Highlights of the year

Sri Dharmendra Pradhan, Minister of Education Visit to ASCI

October 01, 2022: Sri Dharmendra Pradhan, Minister for Education, Skill Development, and Entrepreneurship, visited the Bella Vista Campus of ASCI. ASCI Chairman, Sri K Padmanabhaiah, Dr Nirmalya Bagchi, DG (i/c), Sri Hemang Jani of CBC, Sri Richard Saldanha, Vice Chairman, CoG Members, Sri B V R Mohan Reddy, Dr P V Ramesh, faculty, and other officials were present. During his visit, a Statement of Intent (SoI) was signed by ASCI and CBC. Sri Dharmendra Pradhan interacted with the faculty, Officers and students. He took the campus tour, visited the library, and also planted a tree.

Sri Dharmendra Pradhan and Sri K Padmanabhaiah

MoU with CBC:

Statement of intent Signed with the Capacity Building Commission (CBC), Government of India, to pave the way for strengthening the learning and development ecosystem and also for creating agile, responsive, and future-ready civil servants

Dr Nirmalya Bagchi, DG, Sri Hemang Jani, Sri Dharmendra Pradhan & Sri K Padmanabhaiah

Dr Jitendra Singh, MoS, Ministry of Personnel, Public Grievance, & Pensions, Visit

February 16, 2023: Dr. Jitendra Singh, Hon'ble Union Minister of State (IC) of the Ministry of Science & Technology, Minister of State (IC) Ministry of the Earth Sciences, MoS in the Prime Minister's Office, Ministry of Personnel, Public Grievance & Pensions, Department of Atomic Energy, and Department of Space, visited the Bella Vista Campus. He kicked off the Capacity Building Programme in Effective Leadership and Creativity for Senior Scientists, being organised in collaboration with the Capacity Building Commission of India (**CBC**) and directed by Dr. Nirmalya Bagchi, Director General (i/c), ASCI.

Dr Jitendra Singh also launched E-modules on Integrated Government Online Training (**iGOT**): 1. An Introduction to Science Communication 2). data-driven decision making, 3) Code of conduct for science and technologies; and also interacted with the scientists and faculty. Sri Adil Zainulbhai, Chairman, Capacity Building Commission, also participated in the event and spoke

Sri K Padmanabhaiah, Chairman welcoming Dr Jitendra Singh, MoS. Dr Bagchi, DG and Sri Adil Zainulbhai, Chairman, Capacity Building Commission also seen in the picture

Dr Nirmalya Bagchi delivered the welcome address. The event was attended by Sri K Padmanabhaiah, IAS (Retd), Chairman ASCI, Shri Adil Zainulbhai, Chairman CBC, Shri Jayant Krishna, CEO FAST India, Shri Prakash Kumar, CEO Wadhwani Institute of Technology and Policy (WITP), and Dr Arabinda Mitra, Head, STI CB Cell, who delivered the vote of thanks.

Dr Jitendra Singh, MoS, speaking after starting the Capacity Building Programme in Effective Leadership and Creativity for Senior Scientists at the BV Campus

Dr Jitendra Singh in his speech said “Under PM Sri Narendra Modi, for the first time, a conscious effort being made to concentrate on governance in Science domain through institutionalised training of Science administrators and Science leaders, for optimum outcomes in societal benefit – Dr. Jitendra Singh during his interaction with the participating Scientists of the Capacity Building Programme in Effective Leadership and Creativity for Senior Scientists”

Dr Jitendra Singh launching e-Modules of Integrated Government Online Training (iGOT). Sri K Padmanabhaiah & Sri Adil Zainulbhai also present in the picture

Visit of Sri Adil Zainulbhai, Chairman CBC for Convocation Ceremony:

➤ Convocation 2022 to the PGDM Batch 2 (2020-22) and PGDM (Hospital Management) Batch 15 (2020-22) was held on January 16th, 2023, at the Bella Vista Campus.

Sri Adil Zainulbhai, Chairman, Capacity Building Commission, Government of India, was the chief guest and distributed the certificate and special awards.

The welcome address was given by Dr Nirmalya Bagchi, Director General (i/c), and the special address was given by Sri K Padmanabhaiah, IAS (Retd), Chairman-ASCI.

Sri Padmanabhaiah, IAS (Retd), Chairman-ASCI briefed about the ASCI and its operations, and also training of 500 civil servants from Bangladesh.

About the two courses are offered, he said that the PGDM (Hospital Management) course, which has been in operation for the past 18 years, and the PGDM course, which was launched in response to ASCI's work revolves around three activities of ASCI : Manager training and capacity building programmes, Management consulting & Applied research

Sri Adil Zainulbhai spoke on the topic **“India’s Century”**. In his address he talked about India's accelerated growth in technology and the overall startup ecosystem which has improved accessibility and quality of services.

Sri Adil Zainulbhai shed light on "how technology works" in his convocation address. How technology has aided in the acceleration of development in India and how technology has disrupted the Indian fintech arena. We used to look for technology from the United States or other countries outside of India ten years ago. However, in recent years, India has outpaced all other countries in terms of digital infrastructure, such as Aadhar and UPI.

India currently has the world's third largest unicorn population. In 2022, there are 108 unicorns, but there were only six in 2014. Because of the increased use of smartphones and the internet, as well as the increased number of investors, 60% of Unicorns were created after 2020.

Failure is not regarded negatively, but rather as a valuable learning experience.

India now has some of the best factories. The Maruti Suzuki facility in Manesar, Haryana, and the EV facility are two examples

Sri Adil Zainulbhai, Chairman, Capacity Building Commission delivering the convocation lecture

Sri Adil Zainulbhai said:

"This is the great time to be young & graduating in India. The opportunities you have in any field you choose are phenomenal, but the opportunities to make a difference in the country are even greater"

Medal Winners:

PGDM Batch 2: Ms Mogulla Srivarsha received the Gold Medal, Mr Thummala Vikram, IPS received the Silver Medal, and Ms Srigiri Amulya received the third place

PGDM (Hospital Management), Batch-15: Dr Sweta Surabhi received two gold medals, Dr Niveditha Srinivasan received the silver medal, and Dr Ayesha Sakina received the third place.

The outgoing students were sworn in by Dr Subodh Kandamuthan, Director of the Dr Kakarla Subba Rao Centre for Health Care Management at ASCI.

Sri Richard B Saldanha, Vice Chairman of ASCI, delivered the closing remarks at the convocation ceremony.

Prof Ram Charan's Lecture organized by ASCI New Delhi Centre

ASCI New Delhi Centre led by Sri S K Bose, Director, organized a Lecture **"Leadership During Uncertain Times: A Conversation with Ramcharan"**. This Programme is being organized in association with National Thermal Power Corporation (NTPC) Limited and Indian Oil Corporation (IOCL) at India International Centre

(IIC) Annex, New Delhi on December 23rd, 2022. This event was attended by Mr Hemang Jani, Secretary, CBC, representatives from NTPC and IOCL

Prof. Ram Charan is a world-renowned business consultant, author and speaker who has spent the past 40 years working with many top companies, CEOs, and boards of our time. He has an MBA and doctorate degrees from Harvard Business School, where he graduated with high distinction and was a Baker Scholar, and served on the faculties of Harvard Business School and Northwestern University before pursuing consulting full-time

Prof. Ram is renowned for cutting through the complexity of managing a business in today's fast-changing environment to identify the core business problem. Some of the companies he has worked with include Toyota, Bank of America, Key Bank, ICICI Bank, Aditya Birla Group, Novartis, Max Group, Yildiz Holdings, UST Global, Fast Retailing (Uniqlo), Humana, and Matrix.

Prof. Ram's practical advice on issues like growth, talent development, corporate governance, and money-making models for the digital age has been shared with millions of people through his books and articles in leading business publications. These solutions have been praised for being relevant, practical, and highly actionable.

Prof Ram Charan interacting with the attendees of the session

Prof. Ram has authored more than 30 books since 1998 that have sold over 4 million copies in more than a dozen languages. Three of his books were Wall Street Journal bestsellers, including *Execution*, coauthored with former Honeywell CEO Larry Bossidy, which spent more than 150 weeks on the New York Times bestseller list. He also has written for publications including Harvard Business Review, Fortune, BusinessWeek, Time, Chief Executive and USA TODAY.

Implementation of Prime Minister's Awards for Excellence in Public Administration 2022

ASCI collaborated with Department of Administrative Reforms & Public Grievances (DARPG), Govt. of India in implementing Prime Minister's Awards for Excellence in Public Administration 2022, instituted in in 2006 with the intention of recognising and rewarding the exceptional and

Hon'ble Prime Minister Sri Narendra Modi speaking at the Civil Services Day 2023 event

creative work done by districts/organizations of the Central and State governments towards the economic development of the nation.

The continual direction and mentoring provided by the honourable Chairman-CoG, ASCI, Sri K Padamanabhaiah, has brought forth the organization's incredible passion and zeal, which has led to participation from 743 (97%) districts nationwide and the receiving of a record 2,520 nominations. A major factor in the scheme's successful implementation has been the Dr Nirmalya Bagchi, Director General-ASCI's enthusiastic concentration, prompt guidance, and constant review of the progress.

Under the leadership of Sri V. Srinivas, Secretary DARPG, ASCI was in the forefront of conducting multiple outreach meetings with States/UTs and all Ministries/Departments of the Government of India which resulted in this massive participation.

The team from ASCI was led by Prof. Harsh Sharma and Prof J. Swarnalatha and consisted of Mr. Avik Chakraborty, Mr. Rajat Bhatnagar, Mr. Siddhartha Kumar, Ms. Kanika Garg and Ms. Shambhavi Singh.

Curation of the 16th Civil Services Day 2023 at Vigyan Bhavan, New Delhi

ASCI in collaboration with DARPG successfully curated the 16th Civil Services Day during 20th-21st April 2023. The theme for the Civil Services Day 2023 was “Viksit Bharat – Empowering Citizens and Reaching the Last Mile” to motivate civil servants of India to dedicate themselves to the ‘nation first’ approach.

The conscious guidance of the hon’ble Chairman-CoG, ASCI and the Director General-ASCI coupled with the perseverance of ASCI has ensured participation of around 9,000 officials across the country. The tireless involvement of the Secretary, DARPG to ensure maximum dissemination of knowledge has resulted in this massive momentum.

The Handbook, Concept Papers, Citation Booklet and other materials prepared by ASCI have been uploaded in the website of DARPG (www.darpg.gov.in) and have been shared with all the delegates. The event observed gracious presence of the Hon'ble Vice President of India, Minister for Railways & MeitY, Minister for Jal Shakti, Minister for Health & Family Welfare, Education Minister, Minister of State (PMO & PP) and CEO of NITI Aayog.

15 shortlisted awardees have been conferred with the Prime Minister’s Awards for Excellence in Public Administration 2022 by the hon’ble Prime Minister, Narendra Modi, in 21st April 2023.

ASCI Team led by DG Dr Nirmalya Bagchi with Sri V Srinivas, Secretary, DARPG

Project team of the ASCI - Implementation of Prime Minister's Awards for Excellence in Public Administration 2022

National Workshop on - "Roadmap for Making Central Autonomous Bodies Self-Reliant: The Case of Rural Development & Panchayati Raj"

March 27, 2023: Administrative Staff College of India, under the aegis of Ministry of Rural Development, Government of India, conducted a one-day National Workshop on - "**Roadmap for Making Central Autonomous Bodies Self-Reliant: The Case of Rural Development & Panchayati Raj**" at IIC New Delhi (March 27, 2023). In the context of paving the path for NIRD&PR (a CAB under the MoRD) in achieving 'true' autonomy and self-reliance, the workshop deliberated on its historical performance, current relevance and future scope in rural development.

The Inaugural Address Workshop was delivered by Dr R. Balasubramaniam (Member-HR, Capacity Building Commission). Dr Ashish Kumar Goel, I.A.S. (Additional Secretary to the Govt., MoRD), Dr G. Narendra Kumar, I.A.S. (Director General, NIRD&PR) and Dr Nirmalya Bagchi (Director General, ASCI) also graced and spoke in the inaugural session.

Dr Bagchi (**extreme right**) speaking during the Workshop. **From left-** Dr G. Narendra Kumar, I.A.S. (Director General, NIRD&PR), Dr R. Balasubramaniam (Member-HR, Capacity Building Commission. & Dr Ashish Kumar Goel, I.A.S. (Additional Secretary to the Govt., MoRD) also seen in the picture

The core mandate of NIRDPR should aim at bringing about a real change in the life of the last man standing down the street in rural India, opined Dr. Balasubramaniam. In a session that was moderated by Dr. Nirmalya Bagchi (Director General, ASCI), experts discussed on the possible governance structure, composition and functions for NIRDPR in the post-autonomy stage. Capacity Building, Academics, Research, Advocacy, Innovations, Asset Monetization, Convergence with other line Ministries, etc., were other crucial issues that were discussed in the workshop.

Discussion is underway the workshop

Several leading experts from the Academia, Civil Society Organizations, NGOs, and governments/ministries who primarily work in the sphere of rural development and panchayati raj participated in this one-day brainstorming event.

Dr Saswat Kishore Mishra (Asst. Professor, ASCI) coordinated the workshop and presented the vote of thanks.

The Workshop was a part of a larger study of its kind undertaken by ASCI that aims at preparing the roadmap for NIRDPR to achieve self-reliance in terms of functional, financial, and administrative autonomy.

ASCI Research Team who participated in the Workshop: Mrs Smita Sengupta Das, Dr Saswat Kishore Mishra, Dr Karnak Roy, Dr M M Ali, Dr Sai Kiran, Mrs Surabhi Mishra, Mr Vamshidhar Reddy

Launch of Environmental Sustainable Laboratory and Re-Think (Reducue Reuse & Recycle Knowledge hub) by Sri K T Rama Rao

As part of World Environment Day on June 05, 2023, Sri KT Rama Rao, Hon'ble Minister for Municipal Administration and Urban Development; Industries & Commerce; and Information Technology, Electronics & Communications of Telanganaof launched "Environmental Surveillance Laboratory (ESL)" and 'Rethink - Reduce, Reuse & Recycle Knowledge Hub' at the Bella Vista Campus.

Sri K TR inaugurated the Re-think lab along with Sri K Padamanabhaiah, Chairman, ASCI

ESL fulfills the crucial role of addressing the environmental monitoring requirements of various stakeholders, including government entities, private organizations, and non-governmental partners dedicated to ecological preservation. With a steadfast commitment to this cause, ESL consistently delivers top-notch monitoring services that are both high in quality and cost-effective. By doing so, ESL plays a pivotal role in guaranteeing the safety of water sources, promoting environmental sanitation, and upholding the principles of ecological sustainability.

Rethink is an innovative and pioneering initiative, the first of its kind in the country, that establishes a vital connection between Resource Recovery and Reuse (RRR) centers in wards and

cities and a wide range of potential clients. These clients include Startups, NGOs, CBOs, MSMEs, innovators, and corporates who are actively engaged in resource management activities.

The primary objective of Rethink is to expedite the transition towards a circular economy in waste management. By doing so, it endeavors to prevent the accumulation of plastics and waste in landfills and water bodies. Through strategic collaborations and partnerships, Rethink aims to create a sustainable and efficient ecosystem that promotes the effective utilization of resources and minimizes the environmental impact of waste disposal..

Sri K T Rama Rao speaking on the occasion said “Rethink serves as a cutting-edge waste exchange platform that actively monitors and collects real-time data from Resource Recovery and Reuse (RRR) centers. Through this innovative approach, Rethink effectively bridges the gap between waste supply and demand, ensuring that what may be considered as trash to someone becomes a valuable resource for another. By functioning as a central hub for circularity, Rethink plays a crucial role in promoting waste reuse and facilitating collaborations between innovators and entrepreneurs who specialize in upcycling waste materials.

The philosophy of RRR should be ingrained in the lifestyle of every citizen, making it an integral part of their daily routines. Telangana, in particular, aspires to set an example for the rest of the nation by becoming a model state in the realm of waste management and circularity. The initiation of this dialogue and the ongoing process are deserving of gratitude to ASCI for spearheading this transformative endeavour”.

Sri K T R Said “So far we have set up a total of 1962 RRR centres (Reduces Reuse Recycle) in 142 ULBs to collect used products such as used plastic items, old books, clothes & footwear etc. Over 200 MT of used items is already collected in these RRR Centres from 20th May till date. These products will be refurbished, reused, or remade into new products”

Sri. K. Padmanabhaiah, IAS (Retd) Hon'ble Chairman, ASCI, Prof. V. Srinivas Chary, Center Director and CEO WASH Innovation Hub, ASCI, Dr Satyanarayana, IAS, and others spoke. Sri P Ajay Kumar, Minister of Transport of Telangana, Sri Arvind Kumar, IAS, Sri Richard Saldanha, Vice Chairman, Dr Nirmalya Bagchi, DG (i/c), ASCI, Dr Snehalatha, Associate Professor and other faculty, staff and Ms Seema Kumar of UNICEF and officials from Government of Telangana were present during the event.

HPCL CMD Dr Pushp Kumar Joshi's Visit

Dr Pushp Kumar Joshi, Chairman & Managing Director, Hindustan Petroleum Corporation Limited visited Bella Vista Campus on November 22, 2022. He delivered the lecture on "People Oriented Business Growth".

Dr Joshi emphasized the importance of emotional intelligence in addition to technical skills in his presentation.

Dr Pushp Kumar Joshi, welcomed by Dr NirmalyaBagchi

“Employees must be given a sense of purpose so that they can add value to their work and be happy to work for the organisation.”

Why do human beings work, he wondered? Generally, the answer would be to earn a living, material comfort, and so on, but look for something else; the purpose of human life is not only to earn a living, but also to serve a larger purpose.

“When an organisation hires human resources, it hires a complete package of human qualities.”

Dr Joshi delivering the ASCI Public Lecture

Dr Joshi said “We realised in the organisation that when HPCL recruits Mechanical Engineers, we are getting a package, a subset of this package is a mechanical engineer, we are getting a whole of human beings, with all the emotions, biases, negativity, positivity, and so on”.

However, when we advance an employee to a higher level, leadership style and emotional intelligence are important.

He said *“Employees should be given a sense of purpose by the organisation. We become obsessed with assessment and measurement in management education. We will lose value addition if we become obsessed with assessment.”*

According to Dr. Joshi, work is a subset of life. Human Resources take care of the business if we take care of them, and human resources should be given a purpose. Though technical skills are required, emotional intelligence skills are also required.

Our Indian DNA contains a spiritual component. We need a little bit of spirituality. Why are many Indians leading large corporations around the world? Because of their adaptability, humility, and the values we uphold.

We can't possibly go wrong. If we take the Human Approach, we believe in people and their abilities. Work is an aspect of life. Life is bigger than work, and there is no substitute for dedication; emotional intelligence is essential.

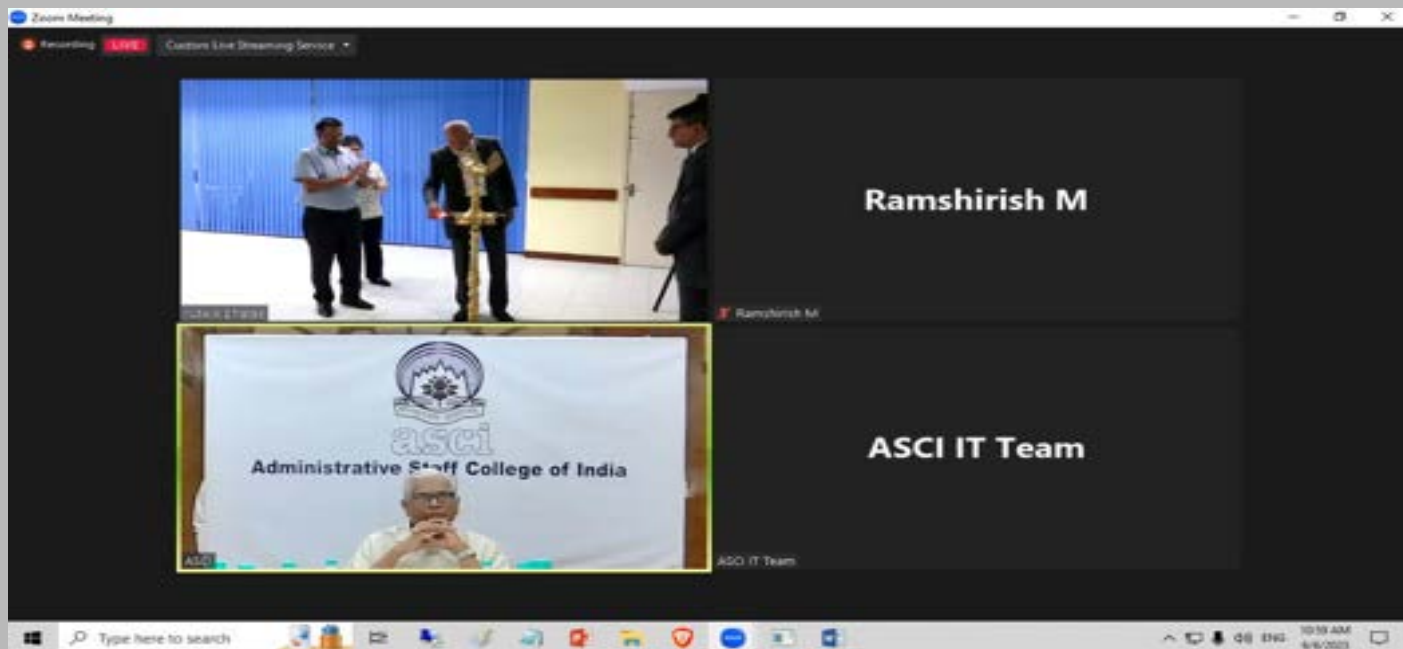

New Academic Block at College Park Campus

A plan has been put forth to develop a new academic block that will accommodate the increasing population of PGDM students. This modern building, designed with an environmentally friendly approach, will consist of two floors in addition to the ground floor (G+2). The accompanying sketch illustrates the proposed structure. The building will be constructed in accordance with Green Building principles and will be net zero compliant, effectively minimizing energy consumption and ensuring optimal energy efficiency.

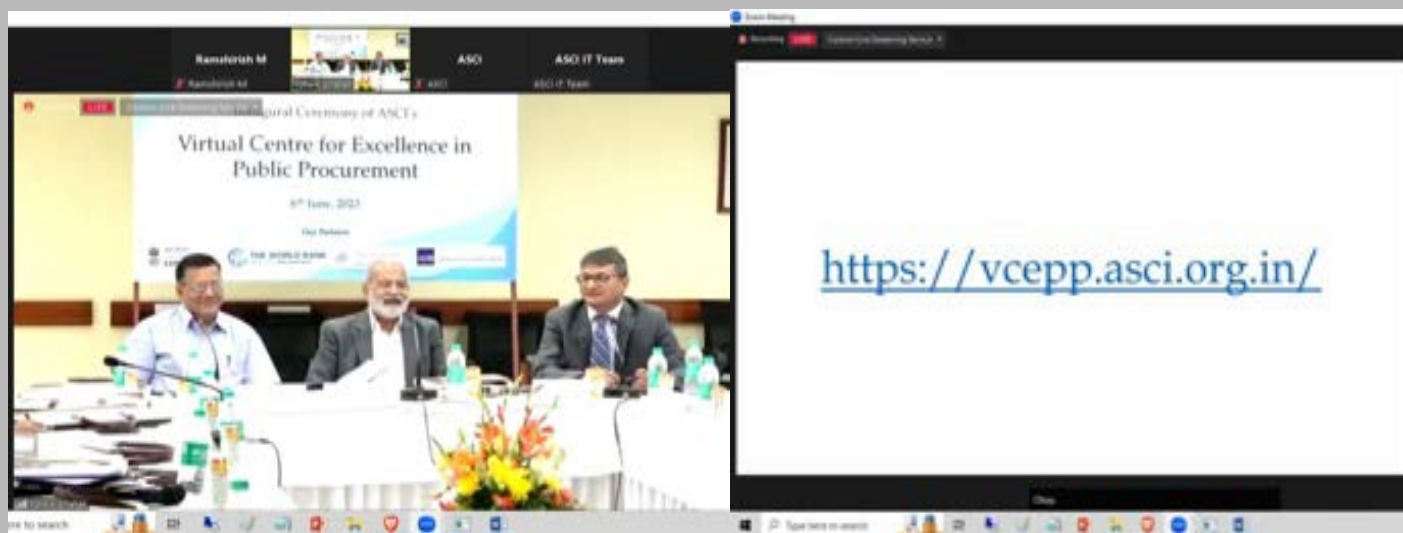

Launch of 'Virtual Centre for Excellence in Public Procurement'

On June 6, 2023, ASCI inaugurated its cutting-edge 'Virtual Centre for Excellence in Public Procurement' at the New Delhi Centre. The event was graced by esteemed dignitaries including Sri Adil Zainulbhai, Chairman of the Capacity Building Commission, Sri Sanjay Aggarwal, Advisor, Department of Expenditure, Ministry of Finance, Ms. Anna Wielogorska, Practice Manager (Procurement), South Asia Region at the World Bank, Mr. Shanker Lal, Lead Procurement Specialist at the World Bank, Smt. Alka Mittal, Former CMD of ONGC, Shri Shyam Sunder Mehndiratta, Senior Procurement Officer at the Asian Development Bank, and Mr. Harsh Sharma, Procurement Specialist (Consultant) at the Asian Development Bank.

