However, over the last decade, enterprise-wide risk management (ERM) has been gaining momentum and various proponent frameworks have evolved, such as COSO/ERM Cube, ISO31000:2009, AS/NZS 4360, etc. ERM advocates for an aggregate, coordinated and portfolio theory approach to managing risks.

PROGRAMME OBJECTIVES

The programme aims to develop the skills of the participants in measuring risk exposure and managing it through latest frameworks for enterprise-wide risk management and hedging strategies.

Programme Director

March 05, 2020

Dear Sir/ Madam,

**Programme on
ENTERPRISE RISK MANAGEMENT
(May 11-13, 2020)**

ASCI announces its 3-day programme on Enterprise Risk Management starting on May 11th, 2020.

As organisations expand their horizons across geographies and sectors, their exposure to risks increases significantly. Accordingly, it is necessary to develop a deep understanding of all the risks that it is exposed to and formulating strategies for risk mitigation. This can be achieved by identifying and measuring the risk exposures and then selecting the most effective risk mitigation tool.

Accordingly, the programme on 'Enterprise Risk Management' has been designed with the objective of developing skills in identifying, measuring and managing various risks faced by an organisation.

The programme would demonstrate the risk management techniques using case studies to facilitate class room discussions and strengthen the conceptual base. For other pedagogical inputs, the programme would draw upon ASCI faculty as well as industry experts.

The key takeaway of the programme would be the skills acquired in identifying and managing risks.

We are enclosing a brochure with the programme details and nomination process.

Looking forward to your favourable response,

Best regards,

Yours sincerely,

Madhusoodanan PR
