Training Programme on

Public Private Partnership in Urban Infrastructure and Service Delivery

(May 18-20, 2020)
ASCI, Hyderabad

Administrative Staff College of India

BACKGROUND

Provision of high quality infrastructure and service delivery in cities and urban areas is critical for realizing their productivity. Public Private Partnerships (PPP) is a potential strategy to promote urban infrastructure investments, improve efficiency in service delivery and promote inclusive growth. Development of urban infrastructure through PPP is emerging as a key priority for the Government of India, State Governments and Urban Local Bodies (ULBs).

The Urban Missions and other centrally sponsored schemes (Smart City programme, AMRUT, Swachh Bharat, Housing for All) led by the Ministry of Housing and Urban Affairs, Government of India, provide the framework and incentives for states and urban local governments to promote PPP. However, structuring and implementing PPP projects that are both viable and affordable in critical sectors such as urban water and sanitation, urban transportation, solid waste management etc., remains a challenge.