Sri Adil Zainulbhai, the chief guest, emphasized the significance of capacity building at all levels of public procurement and commended ASCI for the timely launch of the Virtual Centre. He recognized its potential to enhance professional standards and ethical practices in the field.

Sri Sanjay Aggarwal shared valuable insights gained from formulating the General Financial Rules, 2017. He praised ASCI for its role in raising the bar for public procurement capacity building in India and lauded the Virtual Centre as a significant step towards achieving improved procurement outcomes.

Ms. Anna Wielogorska delivered the keynote address, acknowledging ASCI's commendable efforts in conducting training programs over the past 28 years. She highlighted the initiatives undertaken by the World Bank to promote fairness and transparency in public procurement.

Sri K Padmanabhaiah, Chairman and former Home Secretary, Government of India, delivered the opening remarks, extending his congratulations on the launch of the Virtual Centre. Dr. Nirmalya

Bagchi, Director General (i/c), provided an overview of the Centre's objectives and emphasized its significance in addressing the evolving needs of the public procurement sector.

A significant milestone during the ceremony was the signing of a Memorandum of Understanding (MoU) between the Department of Expenditure, Ministry of Finance, Government of India, and the Administrative Staff College of India. The MoU aims to conduct training programs on Public Procurement Principles for officers and executives working across various central government ministries, departments, subordinate/attached offices, and autonomous bodies.

Prof. Rutwik Phatak presented on the issues and challenges faced by public procurement in India, while Prof. BVN Sachendra provided insights into ASCI's upcoming programs in the field of public procurement for the year 2023-24. Prof. Vilas Shah concluded the event with a formal vote of thanks.

The launch of ASCI's Virtual Centre for Excellence in Public Procurement signifies a remarkable leap forward in enhancing the efficiency, transparency, and professionalism of public procurement practices in India.

Data Management and Data Analytics programme of USAID-NISHTHA-JHPIEGO

ASCI (jointly with ACCESS Health International) has been selected by USAID-NISHTHA-JHPIEGO for the implementation of the Data Management and Data Analytics Project. The project aims to enhance the analytical competence of 1200 healthcare officers, enabling them to carry out their routine work more efficiently using disease surveillance data. JHPIEGO, originally known as the Johns Hopkins Program for International Education in Gynecology and Obstetrics.

The program is designed for healthcare officers from Jhpiego and State Governments, specifically those designated as State/District nodal officers, Epidemiologists, Data Managers, Surveillance Officers, Entomologists, Microbiologists, Statistical Investigators, and M&E experts.

The project duration spans from November 22, 2022, to June 30, 2023, and led by Dr. Saswat Kishore Mishra as the Project Director. The Training of Trainers (ToT) program will be conducted in a physical mode, while the rest of the program will be delivered online.

Participants of the programme

Mid-Career Training Programme (MCTP) Level 4.0 for CAG Officers

The Centre for Economics and Finance (CEF) at ASCI organized the Mid-Career Training Program (MCTP), Level 4.0, specifically designed for senior officers from the Comptroller and Auditor General (C&AG) of India. The programme took place at ASCI's Bella Vista campus in Hyderabad. The program was inaugurated by Ms Atreyee Das, Additional Deputy Comptroller & Auditor General on 29th August 2022.

Participants of the MCTP (Level-4) Batch-1 Senior officers from the C&AG of India

The MCTP catered to eight batches of Group A level senior officers from both Central and Regional offices of C&AG across the country. The comprehensive program covered a wide range of topics, including public debt management, center-state financial relations, cyber security, environmental challenges, gender equality, and Sustainable Development Goals (SDGs), among others. Additionally, the program incorporated several sessions on personality development and motivation, aimed at enhancing the participants' skills and capabilities.

Training program on Monitoring and Evaluation for Indian Statistical Service Probationers

The Indian Statistical Service Probationers (43rd and 44th batch) participated in a week-long training program on Monitoring and Evaluation. The program was sponsored by the National Statistical Systems Training Academy, Ministry of Statistics, Government of India and took place at ASCI CPC from May 8th to May 12th, 2023. The program was directed by Dr. Subodh Kandanathan, Director of the Kakarla Subbarao Centre for Health Care Management at ASCI.

A total of 57 participants attended the training, where they received comprehensive instruction on the fundamentals of Monitoring and Evaluation, data collection methods, and were presented with case studies from various social sectors such as health and education. To gain practical insights, a field visit was organized to the LEPRASociety, allowing participants to understand the real-world application of Monitoring and Evaluation practices.

Dr. Nirmalya Bagchi, Director General (I/C) of ASCI delivered the valedictory address and distributed the certificates to the participants

DG as a Panelist at National Training Conclave representing ASCI

On June 11, 2023, Dr. Nirmalya Bagchi, the Director General (i/c) of ASCI, had the honor of being invited as a distinguished panelist at the National Training Conclave 2023. The conclave, organized by the Capacity Building Commission, took place in Delhi and focused on strategic resource planning. Other panelists include Sri V T Chandra Sekhar Rao, Vice President and Dean, L&T Institute of Project Management, Dr Palak Sheth, Project Director, Jio Institute, Dr Joy Elamon, Director General, Kerala Institute of Local Administration (KLIA).

During the panel discussion, Dr. Nirmalya Bagchi shared valuable insights and knowledge, drawing from the best practices of the Administrative Staff College of India (ASCI). With ASCI's rich history and expertise in capacity building and training, Dr. Bagchi highlighted the strategic approaches employed by ASCI in effectively planning and utilizing resources to achieve optimal outcomes.

Dr. Bagchi's participation as a panelist at the National Training Conclave served as a testament to ASCI's reputation and prominence in the field of capacity building and training. His contribution further showcased ASCI's commitment to sharing its expertise and best practices for the benefit of the wider professional community.

Prof. Srinivas Chary's visit to Bangladesh for Comprehensive 5-Day Training Programme for PPP Practitioners of Bangladesh

On January 8, 2023, Professor V. Srinivas Chary, the Director of the Centre for Environment, Urban Governance, and Infrastructure Development visited Dhaka for a Comprehensive 5-Day Training Programme for PPP Practitioners of Bangladesh. The event, organized by the Public Private Partnership Authority under the Prime Minister's Office in Bangladesh, featured an interactive session led by Prof. Chary.

During this session, Prof. Chary delved into the significance, models, and frameworks of Public-Private Partnerships (PPP). He introduced the fundamental concepts and principles behind PPP, providing the participants with a comprehensive understanding of this collaborative approach to governance and infrastructure development.

The training programme offered a platform for PPP practitioners in Bangladesh to enhance their knowledge and skills in this field. Prof. Chary's expertise and engaging session undoubtedly contributed to the participants' understanding of PPP, its relevance, and its various models and frameworks.

Research & Management Studies

In FY 2022-23, we secured 73 projects worth Rs. 33.69 Crores from different clients and closed 48 projects.

Our research publication output has seen a significant increase with 13 articles, 8 books/book chapters, and 1 patent filed. We aim to focus more on research performance as we pursue accreditations and rankings. While our top revenue generators in this area don't contribute to publications, the recent addition of young faculty has boosted our publication count. We encourage project leaders and star performers to convert their outcomes into research products. We also seek to leverage our network for value-added work that can be easily converted into publications. We recently secured 2 projects directly from NITI Aayog, which will impact policy formulation at the Central Govt. Our Research and Consultancy revenue for FY 2022-23 is Rs. 28.53 Crores, a 20% increase from last year. We have added pilot scale studies to our portfolio, and the revenue growth trend looks promising. Additionally, we secured 11 new assignments valued at Rs. 1.96 Cr during the last two months.

The budget for FY 2023-24 is Rs. 31.19 Crores, a 9% increase from the previous year, and we are determined to achieve this ambitious target.

Management Development Programmes

During the period of April 1, 2022, to March 31, 2023, our training activities have been diverse, including on-campus, international immersion, off-campus, and online formats. We have established new collaborations and clients, expanding our reach.

In the financial year 2022-23, we successfully conducted 94 on-campus in-company training programs for banks, government officials, and PSUs, with 2911 participants visiting our campus. Additionally, there were 50 announced programs with 1060 participants. We also conducted 21 online programs, including 2 announced and 19 ICTP programs, with a total of 841 participants engaging in intense class work and interactive sessions.

Furthermore, we organized 7 webinars and workshops that attracted approximately 1176 participants from across the country and abroad. Notably, we conducted an in-company program on Leadership Development for officials of Canara Bank, with international immersion components, involving 24 participants. We also conducted two announced Advanced Management Programs with international immersion study tours, marking a significant milestone for our college. New clients such as GAIL, SAIL, SCCL joined our regular clients NMDC, PFC, HPCL, and IOCL for the AMP.

Expanding our offerings, we initiated short duration programs at the New Delhi Centre, with 7 announced programs hosting 160 participants. The Centre also arranged a series of lectures by eminent individuals.

Furthermore, we have successfully secured nominations for programs conducted under new initiatives from organizations like Risk and Compliance Association, Access Health International, "Smart Transformations," and ADBI. These programs, focusing on various areas such as digital

strategy, health informatics, cyber resiliency, and city-wide inclusive sanitation, were well-received.

In terms of financial performance, our total revenue from training activities (on-campus and online) for the financial year 2022-23 amounted to Rs. 25.42 crores, surpassing the budgeted amount of Rs. 16.55 crores.

From April to May 2023, we conducted 21 ICTPs and five announced programs. Additionally, we have planned to conduct four AMPs this financial year. The first program, including the India component, was completed in May 2023, and international travel is scheduled for July 2023. The next program is set for August-September 2023. In April and May 2023, three programs were conducted at the New Delhi center. We have a series of programs scheduled for the second quarter as well.

Long Duration Programmes (PGDM & PGDM (HM))

PGDM (Hospital Management)

Batch 16 of PGDHM (2021-23) consisting of 60 students has completed their academic semesters and is currently engaged in final internship projects at hospitals and healthcare organizations. All eligible students have been successfully placed, with the highest package at Rs.9.00 lakhs and an average package of Rs.5.00 lakhs. Approximately 25 hospitals/healthcare organizations participated in campus recruitment, hiring all 52 eligible students. Notable organizations include Napier, Deloitte, Primera Health Information Technology, AIG hospitals, and more.

Batch 17 (2022-24) comprising 45 students will begin their summer internships from mid-June 2023 to August 2023. They will undertake projects at renowned hospitals and healthcare organizations across the country, including Zulekha Hospitals Dubai, IQVIA Delhi, Apollo, Care, Rainbow, Citizens, and KIMS. This year, we are offering specialized courses to enhance placements and excel in the health industry, covering topics such as applications of Excel, data analytics, health system strengthening, and communication skills.

PGDM

The 2021-23 batch students have successfully secured placements in their 3rd semester, with the highest package offered by ANZ Bank at Rs.9.0 lakhs and an average package of Rs.6.4 lakhs.

For the 2022-24 batch, students have been placed for their summer internships, with the highest stipend recorded at Rs.40,000 and an average stipend of Rs.20,600. The 2023-25 batch admissions outlook is positive. Already 45 confirmed admissions are there and the 1st section wise start in end Sept. 2023.

Administrative Staff College of India
Leadership through Learning

Webinar on
Inclusive and Aspirational Public Conveniences

Service standards and leading practices

The provision of inclusive, safe and well-maintained public conveniences is a public service and a municipal function. Swachh Bharat (Clean India) Mission has incentivized cities to develop aspirational toilets that are gender intentional and technology-enabled.

This webinar puts the spotlight on leading practices by cities and the private sector in the provision, maintenance and monitoring of public toilets.

India Vision 2047 Seminar

The seminar "**India Vision 2047**" was organised by the Centre for Management Studies (PGDM Programme) at College Park Campus in Banjara Hills, Hyderabad on March 24, 2023. The seminar was conducted as a part of the inter-college management festival PINNACLE '23.

The seminar provided a platform for college students to present their visions of India's future after 100 years of independence. Working in teams of two, students from various colleges in Hyderabad delivered presentations on diverse aspects of India's economy and social development, covering themes such as Sustainability, Governance, Fintech and Inclusion, Public Safety, and National Security.

The presentations were judged by a distinguished panel of judges, which included professors from ASCI and other renowned universities in Hyderabad. The judges evaluated the opinions and presentations of the teams.

The judges evaluated the teams' viewpoints, presentation abilities, and ability to properly respond to questions. The top performers were students from IIT Hyderabad, NALSAR University, and BIMTECH. Three awards were given to the three best presentations at the seminar's conclusion.

The programme was officially launched by Dr. Nirmalya Bagchi, while Dr. Tanusree Chakraborty, a professor at ASCI's Centre for Management Studies, acted as the seminar's faculty coordinator.

PINNACLE'23

PINNACLE'23, an exhilarating management fest, organized by the Centre of Management Studies. It took place from 23rd to 24th March 2023, captivating undergraduate and postgraduate students from 72 colleges. This glorious event redefined success with its dynamic competitions, networking opportunities, and unforgettable experiences. ASCI students showcased their managerial skills by organizing the fest, which featured academic sub-events, games, quizzes, case-study competitions, and fun activities like T-shirt painting and cultural programs. Pinnacle'23 garnered media coverage, awarded certificates and prizes, and celebrated the achievements of students from across Hyderabad. The esteemed Ms. Anindita Ganguly Nayak, India HR Head of HSBC, inaugurated the program, while the grand Valedictory Function was attended by Dr. Nirmalya Bagchi, Director General of ASCI. Dr. Tanusree Chakraborty, a faculty member at ASCI's Centre for Management Studies, served as the Faculty Coordinator for this remarkable event.

రేపటి నుంచి ఏఎన్సీఐ బృందం యానాం పర్యటన

యానాం (ఇండస్ విజన్వ్యూస్); యానాం ఛాంబర్ ఆఫ్ కామర్స్ అండ్ ఇండస్ట్రీ పిలుపు మేరకు అడ్మినిస్ట్రేటివ్ స్టాఫ్ కాలేజ్ ఆఫ్ ఇండియా హైదరాబాద్ (ఏఎన్సీఐ) ప్రోఫీసర్స్ బృందం యానాం నియోజకవర్గంలో ఈ నెల 22 నుండి 24 వరకు పర్యటించనున్నారని ఛాంబర్ ఆఫ్ కామర్స్ గౌరవ కార్యదర్శి ఈలప్రోలు విష్ణు వర్ధన్ రావు ఒక ప్రకటనలో తెలిపారు. యానాంలో గత రెండు దశాబ్దాలుగా పారిశ్రామిక రంగం ఎదుర్కొంటున్న ఇబ్బందులను, ప్రస్తుత పరిస్థితుల గురించి ఏ ఎన్సీఐ ప్రోఫీసర్స్ బృందం అధ్యయనం చేయనుంది. దీనిలో భాగంగా యానాం లోని పారిశ్రామికవేత్తలను, వర్తకసంఘం, కార్మికసంఘం, ప్రభుత్వ, ప్రైవేట్ ఉద్యోగులను ఎన్టీవోలను, వివిధ రాజకీయ పార్టీల నాయకులను కలిసి యానాం ప్రాంతం ఆర్థికవరంగా శాశ్వత అభివృద్ధికి అవకాశాలను అధ్యయనం చేసి సంబంధిత నివేదికను కేంద్ర, రాష్ట్ర ప్రభుత్వాలకు అందజేయనున్నారు. యానాం నియోజకవర్గం లో పారిశ్రామిక రంగం ద్వారా ఆర్థిక అభివృద్ధి చెందుతున్న అనుభవజ్ఞులైన మేధావులు తమ విలువైన సూచనలు సలహాలు కమిటీ దృష్టికి వాచ్మన్ నెంబర్ ద్వారా (9866113536 / 9849588525 / ఇమెయిల్ (yanamchamber@gmail.com) ద్వారా గాని తెలియపరచి ఈ ప్రాంతం అభివృద్ధికి దోహదపడాలని యానాం ఛాంబర్ కార్యదర్శి విష్ణు వర్ధన్ రావు కోరుతున్నారు.

పరిశ్రమలు తెరిపిస్తేనే ఉపాధి

- అడ్మినిస్ట్రేటివ్ స్టాఫ్ కాలేజ్ బృందానికి ప్రముఖులు, మేధావుల వినతి
- ఆర్ఎఫ్ కార్యాలయంలో అభిప్రాయ సేకరణ

యానాం: నియోజకవర్గ పరిధిలో గతంలో పరిధరాది చెన్ను, మర్క తరహా, లాల్ పరిశ్రమల ద్వారా వం దలాది మంది ఉపాధి పొందేవారు. ప్రస్తుతం అన్ని మూతపడడంతో నిరుద్యోగులకు ఉపాధి లేకుండాపో యిందని ప్రముఖులు, మేధావులు, వర్తకులు పేర్కొ న్నారు. గత మూడు రోజులుగా యానాంలోని జాయింట్ పరిశ్రమలపై అధ్యయనం చేసిన హైద్రా బాద్ నుంచి వచ్చిన అడ్మినిస్ట్రేటివ్ స్టాఫ్ కాలేజ్ (ఏఎన్సీఐ) ప్రొఫెసర్స్ బృందం స్థానిక ఆర్ఎఫ్ కార్యాలయం కాన్ఫరెన్స్ హాలులో ఆయా వర్గాలతో శుక్ర వారం సమావేశమైంది. ఈ సందర్భంగా పలువురు మాట్లాడుతూ మూతపడ్డ పరిశ్రమలు తెరిచేందుకు ప్రభుత్వం రాయితీలు ఇవ్వాలని, మౌలిక సదుపాయాలు కల్పించాలని కోరారు. ఈ కార్యక్రమంలో ఏఎన్సీఐ సభ్యులు డాక్టర్ ఎంఎం ఆర్, డాక్టర్ సాయికి రత్, యానాం ఛాంబర్ ఆఫ్ కామర్స్ అండ్ ఇండస్ట్రీ కార్యదర్శి ఈలప్రోలు విష్ణువర్ధనరావు, రిజిస్ట్రార్ నంబ్ ఈడి నర్సయ్యప్రసాద్, నల్లా వెంకట, పానుగుమట్ల విష్ణుమూర్తి, మల్లాది శామూల్, దత్తలూరి పతి, హం సాని రామలక్ష్మణుడు తదితరులు పాల్గొన్నారు.

పరిశ్రమల యజమానులు, ప్రముఖులతో చర్చిస్తున్న అడ్మినిస్ట్రేటివ్ స్టాఫ్ కాలేజ్ ఆఫ్ ఇండియా(ఏఎన్సీఐ) బృందం

కేంద్ర, రాష్ట్రాలకు త్వరలో నివేదిస్తాం యానాం పారిశ్రామిక రంగంపై అధ్యయనం చేసిన నివేదికను త్వరలో కేంద్ర, రాష్ట్రాలకు అంద జేస్తాం. పరిశ్రమల ద్వారానే అర్థికాభివృద్ధి సాధ్యం. వాటి స్థాపనకు రాయితీలు ఇవ్వాలని, విద్యుత్, నీరు, గ్యాస్, నాణ్యమైన ఇంధనం, పరి శ్రమలకు ఉపకరించేలా వైపుబ్యాభివృద్ధి కార్య

క్రమం నిర్వహించి, సింగిల్ విండో సిస్టమ్, రుణాల మంజూరు, పర్యాటక, ఆహార పరిశ్రమ లకు ప్రోత్సాహం వంటి అంశాలను చర్చించాం. వెనుకబడిన ప్రాంతంగా కేంద్ర పరిశాలను వర్తిం పజేయాలని పలువురు కోరారు.

- డాక్టర్ సీతారామమూర్తి, చైర్మన్, సెంటర్ ఫర్ ఎకనామిక్స్ అండ్ సైన్సెస్

Yanam : ASCI team to help boost Pondicherry economy

Yanam : ASCI team to help boost Pondicherry economy

Hans News Service | 25 June 2022 2:15 AM IST

The experts' team of ASCI speaking to the media

HIGHLIGHTS

Hyderabad-based Administrative Staff College of India (ASCI) is conducting a study of the Yanam economy in order to prepare a holistic report with solid recommendations to revive the economy of the region.

Yanam (Pondicherry) : Hyderabad-based Administrative Staff College of India (ASCI) is conducting a study of the Yanam economy in order to prepare a holistic report with solid recommendations to revive the economy of the region.

As part of the study, a team of experts comprising Director of Centre for Economics and Finance Dr PR Madhusoodanan and faculty members of Finance Dr MM Ali and Dr Sai Kiran from the institute went on a two-day visit to Yanam on Thursday and Friday. They had detailed discussions with various stakeholders of the economy, which include regional administrator, people's representatives, political parties, various government departments, representatives of industry, agriculture, education and other sectors of the region, labour unions and bankers. It's noticed that all are equally concerned about the existing condition of the economy and highlighted the immediate need to revive the economy of the region.

The major points and requirements came up in the discussions include industry-focused economic development, special incentives from Central Government marking Yanam as an aspirational district, revival of existing industries in the short term, industry requirements like reliable power, fresh water, natural gas, clean fuel, skill development programme targeted at industry requirements and single window clearance with quick response, fiscal and non-fiscal recommendations for the immediate term and medium term. The team identified tourism and aquaculture as potential sectors in the short term, along with other sectors in the medium term.

A detailed revival plan will be prepared based on these requirements taking into account the various Central Government schemes that are available for backward and aspirational regions.

"We will present the plan to the State government and appropriate Central government Ministries and Department to achieve the desired objectives", Dr Madhusoodanan said.

राष्ट्रीय गुणवत्ता आश्वासन मानक के तहत अस्पताल बनमनखी की टीम को प्रशिक्षण

प्रतिनिधि, पूर्णिया/बनमनखी

भारत सरकार के स्वास्थ्य एवं परिवार कल्याण मंत्रालय की ओर से राष्ट्रीय गुणवत्ता आश्वासन मानक (एनकेएएस) कार्यक्रम की शुरुआत की गयी है ताकि अस्पतालों में पहले से बेहतर सुख सुविधाएं उपलब्ध करायी जा सके.

सिविल सर्जन डॉ एमके वर्मा ने बताया कि अनुमंडलीय अस्पताल बनमनखी का यूनिसेफ के सहयोग से आंतरिक एवं बाह्य मूल्यांकन से संबंधित उचित प्रबंधन को लेकर हैदराबाद स्थित एडमिनिस्ट्रेटिव स्ट्रक्चर कलेज और इंडिया की सहायक प्राध्यापक डॉ भावना गुलाटी एवं झारखंड हेड डॉ जगजीत सिंह दो दिवसीय प्रशिक्षण शिविर के दौरान अस्पताल के सभी चिकित्सक, जोएनएस, एएनएम सहित कई अन्य कर्मियों को प्रशिक्षित करने के लिए आए हुए हैं. हैदराबाद स्थित एडमिनिस्ट्रेटिव स्ट्रक्चर कलेज और इंडिया की सहायक प्राध्यापक डॉ भावना गुलाटी ने कहा कि किसी भी कार्यक्रम के प्रभागीकरण के लिए अपना व अपने संस्थान का विकास करना जरूरी होता है. यूनिसेफ

प्रशिक्षण देते यूनिसेफ के पदधिकारी.

