Special Issue on
Replication of PM Award-Winning Good Governance Initiatives

The *ASCI Journal of Management*, published every March and September by the Administrative Staff College of India, is devoted to discussions on policy and management issues concerning various aspects of national life. The papers published in the journal are based on research work, consulting and professional experience. The *ASCI Journal of Management* also publishes analytical reviews of literature on specific themes, research notes, short notes from practising executives on issues and concerns of current interest, and book reviews. Manuscripts of papers (see **Notes for Contributors**) should reach the Editor four months prior to the date of release of a particular issue. The papers received for publication are sent to referees for their comments before a final decision is taken on their inclusion. The authors of papers that are published will receive 25 reprints free of cost.

Notes for Contributors

Manuscript submission: Copies of the paper, notes, or book reviews to be considered for publication must be sent to the Editor, ASCI Journal of Management, as a Word file attachment via e-mail. Additionally, a hard copy in 1.5 spacing—on one side of the paper, with sufficient margins on both sides—can also be sent. It is a condition for publication that the material sent is original work, which has neither been previously published nor been submitted for publication elsewhere. It is in the author's interest to submit a clearly written and carefully proofread manuscript.

Blind review: The *ASCI Journal of Management* follows a policy of blind peer review. To facilitate this review, a separate title page should include the title of the paper, names(s) of the author(s) and relevant biographical information. The second page should carry the title of the paper and a 100 to 150-word, single paragraph abstract of the paper. Manuscripts should ideally not exceed 25 double-spaced typed pages.

Research results: Those papers that report the results of empirical research are expected to provide reliability estimates for all measures or give a thorough justification for their absence. When statistically significant relationships are reported, an estimate on the variance accounted for must be provided. When non-significant statistical tests are reported, an estimate of the power of the test must be given. Avoid graphs and analyses of variance summary tables, but include tables of means and standard deviations and/or correlation wherever needed. The tables should be numbered.

Format and style: Contributors are requested to strictly adhere to the guidelines specified in the Publication Manual of the **American Psychological Association (6th edition)** for format and style.

Papers should be no more than 4,500 words including references and endnotes.

Quotations of 45 words or more should be separated from the text and indented with one space with a line space above and below.

An alphabetical reference list of all books, articles, essays and theses referred to in the text should be provided.

Contributors must provide their affiliation, complete postal and e-mail addresses and telephone numbers along with their papers.

Authors should disclose any potential conflict of interest regarding the manuscript.

Authors should avoid plagiarism and copyright-related offenses

Material taken directly from a copyrighted source should be clearly identified, and the copyright holder's written permission to reproduce it must be submitted in a separate file.

It is very important to note that obtaining permission to reproduce copyrighted material is the author's responsibility, as is payment of any fees the copyright holder may request.

Books for review: One copy of each book should be sent for review to the Editor. The publication takes no responsibility for returning books not found suitable for review. One copy of the journal will be sent separately to the reviewer and the publisher if the book review is published.