विहार के स्वास्थ्य विशेषज्ञ डॉ सिद्धार्थ शंकर रेड्डी ने बताया कि स्वास्थ्य के क्षेत्र में पहले से बेहतर सुविधाएं उपलब्ध कराने के लिए लक्ष्य कार्यक्रम, कायाकल्प योजना, राष्ट्रीय गुणवत्ता आश्वासन मानक कार्यक्रम, निर्यात टीकाकरण, अन्मोल, सुम्न, प्रसव कक्ष, एमएनसीयू, एनआरसी, एनबीसीसी, एनबीएसयू, केएमसी, स्तनपान, पोषण, सहित कई अन्य महत्वपूर्ण कार्यक्रमों को लेकर प्रशिक्षण कार्यक्रम में यूनिसेफ अपनी भूमिका निभाता है. इस अवसर पर जिला सलाहकार गुणवत्ता यक्षीन पदाधिकारी डॉ अनिल कुमार शर्मा, स्थानीय

14 डॉक्टर समेत 50 कर्मियों को किया गया प्रशिक्षित

क्षेत्रीय कार्यक्रम प्रबंधक नज़मूल होद ने बताया कि इन दो दिवसीय प्रशिक्षण कार्यक्रम के तहत बनमनखी मुख्यालय स्थित अनुमंडलीय अस्पताल के 12 चिकित्सकों, 2 दंत चिकित्सक, 17 जीएनएम, 2 एएनएम, 1 परिवार नियोजन सलाहकार, 4 लेब टेक्नीशियन, 2 फार्मासिस्ट, 1 एक्सरे टेक्नीशियन, 2 डीपीटीसी, 1 पैरामेडिकल कार्यकर्ता, 2 परिवार नियोजन कार्यकर्ता, 1 कालाजार टेक्निकल पर्यवेक्षक एवं 3 चतुर्थ वर्गीय कर्मचारी को प्रशिक्षित किया गया. प्रसव कक्ष, ऑपरेशन थियेटर, ओपीडी, आइपीडी, इमरजेंसी, फार्मसी, जेनरल ऑपरेशन थियेटर, रक्तबोध, लेब टेक्नीशियन से संबंधित प्रशिक्षण दिया गया.

एमओआईसी डॉ प्रिंस कुमार सुमन, एचएम अधिकारी आनंद, यूनिसेफ के क्षेत्रीय सलाहकार शिव शंकर आनंद, आरसीएच समन्वयक राजकुमार,

मोअम्मर शरमा, नंदन कुमार झा, तनुज कौशिक, सीफर के प्रमंडलीय समन्वयक धर्मेन्द्र कुमार रस्तोगी सहित कई कर्मी उपस्थित थे.

स्वास्थ्य | भारत सरकार के स्वास्थ्य एवं परिवार कल्याण मंत्रालय द्वारा राष्ट्रीय गुणवत्ता आश्वासन मानक (एनकेएएस) कार्यक्रम की हुई शुरुआत

ओपीडी, ऑपरेशन थियेटर और प्रसव कक्ष से संबंधित दिया प्रशिक्षण

पूर्णिया, हिंदुस्तान संवाददाता। भारत सरकार के स्वास्थ्य एवं परिवार कल्याण मंत्रालय द्वारा राष्ट्रीय गुणवत्ता आश्वासन मानक (एनकेएएस) कार्यक्रम की शुरुआत की गई है। डॉ. अनिल कुमार शर्मा ने बताया कि यह सुविधाएं उपलब्ध करा दी जा सकें। प्रतिनिधि डॉ. एमके वर्मा ने बताया कि जिला मुख्यालय से लगभग 40 किलोमीटर दूर अनुमंडलीय अस्पताल बनमनखी का यूनिसेफ के सहयोग से आंतरिक एवं बाह्य मूल्यांकन से संबंधित उचित प्रबंधन को लेकर हैदराबाद स्थित एडमिनिस्ट्रेटिव स्ट्रक्चर कलेज और इंडिया की सहायक प्राध्यापक डॉ. भावना गुलाटी व झारखंड हेड डॉ.

जगजीत सिंह सहजीव अस्पताल परिवार में दो दिवसीय प्रशिक्षण शिविर के दौरान अस्पताल के सभी चिकित्सक, जोएनएस, एएनएम सहित कई अन्य कर्मियों को प्रशिक्षित करने

के लिए आए हुए हैं। क्षेत्रीय कार्यक्रम प्रबंधक नज़मूल होद ने बताया कि इन दो दिवसीय प्रशिक्षण कार्यक्रम के तहत कायाकल्प योजना, राष्ट्रीय गुणवत्ता आश्वासन मानक कार्यक्रम, निर्यात टीकाकरण, अन्मोल, सुम्न, प्रसव कक्ष, एमएनसीयू, एनआरसी, एनबीसीसी, एनबीएसयू, केएमसी, स्तनपान, पोषण, सहित कई अन्य महत्वपूर्ण कार्यक्रमों को लेकर प्रशिक्षण कार्यक्रम में यूनिसेफ अपनी भूमिका निभाता है.

संस्थान के विकास से पहले खुद को बदलना जरूरी

हैदराबाद स्थित एडमिनिस्ट्रेटिव स्ट्रक्चर कलेज और इंडिया की सहायक प्राध्यापक डॉ. भावना गुलाटी ने उद्घोषित सभी प्रशिक्षणियों से कहा कि किसी भी क्षेत्र का संस्थान का विकास करने के लिए पहले खुद को बदलना होगा। किसी भी कार्य को करने से पहले अपने लक्ष्य को तय करना होगा तभी आगे बढ़ सकते हैं। अमुक लक्ष्य-क्यों ऐसा भी होता है उसके लक्ष्य में कार्य आता है लेकिन अपने लक्ष्य की जरूरत नहीं है। बेहतर अपने लक्ष्य को तय करना है। एक व एक दिन बीत जाते हैं। किसी भी कार्यक्रम के प्रभागीकरण के लिए अपने व अपने संस्थान का विकास करना जरूरी होता है। विकास का संस्थान में जो भी कमियां हैं उसको दूर करो तब उसका स्तर इतना बढ़ने से हर तरह की सुख सुविधा मिल जाते हैं। इसके साथ ही बेहतर अपने लक्ष्य के लिए सबसे पहले अपनी समर्थन का होना बहुत जरूरी होता है।

बाद प्रशिक्षण सभी चिकित्सक पदाधिकारी एवं अन्य संलग्न कर्मी अपने कार्य के प्रति पूरी निष्ठा के साथ अस्पताल परिवार में अपने कर्मी-मरीजों एवं अधिकारियों के साथ उत्तम व्यवहार का परिचय दें। इन दो दिवसीय प्रशिक्षण कार्यक्रम के दौरान प्रसव कक्ष, ऑपरेशन थियेटर, ओपीडी, आइपीडी, इमरजेंसी, फार्मसी, जेनरल ऑपरेशन थियेटर, रक्तबोध, लेब टेक्नीशियन से संबंधित प्रशिक्षण दिया गया। यूनिसेफ विभाग के समन्वयक धर्मेन्द्र कुमार रस्तोगी ने बताया कि विभाग ही नहीं बल्कि देश के विभिन्न राज्यों में स्वास्थ्य विभाग के साथ जुड़कर तकनीकी रूप से यूनिसेफ संयोजन कार्य करते हैं।

अस्पताल के 12 चिकित्सकों, 2 दंत चिकित्सक, 17 जीएनएम, 2 एएनएम, 1 परिवार नियोजन सलाहकार, 4 लेब टेक्नीशियन, 2 फार्मासिस्ट, 1 एक्सरे टेक्नीशियन,

डीपीटीसी, 1 पैरामेडिकल कार्यकर्ता, 2 परिवार नियोजन कार्यकर्ता, 1 कालाजार टेक्निकल पर्यवेक्षक एवं 3 चतुर्थ वर्गीय कर्मचारी को प्रशिक्षित किया गया। इस प्रशिक्षण शिविर के

अस्पताल के मूल्यांकन से संबंधित उचित प्रबंधन को लेकर प्रशिक्षण कार्यक्रम का हुआ समापन

सोनभद्र संवाददाता, पूर्णिया।

भारत सरकार के स्वास्थ्य एवं परिवार कल्याण मंत्रालय द्वारा राष्ट्रीय गुणवत्ता आश्वासन मानक (एन किउएएस) कार्यक्रम की शुरुआत की गई है। ताकि अस्पताल में पहले से बेहतर सुख सुविधाएं उपलब्ध करायी जा सकें। सिविल सर्जन डॉ. एसके वर्मा ने बताया कि जिला मुख्यालय से लगभग 40 किलोमीटर दूर अनुमंडलीय अस्पताल बनमनखी का यूनिसेफ के सहयोग से आंतरिक एवं बाह्य मूल्यांकन से संबंधित उचित प्रबंधन को लेकर हैदराबाद स्थित एडमिनिस्ट्रेटिव स्टाफ कॉलेज ऑफ इंडिया की सहायक प्राध्यापक डॉ. भावना गुलाटी एवं झारखंड हेड डॉ. जगजीत सिंह स्थानीय अस्पताल परिसर में दो दिवसीय प्रशिक्षण शिविर के दौरान अस्पताल के सभी चिकित्सक, जीएनएम, एएनएम सहित कई अन्य कर्मियों को प्रशिक्षित करने के लिए आए हुए हैं। इस अवसर पर जिला सलाहकार गुणवत्ता यकीन पदाधिकारी डॉ. अनिल कुमार शर्मा, स्थानीय एमओआईसी डॉ. प्रिंस कुमार सुमन, एचएम अभिषेक आनंद, यूनिसेफ के क्षेत्रीय सलाहकार शिव शेखर आनंद, आरसीएच समन्वयक राजकुमार, मोअम्मर हाशमी, नंदन कुमार झा, तनुज कौशिक, सीफार के प्रमंडलीय समन्वयक धर्मेन्द्र कुमार रस्तोगी सहित कई कर्मी उपस्थित थे।

संस्थान का विकास करने से पहले खुद को बदलना जरूरी: डॉ. भावना गुलाटी

हैदराबाद स्थित एडमिनिस्ट्रेटिव स्टाफ कॉलेज ऑफ इंडिया की

सहायक प्राध्यापक डॉ. भावना गुलाटी ने उपस्थित सभी प्रतिभागियों से कहा कि किसी भी क्षेत्र या संस्थान का विकास करने के लिए पहले खुद को बदलना होगा। किसी भी कार्य को करने से पहले अपने लक्ष्य को तय करना होगा तभी आपको सफलता मिल सकती है। अमूमन कभी-कभी ऐसा भी होता है कि आपके लक्ष्य में बाधाएं आती हैं लेकिन आपको घबराने की जरूरत नहीं है। केवल आपको अपने लक्ष्य पर ही नजर रखना है। एक न एक दिन मंजिल जरूरी मिलेगी।

स्थानीय अस्पताल के 50 कर्मियों को किया गया प्रशिक्षित: आरपीएम

क्षेत्रीय कार्यक्रम प्रबंधक नजमूल होदा ने बताया कि इन दो दिवसीय प्रशिक्षण कार्यक्रम के तहत बनमनखी मुख्यालय स्थित अनुमंडलीय अस्पताल के 12 चिकित्सकों, 2 दंत चिकित्सक, 17 जीएनएम, 2 एएनएम, 1 परिवार नियोजन सलाहकार, 4 लैब टेक्नीशियन, 2 फार्मासिस्ट, 1 एक्सरे टेक्नीशियन, 2 पीपीटीसी, 1 पैरामेडिकल कार्यकर्ता, 2 परिवार नियोजन कार्यकर्ता, 1 कालाजार टेक्निकल पर्यवेक्षक एवं 3 चतुर्थ वर्गीय कर्मचारी को प्रशिक्षित किया गया। इस प्रशिक्षण शिविर के बाद प्रशिक्षित सभी चिकित्सा

पदाधिकारी एवं अन्य स्वास्थ्य कर्मी अपने कार्यों के प्रति पूरी निष्ठा के साथ अस्पताल परिसर में आने वाले मरीजों एवं अभिभावकों के साथ उत्तम व्यवहार का परिचय देंगे। इन दो दिवसीय प्रशिक्षण कार्यक्रम के दौरान प्रसव कक्ष, ऑपरेशन थियेटर, ओपीडी, आईपीडी, इमरजेंसी, फार्मेसी, जनरल ऑपरेशन थियेटर, रक्तकोष, लैब टेक्नोलॉजी से संबंधित प्रशिक्षण दिया गया।

स्वास्थ्य विभाग के साथ जुड़कर अपनी भूमिका निभाता है यूनिसेफ: डॉ. रेड्डी

यूनिसेफ बिहार के स्वास्थ्य विशेषज्ञ डॉ. सिद्धार्थ शंकर रेड्डी ने बताया कि बिहार ही नहीं बल्कि देश के विभिन्न राज्यों में स्वास्थ्य विभाग के साथ जुड़कर तकनीकी रूप से यूनिसेफ संगठन कार्य करता है। स्वास्थ्य के क्षेत्र में पहले से बेहतर सुविधाएं उपलब्ध कराने के लिए लक्ष्य कार्यक्रम, कायाकल्प योजना, राष्ट्रीय गुणवत्ता आश्वासन मानक (उदअर) कार्यक्रम, नियमित टीकाकरण, अनमोल, सुमन, प्रसव कक्ष, एसएनसीयू, एनआरसी, एनबीसीसी, एनबीएसयू, केएमसी, स्तनपान, पोषण, सहित कई अन्य महत्वपूर्ण कार्यक्रमों को लेकर प्रशिक्षण कार्यक्रम में यूनिसेफ अपनी भूमिका निभाता है।

अस्पताल के मूल्यांकन से संबंधित उचित प्रबंधन को लेकर प्रशिक्षण कार्यक्रम का हुआ समापन

शुनिष्, 15 जून : भारत सरकार के स्वास्थ्य एवं परिवार कल्याण मंत्रालय द्वारा राष्ट्रीय गुणवत्ता आवासन मानक (एन किडएएस) कार्यक्रम को शुरूआत की गई है। तबसे अस्पताल में पहले से बेहतर सुविधाएं उपलब्ध करायी जा सकें। सिविल सर्जन डॉ एमके वर्मा ने बताया कि जिला मुख्यालय से लगभग 40 किलोमीटर दूर अनुमंडलीय अस्पताल बनमनखी का शुनिष्क के सहयोग से अंतिम एवं वास्तव मूल्यांकन से संबंधित उचित प्रबंधन को लेकर हैदराबाद स्थित एडमिनिस्ट्रेटिव स्ट्रक्चर कॉलेज ऑफ इंजिनियरिंग के सहयोग से प्रशिक्षण कार्यक्रम का शुनिष्क के सहयोग से समापन हुआ।

के प्रमंडलीय समन्वयक धर्मेन्द्र कुमार रानोनी सहित कई कर्मी उपस्थित थे। **संस्थान का विकास करने के पहले सुदृढ़ ढांचा जरूरी है** डॉ. भावन गुजराटी : हैदराबाद स्थित एडमिनिस्ट्रेटिव स्ट्रक्चर कॉलेज ऑफ इंजिनियरिंग के सहायक प्राध्यापक डॉ. भावन गुजराटी ने उल्लेखित सभी प्रतिभागियों से कहा कि किसी भी क्षेत्र का संस्थान का विकास करने के लिए पहले सुदृढ़ ढांचा बनाना जरूरी है। किसी भी कार्य को करने से पहले अपने तथ्य को ठीक करना होगा तभी आपको सफलता मिल सकती है। अनुमान ऊपर-ऊपर भी होता है

कि आपको तथ्य में बाधाएं आती हैं लेकिन आपको धराने की जरूरत नहीं है। किन्तु आपको अपने तथ्य पर ही नजर रखनी है। एक न एक दिन मंजिल जरूरी मिलेगी। किसी भी कार्यक्रम के प्रभावीकरण के लिए अपना व अपने संस्थान का विकास करना जरूरी होता है। विभाग या संस्थान में जो भी कामयाबी है उसको दूर करते हुए उसका सही इस्तेमाल करने में हम तरह की सुविधाएं मिल जाती हैं। इसके साथ ही बेहतर तरीके कार्य के लिए सबसे पहले आपको समन्वय का होना बहुत ज़रूरी होता है।

राष्ट्रीय मानक के 50 कर्मीयों को किया गया प्रशिक्षण : राष्ट्रीय कार्यक्रम प्रबंधक नजमुल होद ने बताया कि इन दो दिवसीय प्रशिक्षण कार्यक्रम के तहत बनमनखी मुख्यालय स्थित अनुमंडलीय अस्पताल के 12 चिकित्सकों, 2 दंत चिकित्सक, 17 नर्सिंग, 2 एनएस, 1 परिवार नियोजन सहायक, 4 लैब टेक्नीशियन, 2 पथनीसिस्ट, 1 एक्सेटिव टेक्नीशियन, 2 पीपीटीसी, 1 पैथोलॉजिकल कार्मिक, 2 परिवार नियोजन कार्मिक, 1 कान्चन टैक्निकल पर्सनल एवं 3 चतुर्थ वर्गीय

कर्मचारी को प्रशिक्षित किया गया। इस प्रशिक्षण शिविर के बाद प्रशिक्षित सभी चिकित्सा पदाधिकारी एवं अन्य स्वास्थ्य कर्मी अपने कर्माओं के प्रति पूरी निष्ठा के साथ अस्पताल परिसर में अपने-वर्गों में प्रशिक्षण एवं अधीनस्थों के साथ उचित व्यवहार का परिचय देंगे। इन दो दिवसीय प्रशिक्षण कार्यक्रम के दौरान प्रमुख कक्षा, ऑपरेशन थियेटर, ओपीडी, आईपीडी, इमरजेंसी, फार्मसी, जेनरल ऑपरेशन थियेटर, रक्तकक्ष, लैब टेक्नोलॉजी से संबंधित प्रशिक्षण दिया गया।

शुनिष्क निष्ठा है शुनिष्क शक्ति : शुनिष्क निष्ठा के स्वास्थ्य विशेषज्ञ डॉ. सिद्धार्थ शंकर रेड्डी ने बताया कि निष्ठा ही नहीं बल्कि देश के विभिन्न राज्यों में स्वास्थ्य विभाग के साथ जुड़कर तकनीकी रूप से शुनिष्क संयोजन कार्य करता है। स्वास्थ्य के क्षेत्र में पहले से बेहतर सुविधाएं उपलब्ध करने के लिए तथ्य कार्यक्रम, कक्षाकल्प योजना, राष्ट्रीय गुणवत्ता आवासन मानक (एन किडएएस) कार्यक्रम, निष्ठा टोकाकरण, अनमोल, सुमन, प्रसन्न कक्ष, एमएनपीसी, एनआरसी, एनसीसीसी, एनसीएसए, केएमसी, स्नानचान, पोषण, संहिता कई अन्य महत्वपूर्ण कार्यक्रमों को लेकर प्रशिक्षण कार्यक्रम में शुनिष्क अपनी भूमिका निभाता है। हैदराबाद से आई दो सदस्यीय टीम द्वारा अपने दो दिवसीय प्रशिक्षण कार्यक्रम के दौरान उचित प्रबंधन से जुड़े विषयों को लेकर प्रतिभागियों को काफ़ी महानतापूर्वक प्रशिक्षण दिया गया। निष्ठा पवित्र में अनुमंडलीय अस्पताल बनमनखी का राष्ट्रीय गुणवत्ता आवासन मानक के तहत प्रभावीकरण होना है। जिसके लिए तैयारी का माहौल से अस्पताल में कार्य चल रहा है।

अस्पताल के मूल्यांकन से संबंधित उचित प्रबंधन को लेकर प्रशिक्षण कार्यक्रम का हुआ समापन

स्वास्थ्य अस्पताल शीला में दो दिवसीय प्रशिक्षण शिविर के दौरान स्वास्थ्य विभाग के सभी अधिकारी एवं कर्मी हुए शामिल।
-नियोजन का निष्ठा करने से पहले सुदृढ़ ढांचा बनाना जरूरी है।
-राष्ट्रीय मानक के 50 कर्मीयों को प्रशिक्षण कार्यक्रम का शुनिष्क के सहयोग से समापन हुआ।

के प्रमंडलीय समन्वयक धर्मेन्द्र कुमार रानोनी सहित कई कर्मी उपस्थित थे। **संस्थान का विकास करने के पहले सुदृढ़ ढांचा जरूरी है** डॉ. भावन गुजराटी : हैदराबाद स्थित एडमिनिस्ट्रेटिव स्ट्रक्चर कॉलेज ऑफ इंजिनियरिंग के सहायक प्राध्यापक डॉ. भावन गुजराटी ने उल्लेखित सभी प्रतिभागियों से कहा कि किसी भी क्षेत्र का संस्थान का विकास करने के लिए पहले सुदृढ़ ढांचा बनाना जरूरी है। किसी भी कार्य को करने से पहले अपने तथ्य को ठीक करना होगा तभी आपको सफलता मिल सकती है। अनुमान ऊपर-ऊपर भी होता है

Srinagar, 01 Jul 2022

Director General, J&K Institute of Management, Public Administration & Rural Development (IMPARD), Saurabh Bhagat today inaugurated one-day Workshop on "Certification/ Documentation of Case Studies on Success Stories of the UT Government" here.

The workshop was organized by J&K IMPARD in collaboration with Administrative Staff College of India (ASCI). The aim of the workshop was to improve the Case Study writing capability of the Officers of the UT which is a priority identified by Principal Secretary to LG, Nitishwar Kumar.

The Workshop was attended by high level team from ASCI Professor Dr. Harsh Sharma and Aveek Chakarverthy, Senior Faculty and Programme Manager, Administrative Staff College of India (ASCI); and M.Yatoo, Director General (Budget), Departments of Finance, Khalid Majid, Director Panchayati Raj; Ayushu Sudan, State Nodal Officer and Sanam Mansoor, Nodal Officer, Ayushman Bharat (Health); and Nisar Ahmad, Nodal Officer, J&K Bank; and JKAS Probationer Trainees of Batch-2020.

All officers gave their presentation and sought suggestions for improving the case study writing. Saurabh Bhagat informed the participants about the notable achievements and success stories of the UT Government under the able leadership of LG Manoj Sinha and Chief Secretary Arun Kumar Mehta.

He said that improvement in the quantity and quality of governance in all major sectors of Administration has been the salient feature of the Lieutenant Governor Administration. The Director General impressed that these success stories of the LG Administration are required to be documented through written Case Studies which in turn are required to be certified from a National Level Centre of Excellence. He informed that for this purpose J&K IMPARD has signed MoU with ASCI for this purpose.

He also informed that the Chief Secretary has identified four Case Studies namely Back to Village Programme; Ayushman Bharat Health Insurance Scheme; Empowerment - Setting Benchmarks in Transparency; & J&K Bank: A Story of Transformation, for documentation, and certification. On the occasion the Faculty of J&K IMPARD were also present.

Rural population in need of preventive dental healthcare: Experts

EXPRESS NEWS SERVICE
Hyderabad

STRESSING the importance of creating awareness about preventive dental health in rural areas, participants at a seminar on "Way forward after Dentistry" said that there is an urgent need for extensive utilisation of BDS doctors and clinicians in primary and urban healthcare centres as well as at vaccination camps.

The seminar was recently organised at Dr Kakarla Subbarao Centre for Health Care Management with participation of around 80 students, faculty and dental practitioners. The participants discussed several topics, including career options for dental students.

"Before the pandemic, dental and medical college students used to set up their camps help-

ing the patients to identify problems at an early stage," said Dr Subodh Kandamuthan, Director of KSRC Health Care Management Centre.

"Now, lack of awareness has increased among rural population," he added.

Under Ayushman Bharat, the government of Telangana has included dental health plan

at health and wellness centres. However, not every village has such a centre.

The panelists also said that dental doctors can even help in handling the pandemic. "As there is a shortage of doctors, BDS doctors can work in their place as their curriculum is the same for the first few years," said Dr Subodh.

Before the pandemic, dental and medical students used to set up camps, helping the patients to identify problems at an early stage. Now, lack of awareness has increased among rural population

Hyderabad: ASCI commemorates birth centenary of Prof Venugopal Rao

The Administrative Staff College of India (ASCI) hosted an oration commemorating the birth centenary of late Prof (Dr) Venugopal Rao

BY TELANGANA TODAY UPDATED ON - 09:45 PM, FRI - 23 SEPTEMBER 22

Hyderabad: The Administrative Staff College of India (ASCI) hosted an oration commemorating the birth centenary of late Prof (Dr) Venugopal Rao, former Director General, Bureau of Police Research and Development (BPR&D), New Delhi, at its Bella Vista Campus here on Friday.

Kamal Kumar, Hon. Advisor [ASCI](#) and former Director, Sardar Vallabhbhai Patel National Police Academy (SVPNAPA), Hyderabad, delivered the oration on "National Security Paradigms and Policing." Dr Nirmalya Bagchi, DG (i/c), ASCI, welcomed and introduced the guest to the audience.

Kamal Kumar discussed the role of policing in relation to national security and said that national security is a nation's ability to defend itself against any potential threat from any source. "However, until the twentieth century, there was a widespread misconception that national security was only concerned with protecting the country's borders. By implication, it meant putting the entire burden of national security on the shoulders of the armed forces," he said.

He also emphasised the importance of police forces in combating internal threats such as terrorism, militancy and insurgencies, [left-wing extremism](#), right-wing movements, organised crime, border policing, coastline policing, critical infrastructure security, VIP security, cyber security, and so on.

Prof S Mohan Das, Chairman, Prof S Venugopal Rao Memorial Charitable Trust, and others also participated.

हैदराबाद: एससीआई ने प्रोफेसर वेणुगोपाल राव की जयंती मनाई

प्रोफेसर वेणुगोपाल राव की जयंती मनाई

हैदराबाद: भारतीय प्रशासनिक कर्मचारी कॉलेज (एससीआई) ने यहां अपने बेला गिस्टा परिसर में दिवंगत प्रोफेसर (डॉ) वेणुगोपाल राव, पूर्व महानिदेशक, पुलिस अनुसंधान और विकास ब्यूरो (बीपीआरएंडडी), नई दिल्ली की जन्म शताब्दी के उपलक्ष्य में एक व्याख्यान की मेजबानी की। शुक्रवार को।

कमल कुमार, मान, सलाहकार एससीआई और पूर्व निदेशक, सरदार वल्लभभाई पटेल राष्ट्रीय पुलिस अकादमी (एसबीपीएनएपीए), हैदराबाद ने "राष्ट्रीय सुरक्षा प्रतिमान और पुलिसिंग" पर व्याख्यान दिया। एससीआई के डीजी (आई/सी) डॉ निर्मल्या बागची ने अतिथियों का स्वागत किया और दर्शकों से उनका परिचय कराया।

कमल कुमार ने राष्ट्रीय सुरक्षा के संबंध में पुलिस की भूमिका पर चर्चा की और कहा कि राष्ट्रीय सुरक्षा किसी भी स्रोत से किसी भी संभावित खतरे के खिलाफ खुद की रक्षा करने की राष्ट्र क्षमता है। "हालांकि, बीसवीं शताब्दी तक, एक व्यापक गलत धारणा थी कि राष्ट्रीय सुरक्षा का संबंध केवल देश की सीमाओं की रक्षा से है। निहितार्थ से, इसका मतलब राष्ट्रीय सुरक्षा का पूरा बोझ सशस्त्र बलों के कंधों पर डालना था," उन्होंने कहा।

उन्होंने आतंकवाद, उग्रवाद और उग्रवाद, वामपंथी उग्रवाद, दक्षिणपंथी आंदोलनों, संगठित अपराध, सीमा पुलिसिंग, लटबर्सी पुलिसिंग, महत्वपूर्ण बुनियादी ढांचे की सुरक्षा, वीआईपी सुरक्षा, साइबर सुरक्षा, और जैसे आंतरिक खतरों से निपटने में पुलिस बलों के महत्व पर भी जोर दिया। जल्द ही।

प्रो एस वेणुगोपाल राव मेमोरियल चैरिटेबल ट्रस्ट के अध्यक्ष प्रोफेसर एस मोहन दास और अन्य ने भी भाग लिया।

AP keen on thermal comfort at govt housing

AP keen on thermal comfort at govt housing

Vijayawada: As part of its concerted efforts to make the gigantic housing scheme of Andhra Pradesh as the best energy efficient housing programme in the country, the AP Housing Department is planning to implement a demonstration project in the model house by facilitating cool roof that helps improving thermal comfort of the beneficiaries to a greater extent and enhance energy efficiency in the houses.

During a roundtable meeting on facilitating cool roof adoption by showcasing its impact on thermal comfort in affordable housing in AP with AP State Energy Conservation Mission (APSECM), Indo-Swiss BEEP and Administrative Staff College of India (ASCI) officials held here, Special Chief Secretary for Housing Ajay Jain (who is on the district tours and participated virtually) emphasised the need for the housing corporation to fully study in-depth the impact of cool roof with the co-operation of experts. He said that AP may be the first State in the country which is going to construct around 28.3 lakh houses with modern global energy efficient technologies to improve energy efficiency that will help to considerably reduce temperatures, enhance thermal comfort in residential buildings and substantial reduction in energy consumption apart from reduction of greenhouse gas emissions. He said the ultimate goal of Chief Minister Y S Jagan Mohan Reddy is to provide the best services for enhancing the quality of life of the beneficiaries and welcomed the initiative of cool roof in housing sector.

3 dists chosen for cool roof impact study

ENERGY CODE ON CARDS

- Residential buildings are the largest end-users of electricity in India
- Electricity consumption of residential buildings accounts for 30% of the total demand

AP's domestic sector consumes about 12,514 million units per annum

- This is 28% of the total annual electricity demand of the state
- Rapid growth in the residential building stock is anticipated in the state
- AP is keen to adopt the 'Eco Nivasa Samitha' code for residential buildings

According to the officials, a cool roof is a roof built from materials that retain less heat and stay cooler than traditional roofs. These roofs are prepared from and coated with materials that have special characteristics such as high reflectivity and emissivity. The Swiss Agency for Development and Cooperation is providing its support for the adoption of this Indo-Swiss building technology project.

When installed over a large area, cool roofs can assist in mitigating the urban heat island effect and lead to lower ambient air temperatures

and reduced air pollution on an urban scale.

Special chief secretary for housing, Ajay Jain, said Andhra Pradesh may be the first state in the country which is going to construct around 28.3 lakh houses with modern, energy efficient technologies. "This will also help enhance thermal comfort, and reduce energy consumption, greenhouse gas emissions, and indoor temperatures," said Jain.

The special chief secretary thanked the Bureau of Energy Efficiency for their support through Indo-Swiss BEEP in developing 'technical analysis report on improving energy efficiency of YSR-Jagananna colonies'.

ADVANTAGES OF COOL ROOF

- Cool roof conserves energy and saves costs by reducing cooling load requirements in a building
- It mitigates urban heat island effect, improves air quality and combats climate change
- It enhances durability and appearance of roof
- Increases energy access by reducing peak load on the grid
- It helps build community resilience to extreme heat by reducing heat stress

EXPRESS NEWS SERVICE @ Vijayawada

AS part of its concerted efforts to make the gigantic housing scheme of Andhra Pradesh the best energy efficient housing programme in the country, the AP Housing Department is planning to implement a demonstration project in the model house by facilitating a cool roof that helps improve the thermal comfort and enhance energy efficiency.

During a round-table meeting on facilitating Cool Roof Adoption in affordable housing in Andhra Pradesh with AP State Energy Conservation Mission (APSECM), Indo-Swiss BEEP and Administrative Staff College of India (ASCI) officials held on Tuesday in Vijayawada, Special Chief Secretary for Housing Ajay Jain (who participated through online) emphasised the need for studying in depth the impact of the cool roof. Andhra Pradesh may be the first State in the country to construct around 28.3 lakh houses with modern global energy efficient technologies to improve energy efficiency and enhance thermal comfort in residential buildings.

The ultimate goal of Chief Minister Y S Jagan Mohan Reddy is to provide the best services for enhancing the quality of life of the beneficiaries, he said. The Special CS welcomed the cool roof initiative in the housing sector. He thanked the Bureau of Energy Efficiency (BEE) for its support through Indo-Swiss BEEP in developing the Technical Analysis Report on Improving Energy Efficiency of YSR-Jagananna Colonies.

BEE and Indo-Swiss BEEP in coordination with Andhra Pradesh State Energy Conservation Mission (APSECM) and Administrative Staff College of India (ASCI) listed out key interventions to make the typical housing as energy efficient and thermally comfortable and trained more than 1,200 engineers across the State.

During the meeting, Managing Director, AP State Housing Corporation Limited, Narayan Bhaskar Gupta said in order to take the BEEP key interventions forward at the ground level implementation, the AP Housing Department is keen on developing demo projects which serve as a model house by facilitating cool roof.

The AP Housing Department has finalised three districts - Visakhapatnam, Guntur and Kakinada - wherein ASCI would conduct cool roof impact study in 12 selected houses (4 houses per location) and prepare a report with details of cool roof materials, available manufacturers/suppliers, cost of the material etc, the MD explained.

AP HOUSING TO CONDUCT A COOL ROOF IMPACT STUDY

DC CORRESPONDENT
VIJAYAWADA, SEPT. 27

AP Housing Department has decided to conduct a cool roof impact study in selected areas under the ongoing Mega Housing Programme in the districts of Visakhapatnam, Guntur and Kakinada.

Special chief secretary for housing Ajay Jain said the department would implement a demonstration project in the model house by facilitating a cool roof that helps improve the thermal comfort of the beneficiaries and enhance energy efficiency in the houses.

A roundtable meeting on facilitating Cool Roof Adoption by showcasing its impact on thermal comfort in affordable housing in AP with APSECM, Indo Swiss BEEP and Administrative Staff College of India(ASCI) officials was held here on Tuesday.

Ajay Jain explained that cool roofs conserve energy and save costs by reducing the cooling load requirements in a building and help to mitigate the urban heat island effect, improve air quality and combat climate change with enhanced durability and appearance of roofs.

He said cool roofs increased energy access by reducing peak load on the grid.

Andhra Pradesh may be the first state that would construct around 28.3 lakh houses with modern global energy efficient technologies.

TECHNOLOGY | GROWTH New tech help start off 'digital university'

Pradhan says 5G will help edn

DC CORRESPONDENT
with agency inputs
HYDERABAD, OCT. 1

Union education minister Dharmendra Pradhan visited the Administrative Staff College of India (ASCI) on Saturday where he oversaw signing of an MoU for collaboration on capacity building initiatives.

The Capacity Building Commission (CBC) is partnering with ASCI and signed a statement of intent. The SOI was signed by Hemang Jani, secretary, CBC, and Dr Nirmalya Bagchi, DG (I/c) ASCI.

Pradhan interacted with officials, faculty and students of ASCI. Speaking about the roll-out of 5G services by Prime Minister Narendra Modi, Pradhan said education would be one of the sectors that would benefit in a big way from the new technology. It would help in the imple-

The Capacity Building commission and ASCI exchange a memorandum for collaboration in the presence of Union minister Dharmendra Pradhan at Administrative Staff College of India (ASCI), Bella Vista, Raj Bhavan Road, Hyderabad. on Saturday. — DC

mentation of 'digital university' being envisioned by his ministry, he said.

"We are going for virtual labs. We are going for virtual teachers. In all the areas, if we develop quality content and presentable con-

tent, how do we send them to the nook and corner of the country? 5G will be the major vehicle to reach out to the unreachable," Pradhan told reporters.

He said 5G services would help digital economy, health-

care, education and other sectors. "...the new 5G network is going to create a sea change in the entire scenario. I see the poor man will be the major beneficiary of this 5G rollout," he said.

Hyderabad: Administrative Staff College of India- Capacity Building Commission tie up for capacity building

ASCI conducting programmes since 1964

HYDERABAD: In a bid to institutionalise capacity building, the Administrative Staff College of India (ASCI) on Saturday signed a statement of intent with Capacity Building Commission (CBC) in the presence of Union education and skill development minister Dharmendra Pradhan. The minister visited the college and interacted with ASCI's staff and students.

"This ASCI-CBC partnership is very important for both CBC and ASCI. Success of various initiatives depend on the success of this partnership. To cement the relationship further and to reinforce the commitment of government of India, this partnership is important," ASCI said.

The statement of intent was signed by CBC secretary Hemang Jani and in-charge DG of ASCI, Nirmalya Bagchi.

"Mid-career training programme level 4 for officers from the Comptroller and Auditor General of India (batch II) is being conducted on the ASCI Bella Vista campus. It is due to this impressive credential that CBC has selected ASCI as its partner," Bagchi said.

ASCI has been conducting training programmes for IAS officers (since the 1950s) on governance issues and mandatory training for IFS, ISS and IES officers on sector-specific areas and contemporary topics.

Since 1964, ASCI has been conducting programmes for senior government officials from various countries supported by the ministry of external affairs.

Early detection key to treat breast cancer: Experts

CITY BUREAU

Hyderabad

On the occasion of the ongoing breast cancer awareness month in October, Dr Kakarla Subbarao Centre for Healthcare Management, Administrative Staff College of India (ASCI) on Monday hosted an interactive session on demystifying the common myths related to breast cancer. Chairman, ASCI, K Padmanabhalah and others welcomed the keynote speaker Dr Raghu Ram Pillarisetti, Director, KIMS- Ushalakshmi Centre for Breast diseases.

In his talk, Dr Raghu Ram spoke on the need for women to focus on breast health and early detection of breast cancer which includes getting annual mam-

ASCI chairman, K Padmanabhalah addressing the gathering at the interactive session on Monday.

mograms after attaining a certain age, clinical breast examination, etc.

He also debunked the myth that family history is the only way of developing this disease. Dr Raghu Ram explained about the potential risk factors like obesity, smoking, genetics, meno-

pause, etc., which could also lead to developing this disease. He encouraged women to get their annual screening done during the awareness month.

Dr Nirmalya Bagchi, Director General (I/C), ASCI and other senior faculty from ASCI were present.

KCR initiates steps to strengthen healthcare

56 per cent of the country cannot spend money on healthcare

The Hans India

Hans News Service | 18 Nov 2022 11:03 PM IST

56 per cent of the country cannot spend money on healthcare

HIGHLIGHTS

Dr V Chandramowli Memorial lecture on 'Universal health care: A Model' delivered by Dr G Nageswara Rao, Founder and Chairman, L V Prasad Eye Institute in Hyderabad

Hyderabad: Dr V Chandramowli Memorial lecture on 'Universal health care: A Model' delivered by Dr G Nageswara Rao, Founder and Chairman, L V Prasad Eye Institute in Hyderabad.

In his speech, Dr Rao defined universal health care as ensuring equitable access for all Indian citizens to affordable, accountable, appropriate health services of assured quality (Promotive, curative and rehabilitative).

He spoke about comprehensive care and highlighted how we are performing in this area. As per him, our performance is below par in respect of promotion, and prevention, patchy in curative and very poor in respect of rehabilitation.

By many measures, the world has never been in better health. Yet, the gap between this progress and medicine's still greater potential has perhaps never been wider. At least half the world is without access to what the World Health Organisation deems essential. 56 per cent of the country cannot spend money on healthcare. Blindness is a major healthcare problem.

Dr Nirmalya Bagchi, Director General (I/c), ASCI, welcomed and introduced the speaker Dr G Nageswara Rao, K Padmanabhaiah, IAS (Retd), Chairman-CoG, ASCI, gave opening remarks and presented the memento to the guest speaker. Dr P Nagabhushanam, President of Essential Medical Services, proposed a vote of thanks.

About ASCI:

Established in 1956 at the initiative of the government and the corporate sector, the Administrative Staff College of India (ASCI), Hyderabad, has pioneered post-experience management education in India.

ASCI equips corporate managers, administrators, entrepreneurs and academicians with the skills to synthesize managerial theory and practice; and respond to the ever-increasing complexity of managerial issues confronting the government, industrial enterprises and non-government organizations.

The Administrative Staff College of India is an institution of excellence and national importance. ASCI is a registered society by the constitution.

It is an autonomous, self-supporting, public-purpose institution with the objectives of a think-tank for policy inputs and to build the capacities of practising professionals in the management of government and business enterprises.

Hyderabad

Lecture at ASCI

The Chairman and Managing Director (CMD), Hindustan Petroleum Corporation Limited (HPCL), Dr Pushp Kumar Joshi, will deliver a lecture on 'People Oriented Business Growth' from 4.30 pm at Administrative Staff College of India (ASCI), Bella Vista campus, Raj Bhavan Road, on Tuesday.

November 22, 2022

Employees must be given a sense of purpose so that they can add value to their work and be happy to work for the organisation.

By Telangana Today

Published Date - 09:50 PM, Tue - 22 November 22

Hyderabad: Chairman and Managing Director, Hindustan Petroleum Corporation Limited (HPCL), Dr Pushp Kumar Joshi on Tuesday said that due to better adaptability, humility and inherent values, many Indians are now preferred to lead large corporations around the world.

Delivering Administrative Staff College of India (ASCI) public lecture on 'People Oriented Business Growth', Dr Joshi said, "our Indian DNA contains a spiritual component. Adaptability, humility, and the values that we uphold are major traits for being preferred to lead companies. Work is just an aspect of life and life in-turn is more than work. There is no substitute for dedication and emotional intelligence."

Employees must be given a sense of purpose so that they can add value to their work and be happy to work for the organisation. The purpose of human life is not only to earn a living, but also to serve a larger purpose. When an organisation hires human resources, it hires a complete package of human qualities, he said.

Dr Nirmalya Bagchi, DG (i/c), ASCI, K Padmanabhaiah, Chairman-ASCI and several other senior office bearers were present.

వ్యక్తి సామర్థ్యాన్ని పూర్తిగా వినియోగించుకోవాలి

వేదికలుగా మారాలి :

డాక్టర్ పుష్పకుమార్ జోషి

సవతెలంగాణ టూర్ - హైదరాబాద్

ఒక ఉద్యోగిని నియమించుకునే సంస్థ ఆ ఉద్యోగిని సాంకేతిక నైపుణ్యం, జ్ఞానం ఆధారంగా మాత్రమే నియమించుకోదు. ఆ వ్యక్తి సంస్థ ప్రగతిలో భాగస్వామి కావాలని ఆశిస్తుంది. అందుకోసం అవసరమైన పని వాతావరణం కల్పించడంతో ఆ వ్యక్తి మరింత ఉత్సాహంగా పని చేయగలుగుతాడు. తనకు నిర్దేశించిన పనికి మాత్రమే పరిమితం కాకుండా సంస్థ ప్రగతికి ఉపయోగపడగలుగుతాడు. ఒక ఉద్యోగి నియామకం అంటే ఆ సంస్థ ఒక మునిషిని పూర్తిగా నియమించు కుంటుందని, ఆ విధంగానే ఆ మునిషి సామర్థ్యాన్ని వినియోగించు కోవాలని హిందుస్థాన్ టెక్నాలజీస్ కార్పొరేషన్ లిమిటెడ్ (హెచ్ టీఎస్ఎల్) సీఎండీ డాక్టర్ పుష్ప కుమార్ జోషి తెలిపారు. అడ్మినిస్ట్రేటివ్ స్టాఫ్ కాలేజ్ ఆఫ్ ఇండియా (ఐస్సీ) డైరెక్టర్ డాక్టర్ కె.పద్మావతియ్య అధ్యక్షతన మంగళవారం హైదరాబాద్ లో నిర్వహించిన ప్రజా కోణంలో వ్యాపారాభివృద్ధి అనే అంశంపై జోషి ప్రసంగించారు. మునిషి కేవలం జీవనోపాధి కోసం మాత్రమే పని చేయటానికి సుప్తం చేశారు. అంతకు మించిన సౌలభ్యం, సంతోషం కోసం పరితపిస్తాడనే విషయాన్ని యాజమాన్యాలు గుర్తించాలని సూచించారు. ఉద్యోగి భావోద్వేగాల

స్థాయిని, సాంకేతిక నైపుణ్యాన్ని పరిగణనలోకి తీసుకోవాలన్నారు.

ఒకరిని సంస్థలో నియమించు కోవడమంటే ఆ మునిషి విలువలన్నింటిని కొనుగోలు చేస్తున్నట్టేననీ, ఆ విలువలే ప్రగతికి సోపానాల న్నాడు. ఉదాహరణకు ఒక మెకానికల్ ఇంజనీర్ ను నియమించుకునే సమయంలో అతనికి ఆ ఉద్యోగిని సంబంధించిన నైపుణ్యంను మాత్రమే పరిగణనలోకి తీసుకోలేమనీ, ఆ వ్యక్తిని పూర్తిగా నియమించు కుంటున్నామనే విషయాన్ని గుర్తించు కుంటామని తెలిపారు. మనుషులు సహజంగా నాలుగు రకాలు గా కనిపిస్తుంటారని తెలిపారు. తొలివారో కూడిన ఆలోచన, వాస్తవాలతో కూడిన ఆలోచన, రెండింటిని కాదనీ మరో కోణంలో కనిపించడం, ఉమ్మడిగా పని చేసే సందర్భంలో సంక్షిప్తంగా వ్యవహరించడం ఇలా

నాలుగు విధాలుగా ఉంటారని వివరించారు. భారతీయుల్లో వారసత్వంగా కొంత అధ్యాత్మికత, వినయం, పరిస్థితులను అనుమతంగా మార్పు కోగలగడం, విలువలతో కూడిన జీవితం కారణంగా ప్రపంచంలో పెద్ద కార్పొరేట్ కంపెనీలను నడిపించగలుగుతున్నారని తెలిపారు.

సాధ్యం కాదు అనుకోవడం సరికాదంటూ... మనుషులను, వారిలోని ప్రతిభను సమర్థవంతంగా పెట్టే సాధ్యమేనని తేల్చి చెప్పారు. జీవితం పని కన్నా చాలా పెద్దదంటూ అంకితభావానికి ప్రత్యామ్నాయం లేదని స్పష్టం చేశారు. తెలివితో వ్యవహరించడం అత్యంత అవశ్యకతమని సూచించారు. ఈ కార్యక్రమంలో ఐస్సీ ఇంచార్జ్ డైరెక్టర్ అనరథ డాక్టర్ నిర్మలా జివాగ్రి తదితరులు పాల్గొన్నారు.

Biodiversity conservation, need of the hour

The Telangana State Biodiversity Board has listed about 25 flowering plants, 12 fishes, nine reptiles, one amphibian, 27 birds and 23 animals as species invading the ecosystems

Y. Geetanath
HYDERABAD

The threat of extinction looms large over Telangana's biodiversity due to invasive terrestrial and aquatic species which have been endangering the survival of many flora and fauna here.

Species including the Small Indian Civet, Mouse Deer, Barking Deer, Indian Flying Squirrel and Golden Gecko are on the threatened and endangered species list.

Invasive species

The Telangana State Biodiversity Board (TSBB) has listed about 25 flowering plants, 12 fishes, nine reptiles, one amphibian, 27 birds and 23 animals as species invading the ecosystems.

Among the aquatic invasive species are Red Bellied Pacu, African Cat Fish, Sucker Mouth Catfish and Water Hyacinth.

The terrestrial invasive species include foreign species like the Lantana, Parthenium and the Billygoat weed.

The TSBB, a National Biodiversity Authority (NBA) State unit, is yet to take action even though the Central Biodiversity Act was passed way back in 2002.

"We have already wasted 20 years, let's not waste another 20 over the implementation of the draft plan," cried Administrative Staff College of India (ASCI) court of governors chairperson and former Union Home Secretary K. Padmanabhalah in a recent workshop.

The wheels have been set in motion with the TSBB entrusting ASCI's autonomous body – Centre for Innovations in Policy Systems (CIPS) – with the preparation of a strategic action plan to create a comprehensive data bank of the existing biodiversity and come out with a programme to enhance preservation work.

Biodiversity Management Committees

The formation of Biodiversity Management Committees (BMCs) with Telangana having 538 mandal-level, 12,749 gram-panchayat-level, 130-municipality level and 13 municipal corporation level committees has marked the beginning of the plan execution.

Across India, there are 2,43,499 BMCs and 95,252 People's Biodiversity Registers created with more than 20% of geographic land brought under "some kind of protection and conservation effort", according to CIPS adviser, biodiversity and forestry, S. Bala Subramanyam.

The BMCs role is to prepare biodiversity registers with active participation of people, voluntary organisations and others, identifying new conservation areas, and undertaking capacity building of all stakeholders. But, they are hamstrung in the absence of a proper strategy. "We do not have a proper road map for preserving our biodiversity and accessing funds has been a challenge," admitted NBA secretary Justin Mohan.

CIPS Director C. Achalender Reddy admitted, "Much time has been lost but now we have begun to prepare for the action plan in consultation with various stakeholders to identify and manage biodiversity-rich areas."

Bioconservation success stories

Mr. Bala Subramanyam said endangered species in the country include Hyena, Common otter, Malabar Pied Hornbill, Lesser Flamingo, Spot billed Pelican, Grey headed Fish eagle, etc.

There have also been major milestones achieved in biodiversity conservation in India.

Saving 'Kadamba' (Neolamarckia cadamba trees) which house the greater adjutant storks in Assam, increasing the number of One-horned rhino which were on the brink of extinction to 2,400 now, increasing floral and faunal species to 48,655 and 100,693, respectively, as against 3,655 floral and 1,693 faunal species in the past three decades.

The protected area coverage in the country has increased to 5.03% in 2021 from 4.90% in 2014. The number of wetlands have increased to 47 covering 10,90,230 hectares and 10 beaches in seven states and one Union Territory conferred with the prestigious blue flag certification.

The roadmap for NBA and State bodies is to restore and enhance agro-biodiversity, conservation of indigenous crop varieties, registration of indigenous breeds, species restoration after forest restoration, organising awareness programmes and so on.

Rich biodiversity of India

15,000

Flowering plants make up 9% of the world species

408

reptiles make up 6.2% of the world species

350

mammals make up 7.6% of the world species

Biological Diversity Act

"The Act recognises India's richness in biological diversity and associated traditions and contemporary knowledge systems, acknowledges its commitment to implement the CBD and provides for "conservation of biological diversity, sustainable use of its components"

ASCI Hyderabad signs MoU with Kakatiya University

Hyderabad: ASCI commemorates birth centenary of Prof Venugopal Rao

"A decade ago, we used to look for technology from the US or countries outside of India. However, in recent years, India has outpaced all other countries in terms of digital infrastructure, such as Aadhar and UPI," he said.

Since the digital ecosystem is available everywhere, approximately 800 million people have registered on the Co-Win platform. After 25 years of broadband and wireless, 85 percent of the US population has access to fast broadband. However, in five years, India's 5G penetration could reach 99 percent and will be quicker than US and Europe, and other countries, he said.

India currently has the world's third largest unicorn population. In 2022, there are 108 unicorns, but there were only six in 2014. Because of the increased use of smartphones and the internet, as well as the increased number of investors, 60 percent of Unicorns were created after 2020.

Failure is not regarded negatively, but rather as a valuable learning experience. India now has some of the best factories. The Maruti Suzuki facility in Manesar, Haryana, and the EV facility are two examples, he said.

In India, the most advanced pharmaceutical factory will be built, which will be entirely automated and run by robots. Digitization improves care and accessibility for a large number of people. If we can do it in Fintech, why can't we do it in healthcare? Can we use digital technology to leapfrog?, Adil Zainulbhai said.

Dr Nirmalya Bagchi, Director General (I/c), K Padmanabhaiah, IAS (Retd), Chairman-ASCI, Dr Subodh Kandamuthan, Director, Dr Kakarla Subba Rao Centre for Health Care Management, ASCI, Richard B Saldanha, Vice Chairman, ASCI and were present.

हैदराबाद: ASCI ने PGDM छात्रों के लिए दीक्षांत समारोह आयोजित किया

jantaserishta.com/local/tehangana/hyderabad-asci-holds-convocation-ceremony-for-pgdm-students-1938314

Gulabi Jagat

January 16, 2023

हैदराबाद: एडमिनिस्ट्रेटिव स्टॉफ कॉलेज ऑफ इंडिया (एएससीआई) के पीजीडीएम के दूसरे बैच और पीजीडीएचएम के 15वें बैच का दीक्षांत समारोह सोमवार को हैदराबाद के बेला विस्टा कैम्पस में आयोजित किया गया। कुल 90 पीजीडीएम और पीजीडीएचएम (स्वास्थ्य देखभाल प्रबंधन) छात्रों ने अपने पीजी डिप्लोमा प्राप्त किए।

भारत के क्षमता निर्माण आयोग के अध्यक्ष, आदिल जैनुलभाई, जिन्होंने अपने दीक्षांत भाषण में प्रमाण पत्र वितरित किए, विशेष पदक और पुरस्कार प्रदान किए, इस बात पर प्रकाश डाला कि कैसे प्रौद्योगिकी ने भारत में विकास के त्वरण में सहायता की है और कैसे प्रौद्योगिकी ने भारतीय फिनटेक क्षेत्र को बाधित किया है।

"एक दशक पहले, हम अमेरिका या भारत के बाहर के देशों से तकनीक की तलाश करते थे। हालांकि, हाल के वर्षों में, भारत ने आधार और यूपीआई जैसे डिजिटल इंफ्रास्ट्रक्चर के मामले में अन्य सभी देशों को पीछे छोड़ दिया है।

चूंकि डिजिटल पारिस्थितिकी तंत्र हर जगह उपलब्ध है, लगभग 800 मिलियन लोगों ने को-विन प्लेटफॉर्म पर पंजीकरण कराया है। ब्रॉडबैंड और वायरलेस के 25 वर्षों के बाद, अमेरिका की 85 प्रतिशत आबादी की फास्ट ब्रॉडबैंड तक पहुंच है। हालांकि, पांच वर्षों में, भारत की 5जी पैठ 99 प्रतिशत तक पहुंच सकती है और यह अमेरिका और यूरोप और अन्य देशों की तुलना में तेज होगी।

भारत में वर्तमान में दुनिया की तीसरी सबसे बड़ी गैंडा आबादी है। 2022 में, 108 यूनिकॉर्न हैं, लेकिन 2014 में केवल छह थे। स्मार्टफोन और इंटरनेट के बढ़ते उपयोग के साथ-साथ निवेशकों की बढ़ती संख्या के कारण, 2020 के बाद 60 प्रतिशत यूनिकॉर्न बनाए गए।

असफलता को नकारात्मक रूप से नहीं, बल्कि एक मूल्यवान सीखने के अनुभव के रूप में माना जाता है। भारत में अब कुछ बेहतरीन फैक्ट्रियां हैं। उन्होंने कहा कि मानेसर, हरियाणा में मारुति सुजुकी की सुविधा और ईवी सुविधा दो उदाहरण हैं।

भारत में सबसे उन्नत फार्मास्युटिकल फैक्ट्री बनाई जाएगी, जो पूरी तरह से स्वचालित होगी और रोबोट द्वारा चलाई जाएगी। डिजिटलीकरण से बड़ी संख्या में लोगों की देखभाल और पहुंच में सुधार होता है। अगर हम इसे फिनटेक में कर सकते हैं, तो हम स्वास्थ्य सेवा में ऐसा क्यों नहीं कर सकते? क्या हम छात्रों लगाने के लिए डिजिटल तकनीक का उपयोग कर सकते हैं?, आदिल जैनुलभाई ने कहा।

डॉ. निर्मल्य बागची, महानिदेशक (स्वतंत्र प्रभार), के पदमनाभैया, आईएस (सेवानिवृत्त), अध्यक्ष-एएससीआई, डॉ. सुबोध कंदमुथन, निदेशक, डॉ. काकरला सुब्बा राव सेंटर फॉर हेल्थ केयर मैनेजमेंट, एएससीआई, रिचर्ड बी सल्दाना, वाइस चेयरमैन, एएससीआई और उपस्थित थे।

The Convocation for PGDM-Batch-2 and PGDHM-Batch 15 of Administrative Staff College of India (ASCI)

Hyderabad 16th January 2023: The Convocation for PGDM-Batch-2 and PGDHM-Batch 15 of Administrative Staff College of India (ASCI) was held on January 16, 2023 at 11 a.m. at the ASCI's Bella Vista Campus. At this convocation, a total of 90 PGDM and PGDM (Health Care Management) students received their Post Graduate Diplomas.

The chief guest, **Shri Adil Zahirudhah, Honorable Chairman, Capacity Building Commission of India**, delivered the convocation address, distributed certificates, and bestowed special medals and awards.

Sri Padamasrabhatah, IAS (Retd), Chairman-ASCI briefed about the ASCI and its operations. And training of 500 civil servants from Bangladesh. About the two courses are offered: the PGDM (Hospital Management) course, which has been in operation for the past 18 years, and the PGDM course, which was launched in response to ASCI's work revolves around three activities of ASCI : Manager training and capacity building programmes • Management consulting • Applied research

He explained why ASCI decided to begin the PGDM programme. During the above training sessions, practical issues confronting practising managers will be thoroughly discussed, as will problems discovered during consultancy work. Use the knowledge and expertise gained during training and consulting work to teach new graduates.

Sri Adil Zainulbhai shed light on "how technology works" in his convocation address. How technology has aided in the acceleration of development in India and how technology has disrupted the Indian fintech arena. We used to look for technology from the United States or other countries outside of India ten years ago. However, in recent years, India has outpaced all other countries in terms of digital infrastructure, such as Aadhar and UPI.

The success of Aadhar and UPI is spurring the development of gleaming new public digital infrastructure with the potential for new development, such as population scale systems and startup eco-systems.

Since the digital ecosystem is available everywhere, approximately 800 million people have registered on the Co-Win platform. After 25 years of broadband and wireless, 85% of the US population has access to fast broadband. However, in five years, India's 5G penetration could reach 99%. It will be quicker than the United States, Europe, and other countries.

Sri Adil Zainulbhai ended his speech by the key message "This is the great time to be young and graduating in India. The opportunities you have in any field you choose are phenomenal, but the opportunities to make a difference in the country are even greater."

I encourage you to consider how you can make a difference in the country in addition to how you can succeed in your own life.

MsMogullaSriVarsha received the Gold Medal, MrThummala Vikram, IPS received the Silver Medal, and MsSrigiriAmulya received the third place from PGDM, Batch 2

From PGDM (Hospital Management), Batch-15, Dr Sweta Surabhi received two gold medals, Dr Niveditha Srinivasan received the silver medal, and Dr Ayesha Sakina received the third place.

The outgoing students were sworn in by Dr Subodh Kandamuthan, Director of the Dr Kakarla Subba Rao Centre for Health Care Management at ASCL.

Matt O'Keeffe

ASCI HOLDS TALK ON ENERGY TRANSITION

DC CORRESPONDENT
HYDERABAD, FEB. 8

The Administrative Staff College of India (ASCI), Hyderabad hosted a public lecture on the 'Role of Innovation & Technology in Energy Transition & Decarbonisation' by Matt O'Keeffe, head of Opower-Oracle Energy & Water on Tuesday.

The lecture was attended by bureaucrats, energy industry professionals, policymakers, and students. The significance of innovation and technology in the energy transition and decarbonisation process and also the significant role of customers in achieving the goal were discussed.

Matt emphasised the importance of customer action and behaviour science in the transition towards a greener and more sustainable energy future. The audience then engaged in a lively discussion on the current challenges and opportunities in the energy sector and the role of innovation in addressing these issues.

एस्की में वरिष्ठ वैज्ञानिकों के लिए क्षमता निर्माण कार्यक्रम आरंभ

एडमिनिस्ट्रेटिव स्टाफ कॉलेज ऑफ इंडिया (एस्की) में वरिष्ठ वैज्ञानिकों के लिए आयोजित पाँच दिवसीय क्षमता निर्माण कार्यक्रम के लांचिंग समारोह में उपस्थित केंद्रीय राज्य मंत्री डॉ. जितेंद्र सिंह, सीबीसी के अध्यक्ष आदिल जैनुलभाई, एस्की के अध्यक्ष व पूर्व केंद्रीय गृह सचिव के. पद्मनाभैया एवं अन्य।

हैदराबाद, 16 फरवरी
(मिलाप ब्यूरो)

केंद्रीय विज्ञान और प्रौद्योगिकी राज्य मंत्री (स्वतंत्र प्रभार) डॉ. जितेंद्र सिंह ने एडमिनिस्ट्रेटिव स्टाफ कॉलेज ऑफ इंडिया (एस्की) में गुरुवार को प्रभावी नेतृत्व और रचनात्मकता में वरिष्ठ वैज्ञानिकों के लिए पाँच दिवसीय क्षमता निर्माण कार्यक्रम का शुभारंभ किया। बेला विस्टा कैम्पस में आयोजित कार्यक्रम के दौरान केंद्रीय राज्य मंत्री डॉ. जितेंद्र सिंह ने एक्जीक्यूटिव सरकारी ऑनलाइन प्रशिक्षण (आईजीओटी)

मॉड्यूल लांच किया। अपने संबोधन में उन्होंने कहा कि 30-40 वर्ष की आयु वर्ग को देश के विकास में योगदान देने की क्षमता है। ऐसे में उन्हें प्रोत्साहित करने की आवश्यकता है। हम प्रौद्योगिकी के युग में हैं। हमें 2047 की तैयारी करनी है। कार्यक्रम वैज्ञानिकों को रचनात्मक कौशल को बढ़ाने के लिए प्रोत्साहित करेगा। इससे विज्ञान प्रशासकों की क्षमता निर्माण के लिए उत्तम व निजी क्षेत्र के सहयोग में सुधार लाया जा सकता है। इससे उन्हें प्रभावी नेतृत्व के लिए आवश्यक दक्षताओं को विकसित करने

में सक्षम बनाया जा सकेगा। इसके बदले में यह वैज्ञानिक प्रतिष्ठानों को आज के प्रतिस्पर्धी माहौल में अधिक प्रभावी ढंग से काम करने में सक्षम बनाएगा। जब बात प्रबंधन और प्रेरक परिवर्तन की आती है, तो नेतृत्व स्पष्ट रूप से एक महत्वपूर्ण कारक है। उन्होंने कहा कि भारत में वैज्ञानिक और प्रौद्योगिकीविद् शानदार नए परिदृश्यों पर काम करते हैं।

एस्की के डीजी डॉ. निर्मलया बागची ने स्वागत भाषण में कहा कि यह पहल क्षमता निर्माण आयोग (सीबीसी) के

सहयोग से आयोजित की जा रही है। कार्यक्रम का उद्देश्य इसमें भाग लेने वाले वैज्ञानिकों को रचनात्मक सोच कौशल प्रदान करना है, जिससे उन्हें प्रभावी नेतृत्व के लिए आवश्यक दक्षताओं को विकसित करने में सक्षम बनाया जा सके। यह बदले में आज के प्रतिस्पर्धी माहौल में वैज्ञानिक प्रतिष्ठानों को अधिक प्रभावी ढंग से संचालित करने में सक्षम बनाएगा। कार्यक्रम में सीबीसी के अध्यक्ष आदिल जैनुलभाई, एस्की के अध्यक्ष व पूर्व केंद्रीय गृह सचिव के. पद्मनाभैया एवं अन्य गणमान्यों ने हिस्सा लिया।

ASCI launches capacity building programme

CITY BUREAU
Hyderabad

The Administrative Staff College of India (ASCI) here on Thursday launched a capacity building programme for senior scientists in Effective Leadership and Creativity. In his keynote address after inaugurating the first five-day programme of the series, union Minister of

State for Science & Technology, Earth Sciences, Atomic Energy, and Space Dr. Jitendra Singh stressed the need to put the efforts on the people in the age of 30-40, since they would be having the energy to contribute to the development of the country.

The programme being organized in collaboration with the Capacity Building

Commission of India (CBC) is aimed at improving industry and private sector collaboration by providing creative thinking skills to participating scientists and enabling them to develop competencies necessary for effective leadership.

Dr. Singh also launched E-modules on Integrated Government Online Training (iGOT): An Introduction to

science communication, Data driven decision making and Code of conduct for Science and Technologies.

ASCI Director General Dr. Nirmalya Bagchi, ASCI Chairman K Padamanabhaiah, CBC chairman Adil Zainulbhai, FAST India CEO Jayant Krishna, Wadhwani Institute of Technology and Policy CEO Prakash Kumar and others took part.

HIGHLIGHTS

Dr Jitendra Singh launches a capacity building programme for senior scientists in 'Effective Leadership and Creativity' in the Administrative Staff College of India

Hyderabad: Union Minister of State for Science & Technology, Earth Sciences, Atomic Energy, and Space Dr. Jitendra Singh on Thursday stressed the need to put in efforts to utilise the energies and knowledge of people aged 30-40 to contribute to the country's development. In his keynote address, after inaugurating the first five-day programme of the series, Singh said the capacities and potential of youth should be drawn for the country's development.

The programme, being organised in collaboration with the Capacity Building Commission of India (CBC), is aimed at improving industry and private sector collaboration by providing creative thinking skills to participating scientists and enabling them to develop competencies necessary for effective leadership.

Dr. Singh also launched E-modules on integrated Government Online Training (iGOT): An introduction to science communication, data-driven decision-making and code of conduct for science and technology.

ASCI director-general Dr. Nirmalya Bagchi, chairman K Padamanabhaiah, CBC chairman Adil Zainulbhai, FAST India CEO Jayant Krishna, Wadhwani Institute of Technology and Policy CEO Prakash Kumar and STI CB Cell head Dr Arabinda Mitra, among others, were present.

Union Minister of State (Independent Charge) for Science and Technology Jitendra Singh on Thursday launched a 'Capacity Building Programme for Senior Scientists in Effective Leadership and Creativity' at the Administrative Staff College of India (ASCI) here.

The initiative is being organised in collaboration with the Capacity Building Commission (CBC), ASCI said.

The programme aims to impart creative thinking skills to participating scientists, enabling them to develop competencies necessary for effective leadership, it said.

This, in turn, will enable scientific establishments to operate more effectively in today's competitive environment, the college stated.

Speaking on the occasion, Singh stressed on the importance of focusing on those who are in their 30s and 40s as they will have the energy to serve the country for another 25 years.

"I would just end up making a small suggestion that we could focus on those who are in the age group of 30s, 40s. Because, they have another 25 years of energy and capacity to serve for the nation," he said.

Adil Zainulbhai, Chairman of CBC, ASCI Chairman and former Union Home Secretary K Padmanabhaiah and several other dignitaries were present on the occasion.

Administrative Staff College of India (ASCI) hosted Union Minister of State Dr Jitendra Singh for the launch of the capacity building programme for senior scientists in Effective Leadership and Creativity on Thursday, February 16, 2023, 3.15 pm at Bella Vista Campus, Raj Bhavan Road, Hyderabad.

Dr Jitendra Singh, the Union Minister of State for Science and Technology, Earth Sciences, Atomic Energy, and Space, inaugurated the first five-day capacity-building programme. The programme aims to improve industry and private sector collaboration by providing creative thinking skills to participating scientists and enabling them to develop competencies necessary for effective leadership.

The programme is being organised in collaboration with the Capacity Building Commission of India (CBC) and directed by Dr Nimalya Bagchi, Director General, ASCI. Dr Nimalya Bagchi delivered the welcome address being attended by K. Padmanabhaiah, IAS (Retd), Chairman ASCI, Adil Zainulbhai, Chairman CBC, Jayant Krishna, CEO of FAST India, Prakash Kumar, CEO of Wadhvani Institute of Technology and Policy (WITP) and Dr Aravinda Mitra, Head, STI CB Cell delivered the vote of thanks.

Dr Jitendra Singh, MoS, in his keynote address, stressed the need to pour efforts into people aged between 30-40 since they will be having the energy to contribute to the development of the country.

This programme was for the building of the capacity of science administrators for improving industry and private sector collaboration by imparting creative thinking skills to participating scientists, enabling them to develop competencies necessary for effective leadership. This, in turn, will enable scientific establishments to operate more effectively in today's competitive environment.

Effective leadership helps teams, organisations and communities to respond to change and initiate change processes that produce the desired result. Leadership is obviously a critical factor when it comes to managing and inspiring change. While scientists and technologists in India work on fantastic new vistas, their formal exposure to leadership through a structured training programme is often times limited or missing. This results in many issues as people progress upward in an organisation. Without suitable formal training even noted scientists grapple with leadership matters. It is in this context, that the five-day leadership development programme was organised, aimed at providing the scientists and technologists with the bare basics of leadership tools so that they may implement these better in their organization.

In addition to the programme launch, Dr Singh launched the following e-modules on Integrated Government Online training (IGOT): 1) An introduction to science communication, 2) Data-driven decision making, and 3) Code of conduct for science and technologies.

हैदराबाद: भारतीय प्रशासनिक स्टाफ कॉलेज (ASCI) ने गुरुवार को प्रभावी नेतृत्व और रचनात्मकता में वरिष्ठ वैज्ञानिकों के लिए क्षमता निर्माण कार्यक्रम शुरू किया।

शुरुआत के पहले पांच दिवसीय कार्यक्रम का उद्घाटन करने के बाद अपने मुख्य भाषण में, केंद्रीय विज्ञान और प्रौद्योगिकी, पृथ्वी विज्ञान, परमाणु ऊर्जा और अंतरिक्ष राज्य मंत्री डॉ. जितेंद्र सिंह ने उम्र के लोगों पर प्रयास करने की आवश्यकता पर बल दिया। 30-40 की, क्योंकि उनमें देश के विकास में योगदान देने की ऊर्जा होगी।

भारतीय क्षमता निर्माण आयोग (सीबीसी) के सहयोग से आयोजित किए जा रहे कार्यक्रम का उद्देश्य भाग लेने वाले वैज्ञानिकों को रचनात्मक सोच कौशल प्रदान करके और प्रभावी नेतृत्व के लिए आवश्यक दक्षताओं को विकसित करने में सक्षम बनाकर उद्योग और निजी क्षेत्र के सहयोग में सुधार करना है।

डॉ. सिंह ने एकीकृत सरकारी ऑनलाइन प्रशिक्षण (आईजीओटी) पर ई-मॉड्यूल भी लॉन्च किया: विज्ञान संचार का एक परिचय, डेटा संचालित निर्णय लेने और विज्ञान और प्रौद्योगिकी के लिए आचार संहिता।

एससीआई के महानिदेशक डॉ. निर्मल्य बागची, एससीआई के अध्यक्ष के पदमनभैया, सीबीसी के अध्यक्ष आदिल जैनुलभाई, फास्ट इंडिया के सीईओ जयंत कृष्णा, बाधवानी इंस्टीट्यूट ऑफ टेक्नोलॉजी एंड पॉलिसी के सीईओ प्रकाश कुमार और एसटीआई सीबी सेल के प्रमुख डॉ. अरविंद मित्रा सहित अन्य लोगों ने इस कार्यक्रम में हिस्सा लिया।

Science Administrators in Hyderabad : केंद्रीय मंत्री डॉ. जितेंद्र सिंह ने प्रशिक्षण कार्यक्रम का किया शुभारंभ

abhijeetbharat.com/Encyc/2023/2/17/union-minister-dr-jitendra-singh-inaugurated-the-training-program.html

(Image Source : PIB)

हैदराबाद :

केंद्रीय राज्य मंत्री (स्वतंत्र प्रभार) विज्ञान और प्रौद्योगिकी राज्य मंत्री (स्वतंत्र प्रभार) पृथ्वी विज्ञान MoS PMO, कार्मिक, लोक शिकायत, पेंशन, परमाणु ऊर्जा और अंतरिक्ष, डॉ. जितेंद्र सिंह ने यहां भारतीय प्रशासनिक स्टाफ कॉलेज (ASCI) में विज्ञान प्रशासकों के लिए प्रशिक्षण कार्यक्रम का शुभारंभ किया।

इस अवसर पर, केंद्रीय मंत्री ने iGOT प्लेटफॉर्म के माध्यम से एक गवर्नेंस कोर्स मॉड्यूल भी लॉन्च किया। कार्यक्रम को संबोधित करते हुए डॉ. जितेंद्र सिंह ने कहा, 'विज्ञान और प्रौद्योगिकी लचीलापन बढ़ाने और महामारी, स्थिरता और जलवायु परिवर्तन जैसी हमारे समय की चुनौतियों का समाधान करने के लिए आवश्यक हैं। इसलिए, प्रौद्योगिकी प्रशासन स्वयं एक महत्वपूर्ण भूमिका निभाता है।'

मंत्री ने कहा, 'विज्ञान और प्रौद्योगिकी (S&T) का लाभ उठाना आज एक महत्वपूर्ण चुनौती है, और विज्ञान और प्रौद्योगिकी के लिए कई बाधाएं स्वयं विज्ञान में नहीं, बल्कि विज्ञान और प्रौद्योगिकी के शासन में हैं।' केंद्रीय मंत्री ने कहा, 'विज्ञान और प्रौद्योगिकी का शासन एक प्रसिद्ध पहली पेश करता है: तथ्याकथित कोलिंगरिज दुविधा, जो यह मानती है कि नवाचार प्रक्रिया की शुरुआत में - जब हस्तक्षेप और पाठ्यक्रम सुधार अभी भी आसान और सस्ते साबित हो सकते हैं - के पूर्ण परिणाम प्रौद्योगिकी, और इसलिए परिवर्तन की आवश्यकता, पूरी तरह से स्पष्ट नहीं हो सकती है।'

डॉ. जितेंद्र सिंह ने कहा, 'भारत एक समाजवादी राष्ट्र है और भारत में (S&T) इसी तरह नागरिकों के जीवन को आसान बनाने की दिशा में केंद्रित है और विज्ञान को नागरिकों को लाभान्वित करना है। इसलिए यह महत्वपूर्ण है कि हम इसका समर्थन करने के लिए सभी प्रयास करें। सामाजिक रूप से लाभकारी परिणामों के साथ वैज्ञानिक

विकास।' डॉ. जितेंद्र सिंह ने आगे कहा, 'वैज्ञानिक अनुसंधान और विकास केवल एक सरकारी उपक्रम नहीं है, बल्कि भारत में निजी क्षेत्र भी भारतीय अनुसंधान और विकास की कहानी में एक पक्ष है, हालांकि अभी भी बहुत कुछ है जो सार्वजनिक और निजी क्षेत्र के R&D द्वारा पारस्परिक लाभ प्राप्त किया जा सकता है। एक साथ काम कर रहे हैं, लेकिन विज्ञान प्रशासन इन पुलों को बनाने में अहम भूमिका निभाते हैं।'

(Image Source : PIB)

केंद्रीय मंत्री ने कहा, 'PM मोदी के नेतृत्व वाली सरकार प्रारंभिक अनुसंधान धरण से लेकर व्यावसायिक नवाचारों तक, सभी धरणों में निजी S&T विकास का समर्थन करती है।' उन्होंने कहा, 'समर्थन अनुसंधान अनुदान और नवाचार अनुदान के रूप में वित्तीय हो सकता है या इन्क्यूबेटर और सॉफ्टवेयर पार्क जैसे बुनियादी ढांचे के समर्थन के माध्यम से गैर-वित्तीय हो सकता है और विज्ञान प्रशासन ऐसे महत्वपूर्ण नोड्स को कुशलतापूर्वक संचालित करने में महत्वपूर्ण भूमिका निभाते हैं।' डॉ. जितेंद्र सिंह ने वैज्ञानिकों के लिए 'विज्ञान संचार' पर पाठ्यक्रम शुरू करने पर प्रसन्नता व्यक्त की और कहा, 'विज्ञान को लोकप्रिय बनाने की पहली चुनौती यह है कि हमारे S&T विभाग नागरिकों के लिए क्या करते हैं, जिनके लिए यह सारा प्रयास है।' उन्होंने सभी वैज्ञानिकों और शोधकर्ताओं से आग्रह किया कि वे iGOT से पाठ्यक्रम का उपयोग करें और अपने काम को जनता के लिए प्रसारित करें।

डॉ. जितेंद्र सिंह ने कहा, 'पाठ्यक्रम को विज्ञान प्रशासकों के लिए (ASCI) और (CBC) द्वारा डिज़ाइन किया गया है और यह निजी क्षेत्र के साथ सहयोग बनाने का भी लक्ष्य रखता है।' वरिष्ठ वैज्ञानिकों के लिए प्रभावी नेतृत्व और रचनात्मकता पर प्रशिक्षण कार्यक्रम को भाग लेने वाले वैज्ञानिकों को रचनात्मक सोच के कौशल प्रदान करने के लिए डिज़ाइन किया गया है, ताकि वे प्रभावी नेता बनने के लिए विभिन्न दक्षताओं को सीखने में सक्षम हो सकें और बदले में आज के प्रतिस्पर्धी माहौल में वैज्ञानिक प्रतिष्ठानों को अधिक प्रभावी ढंग से संचालित करने में सक्षम बनाना।

ASCI and Covestro signed MoU for research study on Biosolids for safe agriculture use

BY PSU CONNECT - DATE: 16-05-23

Covestro (India) Pvt Ltd, a pioneer in providing technology solutions for treatment of sludge to make it safe for reuse, has signed an MoU with the Administrative Staff College of India (ASCI) to facilitate biosolids management through universally compatible materials which are based on solar greenhouse dryers.

ASCI and Covestro signed MoU for research study on Biosolids for safe agriculture use

NEW DELHI- Covestro (India) Pvt Ltd, a pioneer in providing technology solutions for treatment of sludge to make it safe for reuse, has signed an MoU with the Administrative Staff College of India (ASCI) to facilitate biosolids management through universally compatible materials which are based on solar greenhouse dryers. The research study will evaluate different sludge treatment technologies and propose a standard for treated biosolids which is free of pathogens, but with ample concentration of nutrients.

The study is significant as there are presently no standards issued by the Central Pollution Control Board or any other regulatory body on the use of treated sludge. The treated biosolids must meet the standards of Class A Biosolids (US-EPA) to be used for food-based agricultural produce. The study aims at defining the type of biosolids to effectively determine the end use of the treated biosolids.

It also aims at developing a policy recommendation for the treatment of biosolids at the state and national levels. Therefore, there is an urgent need to conduct research that informs a science/ evidence-based policy to safely manage the generated biosolids from the FSTPs.

The Government of Telangana has established twenty-one FSTPs using five different technologies to treat the faecal sludge. ASCI is the knowledge partner of the Government of Telangana for the establishment of the FSTPs.

The MoU on the research study was signed on Mar 14, 2023, between Prof. V Srinivas Chary, Director, ASCI, and Shri Veeralakshmanan Bagavathi, Head of Inclusive Business, Covestro - ISC and ASEAN, in the presence of Dr N. Satyanarayana, IAS, Commissioner and Director of Municipal Administration Department, Govt. of Telangana and Shri Mayank Mittal, IAS, Additional Collector, Narayanpet.

నమస్తే తెలంగాణ

ఆధునిక సాంకేతికతతో ఎఫ్ఎస్టీపీల నిర్వహణ

అస్సీ, కోవిస్టో సంస్థ మధ్య ఒప్పందం
హైదరాబాద్, మార్చి 15 (నమస్తే తెలంగాణ): తెలంగాణలో ఫీకల్ స్లడ్జ్ ట్రీట్మెంట్ ప్లాంట్లు (ఎఫ్ఎస్టీపీ) నిర్వహణకు ఆధునిక సాంకేతికతను వినియోగించేందుకు అస్సీ, కోవిస్టో సంస్థలు ఒప్పందాన్ని కుదుర్చుకున్నాయి. సీడీఎంపీ సత్యనారాయణ సమక్షంలో బుధవారం జరిగిన కార్యక్రమంలో అస్సీ తరపున ప్రొఫెసర్ శ్రీనివాసచారి, కోవిస్టో కంపెనీ ఇంక్లూజివ్ బిజినెస్ హెడ్ వీరలక్ష్మణ్ ఈ ఒప్పందంపై సంతకాలు చేశారు. రాష్ట్ర ప్రభుత్వం మాత్రం దేశంలోనే తొలిసారి ప్రతి పట్టణంలో ఒకటి చొప్పున ఎఫ్ఎస్టీపీలను నిర్మిస్తున్నది. నీటి శుద్ధి తర్వాత వెలువడే వ్యర్థాలతో బయో సాలిడ్స్ను తయారు చేసేందుకు ప్రత్యేక టెక్నాలజీని ఉపయోగిస్తున్నది. రాష్ట్రంలో ఎఫ్ఎస్టీపీలకు నాలెడ్జ్ పార్టనర్గా అస్సీ వ్యవహరిస్తుండగా.. పాలిమర్స్ తయారీలో ప్రపంచ ఖ్యాతి పొందిన కోవిస్టో వివిధ దేశాల్లో పలు సంస్థలకు సాంకేతిక సహకారాన్ని అందిస్తున్నది. నిరుడు ఈ సంస్థ రూ.1,571 కోట్ల టర్నోవర్ సాధించింది.

Biosolids For Safe Agriculture Use: Covestro Signs MoU With ASCI For Research Study

By India Education Diary ... On Mar 16, 2023

Covestro (India) Pvt Ltd, a pioneer in providing technology solutions for treatment of sludge to make it safe for reuse, has signed an MoU with the Administrative Staff College of India (ASCI) to facilitate biosolids management through universally compatible materials which are based on solar greenhouse dryers. The research study will evaluate different sludge treatment technologies and propose a standard for treated biosolids which is free of pathogens, but with ample concentration of nutrients.

Biosolids for safe agriculture use: Covestro signs MoU with ASCI for research study - India Education | Latest Education New...

The study is significant as there are presently no standards issued by the Central Pollution Control Board or any other regulatory body on the use of treated sludge. The treated biosolids must meet the standards of Class A Biosolids (US-EPA) to be used for food-based agricultural produce. The study aims at defining the type of biosolids to effectively determine the end use of the treated biosolids. It also aims at developing a policy recommendation for the treatment of biosolids at the state and national levels. Therefore, there is an urgent need to conduct research that informs a science/ evidence-based policy to safely manage the generated biosolids from the FSTPs. The Government of Telangana has established twenty-one FSTPs using five different technologies to treat the faecal sludge. ASCI is the knowledge partner of the Government of Telangana for the establishment of the FSTPs.

The MoU on the research study was signed on Mar 14, 2023, between Prof. V Srinivas Chary, Director, ASCI, and Shri Veeralakshmanan Bagavathi, Head of Inclusive Business, Covestro - ISC and ASEAN, in the presence of Dr N. Satyanarayana, IAS, Commissioner and Director of Municipal Administration Department, Govt. of Telangana and Shri Mayank Mittal, IAS, Additional Collector, Narayanpet.

Covestro signs MoU with ASCI for research study

Hyderabad, Mar 15 (UNI) Covestro (India) Private Limited, a pioneer in providing technology solutions for treatment of sludge to make it safe for reuse, has signed an MoU with the Administrative Staff College of India (ASCI) to facilitate biosolids management through universally compatible materials which are based on solar greenhouse dryers.

The research study will evaluate different sludge treatment technologies and propose a standard for treated biosolids which is free of pathogens, but with ample concentration of nutrients. The study is significant as there are presently no standards issued by the Central Pollution Control Board or any other regulatory body on the use of treated sludge.

The treated biosolids must meet the standards of Class A Biosolids (US-EPA) to be used for food-based agricultural produce.

The study aims at defining the type of biosolids to effectively determine the end use of the treated biosolids. It also aims at developing a policy recommendation for the treatment of biosolids at the state and national levels.

Therefore, there is an urgent need to conduct research that informs a science/ evidence-based policy to safely manage the generated biosolids from the Faecal Sludge Treatment Plants (FSTPs).

The Government of Telangana has established twenty-one FSTPs using five different technologies to treat the faecal sludge. ASCI is the knowledge partner of the Government of Telangana for the establishment of the FSTPs.

The MoU was signed on Mar Tuesday between Prof V Srinivas Chary, Director, ASCI, and Veeralakshmanan Bagavathi, Head of Inclusive Business, Covestro - ISC and ASEAN, in the presence of Dr N Satyanarayana, Commissioner and Director of Municipal Administration Department, Government of Telangana and Mayank Mittal, Additional Collector, Narayanpet, a statement said on Wednesday.

GEO-ECONOMICS OF SINO-TAIWAN CONFLICT

A CATCH-22 SITUATION FOR INDIA?

DR MADHUSMITA DASH &
DR SASWAT KISHORE MISHRA

THE recent visits to Taiwan by the US House Speaker Nancy Pelosi and subsequently by a delegation of US lawmakers have raised temperatures to a fever pitch, reigniting tensions between the US and China. Foreseeing a Chinese invasion, Taiwan is conducting its largest ever military drills which simulate the repulsion of an invading force.

There are indications of a possible military intervention by the US if China unilaterally takes action to breach the status-quo. While the global economy is still paying a hefty price for the Russian actions in Ukraine and COVID-19 pandemic, the dangers of a Chinese invasion of Taiwan will have far-reaching geo-economic and geopolitical consequences for India and the world. But what is so special about this tiny island that the Chinese are willing to wage a war against the mighty US military? And what are India's economic interests and political options in the event of an invasion of Taiwan?

History between China and Taiwan

After a brief spell as a Dutch colony (1624-1661), Taiwan was annexed by the Qing dynasty of China in 1663. Following the first Sino-Japanese War in 1895, Taiwan was colonised again by the Japanese imperial rule. Finally, Japanese surrendered and gave up control over Taiwan in 1945 after their defeat in the World War II.

Consequently, the governance of Taiwan was transferred back to the Republic of China (ROC) by the United Nations Relief and Rehabilitation Administration. However, in 1949, the Chinese communist armies defeated Nationalist forces on the mainland and established the People's Republic of China (PRC). The Nationalist government and armies fled to Taiwan, again resulting in the separation of Taiwan from China. The PRC government in Beijing has maintained that it has jurisdiction over Taiwan and has continued to propound a one-China policy.

Disputed rights over South China Sea

The South China Sea (SCS) is bordered by several Southeast Asian nations, mainly,

India should asseverate similar stance for Taiwan Strait and move back from the policy of a studied silence. If India seeks to engage with the prosperous Indo-Pacific region, it will be affected by the US-China friction over Taiwan. While many experts have argued that this is not India's battle to fight, India needs to wake up to the reality that Taiwan's security is critical to its own security and that of the Indo-Pacific region

China, Taiwan, the Philippines, Malaysia, Brunei, Indonesia, Singapore and Vietnam. This sea holds tremendous strategic importance for its location since it is the connecting link, known as the Strait of Malacca, between the Indian and the Pacific Oceans.

According to the UNCTAD, SCS accounts for one-third of global maritime trade, carrying an estimated US \$3.37 trillion worth of trade every year. The SCS is estimated to have 11 billion barrels of untapped oil and 190 trillion cubic feet of natural gas, as per Council on Foreign Relations.

As estimated by the Department of Environment and Natural Resources, Philippines, SCS has one-third of the world's marine biodiversity. Importantly, the country that will control this maritime route will have substantial military advantage over rest of the world. China's keenness to unilaterally control SCS is evident from the fact that it has been conducting military surveillance, constructing ports, military installations, airstrips, and even building artificial islands.

Global high stakes of semiconductors

Taiwan is the unmatched leader of the

world's semiconductor industry, singularly holding 63% of the global foundry market share, followed by South Korea (17%), and China (6%). In fact, in the first quarter of 2022, Taiwan Semiconductor Manufacturing Company (TSMC) has emerged as the world's largest chip manufacturer while alone commanding a global market share of 54%. It supplies chips to major technology firms such as Apple, Intel, Nvidia and major car makers around the world including Volkswagen, Ford, Toyota motors, and so on.

Furthermore, replicating the manufacturing of semiconductors are extremely costly, tedious and time-consuming process. In 2021, the world witnessed a massive shortage of chips (primarily due to an ease in COVID-19 restrictions, sudden surge in demand, and disruptions in global supply chain) and realised its mammoth dependence on Taiwan.

India's stakes

India's economic vitality rests on assured supply of energy and secure trading routes in the SCS, including the Straits of Malacca. India uses the SCS waterways for trade worth nearly US \$200 billion each year. Nearly 55% of India's trade with the Indo-

Pacific region pass through these waters, making SCS a significant geo-economic water body for the country.

Further, the Taiwan Strait is the primary shipping route between Japan, China, Taiwan and (much of) South Korea, carrying goods from the East Asian factories to the global market. India has comprehensive economic partnership agreements with Japan and South Korea, and recently signed an economic cooperation and trade agreement with Australia. India is at a very nascent stage in facilities for designing and manufacturing chips. This is also impeding India's 'self-reliance' when it comes to electronics manufacturing. In December 2021, India and Taiwan started negotiations on free-trade agreement focusing on developing India into a semiconductor manufacturing hub. If China invades Taiwan, it will have an insane control over a plethora of resources, a strategic military advantage, and a dominance over the US \$3.37 trillion trade route as compared to India.

How should India respond?

In more recent times, there has been a palpable change in India's stance over the sovereignty of SCS dispute, especially after Galwan Valley clash in 2020. India has maintained that SCS is a part of global commons and that there is a need to ensure freedom of navigation and unimpeded lawful commerce in this region. India should asseverate similar stance for Taiwan Strait and move back from the policy of a studied silence. If India seeks to engage with the prosperous Indo-Pacific region, it will be affected by the US-China friction over Taiwan. While many experts have argued that this is not India's battle to fight, India needs to wake up to the reality that Taiwan's security is critical to its own security and that of the Indo-Pacific region. In the face of this catch-22 situation, it's about time India strengthens economic ties and scales up diplomatic relations with Taiwan.

Securing IoT from view of a future battlefield

PROF VALLI MANICKAM &
DR RAJEEV KUMAR

THE most valuable and significant things in the contemporary digital world are Internet of Things (IoT) applications. Additionally, a subset of the IoT created for modern battle operations and intelligent warfare is known as the Internet of Military Things (IoMT), also known as the Internet of Battlefield Things (IoBT). It alludes to actual physical objects of a military calibre that are furnished with software, sensors, and other modern technologies. These items communicate with one another to gather and transfer data over the Internet in order to carry out a variety of tasks more accurately and quickly.

Soldiers in the IoMT and IoBT use a variety of equipment, including combat suits, helmets, weapons systems, and other items. These sensors capture several biometrics, such as their face, iris, heart rate, motions, fingerprints, and facial expressions. In the modern world, military operations are becoming increasingly complex and unpredictable. IoT can help defence and military personnel respond appropriately in situations that are getting more tense. IoMT deploys many sensors across a range of domains.

For the purpose of gathering, analysing, and disseminating data, advanced military forces have invested in communications, control, computers, command, surveillance, intelligence, and reconnaissance sys-

Any security lapse in IoT applications might result in a significant loss of both revenue and client confidence. Compared to threats to confidentiality, integrity, and availability, this type of threat is more dangerous for organisations. The security of IoT applications in the defence sector is even more important when multiple security attacks often get new and unknown information or when the data is used by an attacker in different types of attacks. The problems with IoT application security, on the other hand, are big and important.

tems and infrastructure. Situational awareness is provided through communications, control, computers, command, surveillance, intelligence, and reconnaissance systems, while command and control systems enable those connected to interact and exchange information. IoMT strives to integrate all of this data into a unified ecosystem.

Additionally, from the standpoint of the defence business, assaults on secure IoT applications are riskier than attacks on regular information. The security of IoT applications safeguards the company's reputation and the confidence of its clients in the defence sector. From the standpoint of the defence sector, any security lapse in IoT applications might result in a significant loss of both revenue and client confidence. Compared to

threats to confidentiality, integrity, and availability, this type of threat is more dangerous for organisations. The security of IoT applications in the defence sector is even more important when multiple security attacks often get new and unknown information or when the data is used by an attacker in different types of attacks. The problems with IoT application security, on the other hand, are big and important.

The most valuable and significant things in the contemporary digital world are secure IoT applications. Additionally, from the standpoint of the defence business, assaults on secure IoT applications are riskier than attacks on regular information. The security of IoT applications in the defence sector preserves the organization's reputation and the confidence

of its clients. However, there are significant and serious difficulties related to IoT application security vulnerabilities. With a strong focus on the active participation of early-career researchers, Administrative Staff College of India (ASCI) is known as the best place in India for current and future leaders and innovators in the defence industry to meet and talk about the latest developments in connecting people to information.

In this row, we invite energetic researchers, experts, and scientists to participate in the symposium entitled "Sustainable Internet of Things (IoT) Applications for Building an Advanced Defence Industry in India: Scope, Analysis, Challenges, and Recommendations" (Defence Symposium - ASCI - 2022: [https://easychair.org/ctp/Defens-](https://easychair.org/ctp/Defens)

[e/SymposiumASCI-2022](https://easychair.org/ctp/Defens)).

Based on the Indian defence industry, this symposium is a high-quality international event that includes both academics and business people. It aims to foster communication and knowledge transfer between researchers and practitioners by promoting the use of sustainable IoT applications for building an advanced defence industry and by raising public awareness of them. This symposium is important because there is very little talk about how to keep secure IoT applications in a defence organisation from being hacked by using different security techniques. As a result, the symposium will significantly improve the security and administration of IoT applications used in defence sectors. This symposium's focused approach is its key selling point. Specifically, the symposium will cover the requirements and significance of security and privacy for IoT applications in the defence industry, as well as present problems and challenges, gaps in current methods, and suggestions for future studies. Additionally, it is crucial to secure IoT applications during the decision-making process. So that IoT Applications are secure and last a long time, this conference will focus on all the basic, hybrid, and new ways to make decisions based on a number of factors. (Prof Valli Manickam is Professor and Director, Centre for Innovation and Technology (CIT); ASCI; Dr Rajeev Kumar is an Assistant Professor at the CIT)

Charge up for electric future

TELANGANA HAS PLANNED 600 CHARGING STATIONS IN ONE-TWO YEARS WHICH WILL TRANSLATE INTO A CHARGING POINT BELOW EVERY 2 KM

Prof Siddhartha Ramakanth

Windfall Gains

VEHICLE	REINVESTMENT	ICE INTERNAL COMBUSTION ENGINE VEHICLE
Age of vehicle	7 years	
Upfront cost (electricity cost)	Rs. 10,000	Nil
Subsidy by EV govt. cost	Rs. 15,000	
Loan @ 10% interest	Rs. 10,000	
Payback	Electricity	10%
Payback	Rs. 10,000	Rs. 10,000
Running cost per km	Rs. 0.001-0.002	Rs. 4-5
Average running distance per day	200 km	
Running cost per day	Rs. 100-200	Rs. 800-1,200
Expected profit (expected cost day)		
Upfront cost and loan (monthly repayment)	Rs. 90	Nil
Profit (cost of electricity)	Rs. 100-200	Rs. 800-1,200
Profit (cost of electricity)	Rs. 100-200	Nil
Net savings per day	Rs. 100-200	Nil
Net of working days per month	20 days	
Net savings per month	Rs. 2,000-4,000	Nil

Telangana is one of the first states in India to have a policy for EVs. It was notified after wide deliberations with stakeholders in 2016. The Telangana State Renewable Energy Development Corporation (TSEDC) is the nodal agency for setting up electric vehicle infrastructure and promoting electric mobility in the state. The promotion of electric mobility is one of the many instruments adopted by the state government to combat climate change in addition to spreading NCAP (New Car Assessment Program) funds for the same. Telangana is also one of the few states which has constituted a steering committee headed by the Principal Secretary (Infrastructure) for its implementation.

Driving the World

China houses the largest stock of passenger cars at about 7.8 million units, which is 40% of the global road fleet. It also dominates the light commercial vehicle segment and electric bus deployment, with over 60% and 90% of the world's fleet. Europe accounted for over 37% of the global stock as of December 2021. Europe also has the world's second-largest electric light commercial vehicle stock, with about 1.2 million units. The US car stock stood at 2.2 million.

Mass deployment in these countries is primarily facilitated by the deployment of a large number of public EV charging stations led by the government, followed by private investment. Addressing the electric-vehicle ecosystem, South Korea and the Netherlands currently have the most number of EV charging stations per 100 km.

In Telangana

TSEDC is planning to commission 600 charging stations in Hyderabad and 100 stations already operational. Hyderabad houses the fleet with roughly 7,000 km of road, with 1,000 km being arterial roads and others being lanes and bylanes. Telangana has around 1,000 km of main roads, including State Highways, National Highways and other important roads. The existing 10 charging hubs do not have one charging station every 9 km. The charging hubs have various rated wattages from 60 kW to 240 kW, both AC and DC.

Under FAME II (Faster Adoption and Manufacturing of Electric Vehicles), there will be a charging station within 5 km in a year. TSEDC is planning 600 charging stations in 1-2 years will bring the number to less than 2 km. Telangana is also pushing for EVs having charging stations in every commercial establishment that comes under the Energy Conservation Building Code.

Disruptions in Battery Technologies
By 2030, the EVs plying on roads are expected to be more over 50% more but a primary challenge will be creating the charging infrastructure. Extended charging times is one of the major challenges for the spread of e-mobility. EV charging, as of now, takes anywhere between 30 minutes and a few hours.

Surveyors suggest that at least 30% of the respondents are postponing their purchase decision because of the range anxiety issue. Range charging stations and uncertainty about the availability of charging points are the main reasons for staying away. Even though a few had the existing government range sufficient for their day-to-day business, their prospective requirement of travelling motivation forces them to put their EV plan on hold.

CHARGING POINTS

To understand the case in detail, let us imagine a scenario. A person in Hyderabad on any other metro considers an average 40 km daily. A least-cost EV is guaranteed a minimum of 400-500 km a day on a single charge. Hypothetically, if a conveniently available EV will enter his requirement. But, if the person wants to travel on roads on weekends or on a daily basis, he may be required to travel 200-250 km in one direction, i.e. around 500 km up and down. With the existing EVs, the person may have to get the car

charged at least three times for a 100-km commute. In general, a one-time charge during the journey and night charging is sufficient. However, the real concern is the availability of charging points near the mid-point and at the destination.

With a normal battery pack costing nearly half of the total cost of the vehicle, an incremental increase in the battery capacity significantly increases the vehicle cost. Even if one opts for a vehicle with higher battery capacity, the additional capacity is reallocated more than 80% of the cost, making the investment inefficient.

BATTERY SWAPPING

Another available technology, primarily used for electric 2-wheelers and 3-wheelers, is battery swapping. The technology allows instant charging for EVs. The existing battery swapping technology allows the entire battery pack to be swapped with a fully charged battery manually from the battery swapping racks. This is an innovative swapping system for high-capacity batteries, primarily for 4-wheelers and light utility vehicles.

The intention is an attempt to use a combination of computer vision and wireless communication, and the swapping system can identify the exact battery module to be swapped once dislodged from the battery pack. The 4-wheelers, they are placed on racks so that they can be charged, similar to the conventional swapping systems and ready for the next vehicle. This is being made similar to 'Tiger' for ease of operation by vehicle owners. They are also being tried to be vehicle-specific, where they are designed to know exactly the vehicle type, BMS and adjust the voltage level to match the vehicle's requirements.

SWAPABLE-EXTENSIBLE MODULAR BATTERY SYSTEM

Under this, a vehicle is fitted with a fixed battery pack when purchased with a slot for an additional 2X capacity, which makes the battery pack 'extendable'. Battery extension can be done only when required, and the extended battery can be returned to the service provider. The external batteries are also connected to the system and can be swapped along with the main battery. Such battery systems are both cost-effective and address Range Anxiety. The vehicle-charging dynamics with respect to the weight of the additional battery packs are also easily managed by 'dumb batteries', equivalent to the weight of road vehicles.

LITHIUM-ION WILL GET MAKEOVER

The development comes out with the existing lithium-ion batteries. However, certain new technology batteries can disrupt the existing battery game and can revolutionize the sector once available commercially. A few of them are:

Savings of graphite with lithium

The graphite used in batteries is a critical part of the batteries generally weighs 10-20% of the existing battery system. Replacing the graphite with silica will result in a reduction in battery weight. Research results suggest that the silicon-based lithium battery cells will have at least 20% energy density (700 Wh/L to 900 Wh/L by 2025 and 1400 Wh/L by 2030) and also a longer lifespan.

Distance between monoly electrolytes and lithium

Another such case is a distance between monoly electrolytes and lithium and replacing them with solid electrolytes. Solid-state batteries are expected to have a greater energy density. Faster charging, longer cycle life and thermal stability, etc., are the advantages. The conventional electrolyte manufacturing line can be used for producing solid-state batteries, a huge advantage in terms of cost economy. Industry trends suggest that economies of scale could be achieved by 2024.

With newer technologies of modular batteries, the vehicle cost can be reduced. There is no better time to buy an EV than now, as by the time you get the battery of your car (current waiting time is 4-6 months), there would be at least double the number of charging stations in Hyderabad.

Telangana Today

USE CASE FOR 4Ws

The current petrol price in India is Rs 102-110 per litre, with an average mileage of 16 km per litre; the cost of running works out to Rs 6.3-6.9 per km. This is in addition to the average servicing and maintenance cost of Rs 17,000-22,000 in the first five years (for Tata Nexon, apple-to-apple comparison). Let's compare the cost economics with India's most selling EV, i.e. Nexon EV which currently has a range of over 250 km and Nexon EV Max which gives nearly 450 km. The average cost of running Tata Nexon EV is as low as Rs 0.96 (as reported by users in Indianautoblog as of May 2021) and gets a maximum of up to Rs 2.5/kWh, which is

80-60% lesser than the running cost of conventional ICE (internal combustion engine) Nexon. In addition, EVs like the Tata Nexon EV also offer free servicing costs for the first five years, which is 100% lesser than the ICE variants. The difference between the on-road cost of Tata Nexon and Tata Nexon EV is around Rs 6 lakh. I have considered my odometer statistics as an example for computing their lifecycle costs.

I have driven close to 22,000 km in the first 12 months of purchasing the vehicle. Considering the average running cost at present, fuel costs at Rs 6.5 per km, with an increase of 6% every year, the amount

spent in the next five years will be around Rs 8,50,000. In addition, one will be spending around Rs 20,000 towards maintenance costs and Rs 10,000 towards engine oil, taking the total expenditure to Rs 8,80,000. If one had purchased Tata Nexon EV, the running costs would be around Rs 2,20,000 @ Rs 2/km. Comparing the two, Tata Nexon EV would have recovered its capital cost in around 4 years.

It would make even better commercial sense to commercial vehicle owners, where one would be travelling 4-5 times that of an average private passenger vehicle, and the breakeven will be achieved in probably less than a year.

Towards a planned transition to green energy

Phasing out unviable coal-based plants, rationalising subsidies and pushing green finance are some must-dos.

M. SRIKANTH/ANUSWITA K. MISHRA

In June, the Centre penalised four companies, including National Thermal Power Corporation (NTPC) and UltraTech Cement, for not operationalising coal blocks and not meeting their production targets.

Consequently, Coal India Ltd (CIL), the world's largest miner, proposed to import 12 million tonnes of coal to prevent a looming shortage of dry fuel in thermal power plants during the next one year.

In fact, CIL has been managing its inventories without importing coal since 2015. Though thermal power accounts for nearly 70 per cent of India's energy needs, it is imperative to have a planned transition to clean/green energy in line with the United Nation's Sustainable Development Goal 13 — Climate Action. Energy transition, essentially, involves switching towards an affordable, renewable, and sustainable energy supply-chain.

Energy market dynamics

It is well established that coal is the single largest contributor to anthropogenic climate change (responsible for 46 per cent of CO₂ emissions and accounts for 72 per cent of greenhouse gas emissions).

According to a study by the International Forum for Environment, Sustainability & Technology, nearly half of the coal mines in Jharkhand have been closed while the remaining are economically unviable.

Also, nearly 70 per cent of CIL's coal mines are loss-making, incurring an aggregate loss of nearly ₹16,000 crore a year.

According to available data, the levelised cost of power generation is the lowest in India, in the entire Asia-Pacific region: solar power generation (\$38.2 MWh), fossil fuels (\$44.5 per

MWh), and on-shore wind power generation (\$48.9 per MWh).

But in terms of power tariff paid by consumers, Malaysia, Vietnam and China levy lower rates than India. According to a study by the World Economic Forum, India can save over \$90 billion by reducing its imports between 2021 and 2030, even if half of the generated renewable power is used to substitute imported coal.

At the COP (Conference of the Parties) 26 held in Glasgow in November 2021, Prime Minister Narendra Modi proposed 'Panchamrit' (five nectars) as part of India's contribution to Climate Action: By 2070, India will achieve the target of net zero carbon emissions.

Further, India is committed to generating half of its energy from renewable sources by 2030. Hence, there is a strong economic reason to opt for environment-friendly energy transition.

Renewable energy push

Portfolios of several oil and gas MNCs such as British Petroleum, Eco-petrol, and Royal Dutch Shell have undergone significant diversification into renewables indicating a rapid change in the energy market dynamics. Back home, ONGC has been exploring geothermal opportunities in Ladakh.

CIL is planning to establish solar power plants with an installed capacity of 3,000 MW to meet its entire electricity demand.

Similarly, NTPC has set up a separate renewable energy subsidiary to build its green energy portfolio.

Further, India took the lead in forming the International Solar Alliance in 2015 to work for efficient consumption of solar energy to reduce dependence on fossil fuels. Now, India ranks fourth in the world in terms of

Green power India plans to generate half of its energy from renewable sources by 2030. S. JITHU SAMUEL/ANAM

installed renewable energy capacity.

Policy options

Proper planning, execution, and management of renewable energy can boost local employment, leading to better health-care, improving quality of life, and ensuring community development through the following channels:

First, older and the economically unviable coal-based power plants in India should be phased-out over the next 10 years under a common law, albeit, at a differentiated rate as compared to the developed nations.

Second, all major barriers to the transition like stranded assets, loss of lives, and livelihoods need to be identified in the context of proper rehabilitation and resettlement. One possible way of compensating in this regard is to utilise the coal cess constructively.

Third, realignment of energy subsidies and economic incentives is critical since subsidies on fossil fuels are seven times higher than those of alternative sources of energy.

Fourth, a new institutional framework needs to be devised with greater participation of the

community jointly with the local governments, businesses and other stakeholders in order to encourage decentralised energy provisioning.

Fifth, 'ease of doing business' should be ensured in respect of land acquisition and necessary steps should be taken to integrate renewable energy with the power grid.

Sixth, the Real Estate Regulation Act (RERA) may be modified by incorporating a compulsory provision for rooftop solar power.

Seventh, the agri-value chain network of Farmer Producer Organisations (FPOs) may be promoted so that gradually free power to farmers can be discontinued.

Eighth, prudent consumption of electricity through responsible lifestyle may be incentivised.

Ninth, to commercialise and scale-up renewable energy technologies, viability gap funding may be provided to manufacturers. Green finance options may be encouraged in a big way for low-cost climate technologies apart from priority sector lending.

Finally, the emphasis should be on reducing the cost of solar panels/wind turbines, etc.

through Production Linked Incentive Schemes. This would fulfil India's aspiration of becoming a manufacturing hub and result in 'Atmanirbharata in renewable energy'.

India scored one of the lowest among 180 countries in the Environment Performance Index, 2022, published by Yale and Columbia Universities.

As there is no planet B, the green energy narrative is here to stay for the times to come as India receives abundant sunlight at least for 300 days in a year; and the country has good wind generating locations in Gujarat, Maharashtra, Rajasthan, and Tamil Nadu.

Therefore a calibrated transition towards renewables will create a salutary environment for the triple bottom-line — People, Profits and Planet.

Besides, gradual transition to renewable energy fulfils India's aspirations: energy security, economic growth and environmental sustainability.

Prepare well for rupee internationalisation

Apart from promoting rupee-based settlement in trade and financial markets, the forex market must be strengthened

PR MADHUSOODHANAN

The Reserve Bank of India has introduced a mechanism to facilitate international trade in rupees. Now the import and export payments may be settled through special Vostro account, while banks, with prior approval from the RBI, can act as authorised dealers for such transactions.

There is no doubt that this is a great step in the right direction considering the limitation for using the US dollar as medium of international transactions, especially with countries under sanctions. This would also help reduce exchange rate risk on traders and pressure on Indian rupee.

Currently, the global trade and the economy are going through difficult times, especially after the Covid-19 inflicted recession and the renewed geopolitical tensions in Eastern Europe. Many developing countries in Asia, Africa and the Latin America are on the verge of currency crises with severe foreign exchange shortages and volatility. Higher imported inflation and interest rate are in fact pushing these economies into a state of stagflation.

At this juncture, an alternative arrangement to US dollar-based settlement system with one using INR would be a win-win to both the partner countries in trade.

When the RBI floated the circular on this, there were wider discussions on internationalisation of the rupee. Although this can be termed as a step in this direction, such internationalisation requires a number of short-term and long-term actions.

An international currency is one that is used instead of the national currencies of the parties directly involved in an international transaction, whether the transaction in question involves a purchase of goods, services or financial assets.

Invoicing of merchandise trade (over-the-counter (OTC) and organised exchanges) including in trade between third countries, use of currency in capital market, both national as well as international, where foreign investors are the major players, are certain immediate aspects of internationalisation.

As per the latest Triennial Central Bank Survey, the dollar accounts for 88.3 per cent of global foreign exchange market turnover, followed by the euro, Japanese Yen and Pound Sterling; the rupee accounts for a mere 1.7 per cent, underlining the need for pushing the currency much further to get an international tag.

It is true that gradual currency internationalisation may happen with increased share in international trade. However, in order to make the currency international so as to reap the benefits for trade and investments, multiple and concerted steps from the government and the regulators are important.

Concerted steps required

Some of them include removal of restrictions on buying and selling of domestic currency in both the spot and forward markets; domestic firms are able to invoice exports and imports in their own currency; foreign firms, financial institutions, government institutions and individuals are able to hold the country's currency and financial instruments; foreign firms and financial institutions, and government institutions are able to issue marketable instruments in the country's currency; the country's own financial institutions and non-financial firms are able to issue on foreign markets instruments denominated in their country's own currency; international financial institutions, such as the World Bank and regional development banks, are able to issue debt instruments in a

Flip side Internationalisation can make the rupee prone to wider fluctuations

country's market and to use its currency in their financial operations; and the currency may be included in the "currency baskets" of other countries, which they use in governing their own exchange rate policies.

As far as the rupee is concerned, our currency is fully convertible in the current account i.e., conversion mainly for trade in goods and services, but partially in capital account — that is, conversion for the purpose of moving capital across the border. Here it would be interesting to look at the position of rupee against the aforementioned points, which will acknowledge why the rupee is partially convertible in capital account. In fact, India has already come a long way in capital account convertibility, but with cautious and gradual steps.

Although we opened up our economy for portfolio and direct investments, experience from the East Asian crisis and other major currency crises have taught us to avoid any radical step in this direction. It may be noted that the idea of issuing foreign currency sovereign bonds which was highlighted

by the Finance Minister in one of her Budget speeches is still not actioned upon.

Some of the benefits of the internationalisation of rupee would include limited exchange rate risk for traders in goods and services, access to international financial markets for cheaper capital by domestic firms and institutions without incurring exchange rate risk, and wider business opportunities in global capital markets for domestic financial institutions.

On the government side, this may give more options to meet their budgetary deficit while the issue of current account deficit can be addressed without drawing down the official reserves.

Costs involved

As regards the cost, internationalisation of currency will limit the country's ability to anchor monetary policy to its domestic economic landscapes and have fixed or highly managed exchange rate regime. Domestic currency may also be prone to wider fluctuations and depreciation as the overseas investor sentiment will have wider

ramifications to the currency when sizeable portion of currency and instruments are held overseas.

Other than these, issuance of foreign debt in domestic market may pose risk especially when the debtors default. Most of the financial crises — be those in the 1980s, 1990s or the one in 2008 — are testimony for the costs involved.

Overall, currency internationalisation is a double-edged sword, with ability to hurt if we are not prepared well, but having immense potential, too. As a growing economic powerhouse, wider use of local currency with less barriers will help support international trade and investments.

The recent initiative of invoicing trade in rupee comes from a different global requirement and order, but for true internationalisation and wider use of the rupee overseas, opening up of trade settlement in rupee alone will not suffice. Further opening up and liberalised settlements in rupee for various financial instruments both in India and overseas markets are more important.

Promotion of rupee-based settlement in both international trade and financial markets would also attract more global players to go for this option as the world is moving towards a multi-polar system where India will be a dominant power.

A strong foreign exchange market with an efficient swap market may be another precondition for rupee internationalisation. Further improvement in overall economic fundamentals, financial sector health, followed by an upward movement in sovereign ratings will also strengthen confidence in the rupee, making the currency ready for next step in its international journey.

SVB shows up old systemic flaws

KEEP VIGIL. The oversight, as in GFC, has been found wanting in the US, although the contagion can be contained

PE Madhusoodanan

The Silicon Valley Bank, the preferred choice for start-ups, downed its shutters on March 10. Established in 1983, SVB is the 16th largest bank in US with focus on innovation economy. Silvergate Capital Corp and Signature Bank are the other two banks that collapsed.

These collapses have raised questions on the resilience of the US financial and banking system, impact of contagion for wider US and global economy, and the probability of the repeat of 2008 like financial crisis.

These bank collapses in the US are bad news for global economy especially at a time IMF and other global agencies have put out gloomy forecasts for global growth.

Currently, the US regulators are facilitating quick sales of SVB's assets to other large, solvent and liquid financial institutions. Federal regulators have also assured all depositors of SVB and other closed banks access to all their money, while also making additional funding available to banks through a new "Bank Term Funding Program."

THE IMPLICATIONS

Though the current crisis is not similar to the 2008 global financial crisis, an extended crisis can be avoided only through further assurances and action from the authorities.

Therefore, how well and how soon the crisis is managed by the US regulators with nil contagion effect is vital for both US and the global economy.

Since the current crisis was more of a liquidity problem rather than a solvency issue, focus must be on ensuring availability of sufficient liquidity in the system. Regulators would over must continuously assess banks' asset-liability models to prevent a contagion.

It is also urged that financial institutions in US and elsewhere do a continuous assessment of their asset-liability models and plan the strategy in advance as any trigger event may lead to contagion and additional spill over to the real economy especially in a higher interest rate environment.

From that perspective, HSBC's acquisition of SVB UK and the bank's and UK regulator's assurance to depositors is good news.

Meanwhile, the recent news about Credit Suisse is causing further panic in the financial markets.

But Credit Suisse's problems are unique and not new to the world. The lender had already stacked up huge losses and had many governance issues.

FIRE-FIGHTING. The US authorities have stepped in to assure depositors and ensure liquidity.

The bank was already undergoing restructuring after raising 4 billion Swiss Franc from the market and now with the new developments an additional 54 billion Swiss Franc liquidity support is to come from Swiss National Bank.

Regarding Credit Suisse, panic in the market is a bigger problem than its solvency and liquidity issues. However, with the lender being one of the systemically important financial institutions in the world, further regulatory stress tests and reassessment of exposure is advisable.

The bank failures in US also raise questions about governance in the banking system. The rating downgrade of SVB, though came after the incident, was also largely based on governance issues. Meanwhile, shareholders of SVB have sued its CEO and CFO for fraud.

Although banks have specific internal mechanisms for risk identification, assessment and mitigation, it is surprising to see that risk management committees with the bank hardly knew about risk involved in asset-liability management and models. This also underlines the need for more independent and professional approach

The role of rating agencies have once again come under scrutiny. Why they did not see the crisis in these banks coming is a cause of concern

towards risk management. The balance sheet management should be supplied including the asset and liability duration gaps.

Along with the bank's internal failure, this should also be seen as a regulatory failure as US regulators were also clueless about the imminent crisis, even after having in place various risk management mechanisms such as stress testing, early warning etc. These models need a relook and lapses should be plugged at the earliest to avoid another crisis.

Another area which needs urgent attention is the role of international rating agencies. Rating agencies such as Moody's and S&P downgraded these banks to junk after they collapsed. It is easy to downgrade and change outlook after the collapse and bankruptcy of any entity, but the purpose of these agencies is to give their impartial and expert opinion about creditworthiness and outlook for the benefit of larger investors and depositors.

Moody's had assigned an A rating to SVB, repeating the same mistakes of the sub-prime market crisis in 2008. There are also questions being raised over why the rating agency didn't warn investors and waited until the bank's collapse.

IMPACT ON INDIA

The immediate impact is the short-term volatility in the financial markets, but it is too early to discuss about the contagion through other macro channels. US regulators moved quickly to prevent any spill over effect and

assured start-ups and banks about liquidity. Therefore, impact through macro channels seems negligible to India and the world.

However, further follow up actions by the US regulators in the form of reassessment of the risk profile of the financial system in order to avoid any systemic risk is highly warranted to keep the global economy and also India safe.

There may be concerns for Indian start-ups incorporated in US with bulk of their customers in North America and deposits in SVB. The current reassurance from the US regulators about the safety of insured and uninsured deposits, and opening up of new liquidity channels may reduce stress in the sector and reassure start-ups.

However, more details about the assistance programme must be made public at the earliest, while the negative sentiment will remain in the market in the medium term.

The Indian banking system is more heavily regulated than the US system. The various monetary and prudential regulatory measures will insulate Indian banks, while the system has negligible direct and indirect exposure to SVB and other failed banks in US.

However, this is also a time for Indian banks and the regulator to reassess the efficacy of their independent risk management systems.

ASCI to organize inter-college management fest on March 24 & 25

Hyderabad, Mar 21 9UNI) Administrative Staff College of India (ASCI) will organize inter-college management fest of PINNACLE '23, at its College Park campus located in Banjara Hills on March 24 and 25.

The two-day program includes various sub-events, competitions, and fun activities, which will keep the participants engaged and entertained throughout. The highlight of the event will be a grand cultural evening with a DJ troupe, which promises to be an unforgettable experience, a statement said on Tuesday.

Please log in to get detailed story.

ASCI to organise inter-college management fest PINNACLE'23 & India Vision 2047 Seminar on March 24 & 25, 2023

By India Education Diary Bureau Admin on March 21, 2023

Hyderabad: ASCI to organise inter-college management fest PINNACLE'23 and India Vision 2047 Seminar on March 24 & 25, 2023

Administrative Staff College of India (ASCI) is proud to announce the organization of PINNACLE '23, an inter-college Management Fest that promises to be a thrilling event for all the participants. ASCI PGDM Programme is organizing this fest on the 24th and 25th of March 2023, at its College Park Campus located in Banjara Hills.

The two-day program includes various sub-events, competitions, and fun activities, which will keep the participants engaged and entertained throughout. The highlight of the event will be a grand cultural evening with a DJ troupe, which promises to be an unforgettable experience.

Participants have the opportunity to win exciting prizes, coupons, and certificates. The Best Manager Prize, with a trophy and an attractive cash prize, is up for grabs as well. ASCI PGDM is also organizing a seminar titled India Vision 2047, which will take place on the 24th of March, 2023. This seminar will discuss the hopes and aspirations of young people, as India approaches its centennial year of freedom.

UG and PG students are invited to register for PINNACLE '23 by March 22, 2023. To register, visit the ASCI PGDM website at ascipgdm.in, or use the Google link provided here: <https://forms.gle/RWuJAEa69Cxn0tAA>

For further details, please contact Lokesh at 8341288816, Varun at 8885308840, or Roshan at 9032705403.

Join us at PINNACLE '23 and be a part of this exciting event that promises to be an unforgettable experience.

ASCI, T-Hub tie up to support tech startups

BB BUREAU
HYDERABAD

THE Administrative Staff College of India (ASCI), Hyderabad, and City-based innovation ecosystem enabler T-Hub on Tuesday signed a Memorandum of Understanding (MoU) to work towards a long-term mechanism to promote cooperation in the innovation ecosystem, support technology driven startups and create a holistic ecosystem for advancements in innovation in the country.

The MoU valid for one year was signed by Dr Nirmalya Bagchi, Director General (i/c), ASCI, and M Srinivas Rao, CEO, T-Hub. Officials from both the organisations were present during the event.

ASCI said that under the collaboration the areas of cooperation include Entrepreneurial Training and Capacity Building, Innovation Challenges and Hackathons, Incubation and Acceleration Programmes, Joint Conferences and Workshops, Mentorship and Networking.

Elaborating further the autonomous institution said, ASCI and T-Hub will work together on designing and delivering training programmes, workshops, and capacity building initiatives aimed at enhancing the entrepreneurial skills and knowledge of government officials, administrators, and aspiring entrepreneurs.

ASCI-Hyderabad & T-Hub sign MoU to promote cooperation in innovation ecosystem

Hyderabad, May 16 (UNI) Administrative Staff College of India (ASCI), Hyderabad, and T-Hub on Tuesday signed a Memorandum of Understanding (MoU) to work towards a long-term mechanism to promote cooperation in the innovation ecosystem, supporting technology driven startup companies, and thus creating a holistic ecosystem for advancements in innovation in the country.

Dr Nirmalya Bagchi, Director General (i/c) of ASCI, and M Srinivas Rao, CEO of T-Hub, signed the MoU.

The MoU shall be valid for a period of one year from date of execution.

ASCI and T-Hub will collaborate on designing and delivering training programs, workshops, and capacity-building initiatives aimed at enhancing the entrepreneurial skills and knowledge of government officials, administrators, and aspiring entrepreneurs.

T-Hub and ASCI will jointly organize innovation challenges, hackathons, and other collaborative events aimed at solving real-world problems in management and public administration using technology, a ASCI release said.

‘Hyd to lead in waste management’

City will top in terms of waste-to-energy plants & achieve 100% sewerage treatment by August, says KTR

STATE BUREAU
HYDRA-60

Stressing people's participation in government initiatives in making the State scale new heights, Municipal Administration and Urban Development Minister KT Rama Rao said Hyderabad would lead the country in terms of waste-to-energy plants from the existing capacity of 24 MW to 301 MW by December 2024.

It would be the only city in India to achieve 100 per cent sewerage treatment by August-end, he said while delivering the keynote address at the World Environment Day 2023 at the Administrative Staff College of India (ASCI) here after launching ReThink (Reduce, Reuse and Recycle Knowledge Hub and Environmental Surveillance Lab).

ReThink is an IoT-based platform that connects all RRR centres in wards and cities to potential clients. Similarly, ESL provides quality and cost-effective

monitoring services to ensure safe water, environmental sanitation and ecological sustainability.

Rama Rao said there are 206 dry resource collection centres (DRCC) with a capacity of 750 tonnes per day (TPD), wherein 87 DRCCs are being managed by SHG women and earning approximately Rs 6.3 crore in revenue per year. At the remaining 122 DRCCs, dry waste is sorted, baled and sold to recycling and RDF units, he said.

There are 1962 RRR (Reduces, Reuse, Recycle) centres in 142 ULBs set up to collect used plastic items, old books, clothes and footwear, among others. Over 300 MT of used items have been collected at these centres from May 20 to date.

Bio-methanation plant
The Minister said five ULBs — Suryapet, Medchal, Jawaharnagar, Kompally and Dummaguda — have scientific facilities for processing wet and dry waste, and four bio-methanation plants with a total 38.5 TPD capacity —

MAUD Minister KT Rama Rao during the World Environment Day event at the Administrative Staff College of India in Hyderabad on Monday.

GHMC (5 TPD), GWMC (2.5 TPD), Siddipet (10 TPD) and Siricilla (3 TPD) — are converting organic waste to valuable biogas, which is being used for cooking.

Holy waste management. The 'Holy Waste' initiative is being taken up to adopt a

circular economy approach and recycle floral waste of approximately 6 TPD into valuable products. This initiative is being taken up in the temple towns of Vemulawada, Dharmapuri, Yadagiritha and Alair jointly with Oxyel Sustainable Solutions Pvt Ltd and VAGMI Mahila Sangam.

Bio-mining of legacy waste in 128 ULBs
Briefing about the bio-mining measures being adopted in the State, Karna Rao said under the sustainable waste management practices and resource recovery, Telangana was undertaking a bio-mining project with Rs 178.6 crore in 128 ULBs in nine

clusters. This would support unlocking the potential of valuable land in urban areas. In fibroblast, a majority of the bio-mining work was completed and this would result in reclaiming nearly 11 acres, he said.

Faecal sludge
treatment plant

Stressing that safe faecal sludge and septage management is critical for better sanitation outcomes and building livable urban areas, Karna Rao said PSTPs were being set up in all 39 ULBs with Rs 427.3 crore. "This is a path-breaking initiative by the Telangana government and we are the only State, along with Odisha, to have achieved such a feat," Rama Rao said.

Explaining future plans, the Minister said the government has approved the setting up of rooftop solar power plants of 31.12 MW at STPs, pump houses, reservoirs and buildings of the HMWSSB. An MoU between the HMWSSB, Prof Jayashankar Agriculture University of Telangana, In-

dian Institute of Rice Research, Sustainable India Trust and Gaura Gobind Singh Indraprastha University, New Delhi, would be signed for the study on nutrients extraction from the byproducts of STPs and initiate measures to reduce carbon footprint in STP operations, he said.

Hyderabad has been ranked high by different agencies and organisations for its achievements in diverse fields. It was adjudged as the most liveable city by Mercer for five years, from 2015-2020. On Sunday, the Centre for Science and Environment ranked Telangana top for its overall performance in environmental initiatives, he said.

"But if Hyderabad was to make a mark as a global city, people's participation in government and local ULBs initiatives are required. Like corporate social responsibility, individual social responsibility is needed to make the society a better place for living and present a safe environment for future generations," Rama Rao said.

KTR calls for increased recycling, seeks support

Announces that every Saturday will be observed as 'RRR Day'

AARTI KASHYAP | DC
HYDERABAD, JUNE 5

MA&UD minister K.T. Rama Rao, on the occasion of World Environment Day on Monday, called on the public to follow the 3R (reduce, reuse and recycle) mantra and urged MSMEs and start-ups to connect with recycling centres.

Inaugurating ReThink, a 3R knowledge hub, and an environmental surveillance lab on the premises of the Administrative Staff College of India (ASCI), the minister said: "ReThink is an initiative of ASCI and MA&UD to connect 3R centres in towns with recyclers, MSMEs and start-ups. It aims to accelerate circularity in waste management and prevent plastic waste from reaching landfills or water bodies."

On the occasion, Rama Rao said that an MoU has been signed among HMWS&SB, Prof. Jayashankar Agriculture University of Telangana, Indian Institute of Rice Research, Sustainable India Trust and Guru Gobind Singh Indraprastha University, New Delhi, for a study on extraction of nutrients from the by-products of STPs (sewage treatment plants) and initiate measures to reduce carbon footprint in STP operations.

The minister said 1,962 3R centres were set up by 142 urban local bodies to collect used products, such as used plastic items, old books, clothes and footwear. "Over 200 MT of used items were already collected at these centres from May 20 to date and the products would be refurbished, reused or remade into new products," he said.

Rama Rao also announced that every Saturday will be observed as 'RRR Day', for officials of each municipality to discuss progress on waste reuse and recycling.

He said the measures were important as, despite Hyderabad being the most liveable city in India, it ranked 142 globally.

Rama Rao said that to improve liveability, initiatives of waste treatment, solar roofing, dry resource collection, faecal sludge treatment, bio-mining of

About 2,000 Army personnel from the Artillery Centre on Monday removed plastic waste from the Hussainsagar as part of a week-long initiative to mark World Environment Day under an Indian Army initiative 'Olive Greens Defending Environment'. Personnel of the Telangana and Andhra Sub Area (TASA) and training centres in Secunderabad and Hyderabad took part in several initiatives on the day. Units under TASA held aware-

ness campaigns and community events, which started on May 29.

More than 15,000 soldiers and their families joined hands to undertake waste management, tree plantation drives, cycle rallies and plastic collection, including cleaning of lakes.

On Monday, rank and file of 1 EME Centre in Secunderabad gathered in large numbers to spread awareness among citizens through a cycle rally, while more than 1,000 troops of AOC Centre and HQ TASA undertook a pledge to adopt sustainable practices.

G20 DELEGATES GO CYCLING AT PALAPITTA PARK

SANJAY SAMUEL
PAUL | DC
HYDERABAD, JUNE 5

G20 delegates, who are in the city for a health conference, took part in a cycle ride at the Palapitta cycling park on Monday to mark World Environment Day.

The ride, facilitated by the Hyderabad Bicycling Club and TS Forest Corporation, saw the participation of Prof. S.P. Singh Baghel, minister of state for health, and Lav Agarwal, additional secretary (health).

The ministers appreciated the effort to make the city carbon-free by promoting cycling.

Dr. Chandrashekar Reddy, vice-chairman and managing director of TSFDC, explained to delegates the state initiatives in turning Telangana into a 'green carpet'. HBC vice-chair D.V. Manohar emphasised the importance of cycling in reducing pollution.

● PROF. S.P. SINGH Baghel, minister of state, and Lav Agarwal, additional secretary (health) did some cycling.

second in the country for solar energy generation, having up-scaled from 74 MW in 2014 to 5,000 MW at present.

The minister, appealing to citizens to take part in government initiatives, said that a Hyderabad Habitat Centre, on the lines of the India Habitat Centre in Delhi, will be set up in Khanamet for think tanks to meet and work on innovation. Rama Rao also took a cue from European cities and said that a regulation will be implemented for mandatory recycling and reuse of wastewater and dual piping systems for promoting net water neutrality at residential high-rises and commercial buildings.

Green plunge: KTR launches RRR hub

TIMES NEWS NETWORK

Hyderabad: Municipal administration and urban development

(MAUD) minister K.T. Rama Rao on Monday inaugurated

Reduce, Reuse and Recycle (RRR) Knowledge hub introduced by the government of Telangana in partnership with ASCI.

Speaking at the inauguration, he said the state will soon implement a regulation promoting net water neutrality in buildings — mandatory recycling and reuse of wastewater and dual piping systems.

"We will be promoting wastewater recycling in Hyderabad by introducing a policy. Also, in partnership with ASCI, we will establish a circular economy hub at MAUD for resource efficiency, decarbonizing the economy and climate change mitigation," he added.

The minister said that so far the state had set up a total of 1,962 RRR centres in 142 ULBs to collect used products such as plastic, old books, clothes & footwear etc.

KTR launches 'Rethink RRR' with aim of a greener city

True change begins when people take ownership of actions: Minister

EXPRESS NEWS SERVICE
@ Hyderabad

COMMEMORATING World Environment Day, IT and Industries Minister KT Rama Rao inaugurated the Rethink RRR Centre (Reduce, Reuse, and Recycle Knowledge Hub) and Environmental Surveillance Lab at the ASCI campus in Hyderabad on Monday.

During his address, he stressed the importance of individual social responsibility towards the environment in addition to corporate social responsibility initiatives. He highlighted that true change begins when citizens take ownership of their actions.

"Though Hyderabad is securing top positions among the Indian States in several surveys and reports related to different departments, the city still has a long way to go to make its mark as a global city. For that, there is a need for planning, agenda, collaborative effort and responsible leadership," he commented.

Govt to implement policy on wastewater recycling

Focused on this year's theme, 'Beat the Plastic', the minister encouraged startups and innovators to develop accessible and affordable alternatives to plastic, which would aid in effectively banning its use.

He also announced that the government will promote wastewater recycling in Hyderabad through the introduction of a policy. Furthermore, a circular economy hub will be established at the Municipal Administration and Urban Development (MAUD) Department in partnership with ASCI to promote resource efficiency,

MAUD Minister KT Rama Rao takes a look at the exhibits at the Administrative Staff College of India in Hyderabad on Monday | SRI LOGANATHAN VELMURUGAN

decarbonisation and climate change mitigation.

Rama Rao further outlined various initiatives undertaken, including construction and demolition (C&D) waste management, dry resource collection centres, biogas production plants, plastic waste management, bio-mining of legacy waste in 128 Urban Local Bodies, faecal sludge treatment plants and rooftop solar power plants.

Centre aims to prevent plastic in landfills

Rethink, an initiative by ASCI and the MAUD Department, serves as a platform connecting RRR centres across towns in Telangana with recyclers, MSMEs and startups.

Its primary goal is to accelerate circularity in waste management and prevent plastics and waste from ending up in landfills and water bodies. Currently, there are 1,962 RRR cen-

tres in 142 ULBs to collect used products such as plastic items, old books, clothes and footwear. Since May 20, over 200 metric tonnes of used items have been collected in these centres. These products will be refurbished, reused or transformed into new items.

MoU on carbon footprint

In addition, an MoU will be signed between HMWS&SB (Hyderabad Metropolitan Water Supply and Sewerage Board), Professor Jayashankar Telangana State Agricultural University, Indian Institute of Rice Research, Sustainable India Trust and Guru Gobind Singh Indraprastha University, New Delhi.

The collaboration aims to study nutrient extraction from byproducts of Sewage Treatment Plants (STPs) and implement measures to reduce the carbon footprint in STP operations.

1,962 Reduce Reuse Recycle centres set up in 142 ULBs: KTR

**The Hindu Bureau
HYDERABAD**

Telangana government has set up a total 1,962 RRR (Reduce, Reuse, Recycle) centres in 142 urban local bodies (ULBs) across the State to collect plastic items, old books, clothes and footwear, etc. More than 200 metric tonnes of used items have already been collected from May 2020 to date, said Minister for Municipal Administration and Urban Development, K.T. Rama Rao on Monday.

The Minister was speaking on the occasion of World Environment Day at the Administrative Staff College of India. Mr. Rama Rao inaugurated the Rethink knowledge hub and Environment Surveillance Laboratory at ASCI.

These collected products will be refurbished, reused or remade into new products. Further, about 190 tonnes of recyclables are being diverted every day for recycling within Hyderabad. The Minister also said that a total of 24-megawatt waste-to-energy (WTE) plant is fully functional at Jawahar Nagar in Hyderabad. More such plants under construction at Dindigul, Yacharam, Bibinagar and other places will be ready by December 2024. The government has set up two construction and demolition waste processing facilities in Hyderabad.

While talking about the waste in nalas (drainage), Mr. Rama Rao said a majority of it is plastic and peo-

K.T. Rama Rao at an event at ASCI in Hyderabad on Monday.

ple who clean them often find things which are not even available at supermarkets.

A total of 206 Dry Resource Collection Centres (DRCCs) with a capacity of 750 TPD – wherein 87 DRCCs are being managed by women SHGs and earning approximately ₹6.3 crore revenue per year and the remaining 122 DRCCs dry waste is being sorted and baled, and sold to recycling and RDF units.

The Minister said the government proposed to set up a Circular Economy Cell at the Hyderabad Metropolitan Supply and Sewerage Board. "In partnership with ASCI, we will also be setting up a Circular Economy Hub at MA&UD for resource efficiency, decarbonising the economy and climate change mitigation," he added.

ASCI chairman K. Padmanabhaiah, at the event, asked the Minister to open a similar centre in Hyderabad like the India International Centre, Delhi, where thinkers can gather and discuss plans for the State's development.

KTR Launches Reduce, Reuse And Recycle Knowledge Club

By IND Today News Desk Last Updated: Jun 6, 2023

KTR Launches Reduce, Reuse and Recycle Knowledge Club

Hyderabad: As part of World Environment Day, Hon'ble Industries Minister Shri KT Rama Rao launched the 'Rethink - Reduce, Reuse & Recycle Knowledge Hub' at the Administrative Staff College of India (ASCI) campus.

Rethink is a first-of-its-kind initiative in the country that connects RRR centers inwards and cities to potential clients from Startups, NGOs, CBOs, MSMEs, innovators, and corporates who are working in the space of resource management.

Rethink aims to accelerate circularity in waste management and prevent plastics and waste from going to landfills and water bodies. Speaking at the event, the minister declared that every Saturday would be designated as 'Rethink Day,' dedicated solely to RRR activities.

"So far we have set up a total of 1962 RRR centers (Reduces Reuse Recycle) in 142 ULBs to collect used products such as used plastic items, old books, clothes & footwear, etc. Over 200 MT of used items is already collected in these RRR Centres from 20th May till date. These products will be refurbished, reused, or remade into new products."

As a waste exchange platform, Rethink monitors and captures real-time data from the RRR centers. It bridges the supply-demand gap thereby ensuring someone's trash is another's treasure. Rethink is a circularity hub by promoting reuse and linking innovators to upcycle waste.

RRR mantra should be part of the lifestyle of every citizen and Telangana should be a model state for the rest of the country in this aspect as well. I thank ASCI for initiating this dialogue and this process, he said.

The minister also launched the Environmental Surveillance Laboratory (ESL) at ASCI. ESL meets the environmental monitoring needs of the government, private and non-governmental partners committed to ecological protection. ESL is committed to providing quality and cost-effective monitoring services to ensure safe water, environmental sanitation, and ecological sustainability.

Minister for IT, Industries, and MAUD, K T Rama Rao, delivered a keynote address at the Administrative Staff College of India (ASCI) on the occasion of World Environment Day, urging the participation of common people in the government's efforts to clean cities and villages.

Highlighting Telangana's commitment to environmental protection, Minister KTR referred to the Centre for Science and Environment's recognition of the state's leading role in this regard. He expressed pride in the achievements of the people and Chief Minister KCR over the past decade, emphasizing the significant progress made in various sectors, particularly in the development of Hyderabad. However, he emphasized the need for further efforts to transform the city into a global destination, and assured that the government is actively working towards that goal.

Minister KTR instructed officials to designate every Saturday as 'Rethink - Reduce, Reuse and Recycle (RRR) day,' during which discussions on waste management and recycling initiatives would take place at the planning level. Commending CM KCR's visionary approach to state development, Minister KTR also inaugurated the Knowledge Hub, a collaborative initiative between the Telangana government, ASCI, and the Environmental Surveillance Laboratory. He expressed gratitude to ASCI for their support and cooperation in this endeavor.

The Administrative Staff College of India Launches 'Virtual Centre for Excellence in Public Procurement'

HIGHLIGHTS

The Administrative Staff College of India (ASCI) marked a significant milestone today with the inauguration of its state-of-the-art 'Virtual Centre for Excellence in Public Procurement' at its New Delhi Centre.

New Delhi: The Administrative Staff College of India (ASCI) marked a significant milestone today with the inauguration of its state-of-the-art 'Virtual Centre for Excellence in Public Procurement' at its New Delhi Centre. The event was graced by esteemed dignitaries and witnessed by an audience representing the World Bank, the Asian Development Bank, and various government bodies.

Shri Adil Zainulbhai, Chairman of the Capacity Building Commission, was the chief guest and underscored the importance of capacity building in all levels of public procurement. He applauded ASCI for its timely initiative to launch the Virtual Centre, recognizing its potential to enhance professional and ethical practices in this crucial domain.

In his address, Shri Sanjay Aggarwal, Advisor, Department of Expenditure, Ministry of Finance, shared valuable insights gained from formulating the General Financial Rules, 2017. He commended ASCI for raising the bar of public procurement capacity building in India and praised the Virtual Centre as a significant step towards achieving better procurement outcomes.

Ms. Anna Wielogorska, Practice Manager (Procurement), South Asia Region at the World Bank, delivered the keynote address and acknowledged ASCI's commendable efforts in conducting training programs for the past 28 years. She highlighted the initiatives undertaken by the World Bank to promote fairness and transparency in public procurement.

The inaugural ceremony commenced with the traditional lighting of the lamp by the distinguished guests and the Director General (I/c), ASCI. It was accompanied by the recital of the ancient prayer, 'Tamaso Ma Jyotirgamaya,' symbolizing the transition from darkness to light, signifying the birth of the new Centre.

Shri K Padmanabhaiah, Chairman of ASCI and former Home Secretary, Government of India, delivered the opening remarks, expressing his congratulations to the College on the launch of the Virtual Centre. Dr. Nirmalya Bagchi, Director General (I/c) of ASCI, provided an overview of the Centre's objectives and emphasized its significance in addressing the evolving needs of the public procurement sector.

The event witnessed the presence of esteemed guests such as Mr. Shanker Lal, Lead Procurement Specialist at the World Bank; Smt. Alka Mittal, Former CMD of ONGC; Shri Shyam Sunder Mehndiratta, Senior Procurement Officer at the Asian Development Bank, and Mr. Harsh Sharma, Procurement Specialist (Consultant) at the Asian Development Bank. They lauded ASCI's efforts in launching the Virtual Centre, acknowledging its potential to further empower professionals in the field.

An important milestone during the ceremony was the signing of a Memorandum of Understanding (MoU) between the Department of Expenditure, Ministry of Finance, Government of India, and the Administrative Staff College of India. The MoU aims to conduct training programs on Public Procurement Principles for officers and executives working across various central government ministries, departments, subordinate/attached offices, and autonomous bodies.

The event also included informative presentations by Prof. Nutvik Phatak on the issues and challenges faced by public procurement in India, and Prof. BVN Sachendra, who provided insights into ASCI's upcoming programs in the field of public procurement for the year 2023-24. Prof. Vilas Shah concluded the event with a formal vote of thanks.

The launch of ASCI's Virtual Centre for Excellence in Public Procurement marks a significant leap forward in enhancing the efficiency, transparency, and professionalism of public procurement practices in India.

एस्की ने आरम्भ किया सार्वजनिक खरीद में उत्कृष्टता के लिए आभासी केंद्र

हैदराबाद, 6 जून - (मिलाप ब्यूरो) एडमिनिस्ट्रेटिव स्टाफ कॉलेज ऑफ इंडिया (एस्की) ने आज अपने नई दिल्ली केंद्र में अत्याधुनिक 'सार्वजनिक खरीद में उत्कृष्टता के लिए आभासी केंद्र' का उद्घाटन किया।

आज यहाँ जारी प्रेस विज्ञप्ति के अनुसार, समारोह के दौरान वित्त मंत्रालय के व्यय विभाग और एस्की के बीच समझौता हुआ। इसका उद्देश्य केंद्र सरकार के विभिन्न मंत्रालयों, विभागों, अधीनस्थ/संबद्ध कार्यालयों और स्वायत्त निकायों में कार्यरत अधिकारियों के लिए सार्वजनिक खरीद सिद्धांतों पर प्रशिक्षण कार्यक्रम आयोजित करना है। सार्वजनिक खरीद में उत्कृष्टता

एडमिनिस्ट्रेटिव स्टाफ कॉलेज ऑफ इंडिया (एस्की) द्वारा नई दिल्ली केंद्र में उद्घाटित अत्याधुनिक 'सार्वजनिक खरीद में उत्कृष्टता के लिए आभासी केंद्र' में उपस्थित क्षमता निर्माण आयोग के अध्यक्ष आदिल जैनुलभाई, एस्की के महानिदेशक (प्रभारी) डॉ. निर्माल्य बागची, अध्यक्ष के. पदनाभैया, वित्त मंत्रालय में व्यय विभाग के सलाहकार संजय अग्रवाल एवं अन्य।

के लिए एस्की के आभासी केंद्र का शुभारंभ भारत में सार्वजनिक खरीद प्रथाओं की दक्षता, पारदर्शिता और व्यावसायिकता को बढ़ाने में महत्वपूर्ण छलांग है। क्षमता निर्माण आयोग के अध्यक्ष आदिल जैनुलभाई ने मुख्य अतिथि के रूप में हिस्सा लिया। उन्होंने सार्वजनिक खरीद के सभी स्तरों में क्षमता निर्माण के महत्व को रेखांकित किया। उन्होंने इस महत्वपूर्ण डोमेन में पेशेवर और नैतिक प्रथाओं को बढ़ाने की अपनी क्षमता को पहचानते हुए वर्चुअल सेंटर

लांच करने के लिए समय पर पहल करने हेतु एससीआई की सराहना की। वित्त मंत्रालय में व्यय विभाग के सलाहकार संजय अग्रवाल ने सामान्य वित्तीय नियम, 2017 तैयार करने से प्राप्त मूल्यवान अंतर्दृष्टि साझा की। उन्होंने भारत में सार्वजनिक खरीद क्षमता निर्माण के स्तर को बढ़ाने के लिए एस्की की सराहना की। उन्होंने कहा कि आभासी केंद्र बेहतर खरीद परिणाम प्राप्त करने की दिशा में महत्वपूर्ण कदम है।

समारोह का शुभारंभ एस्की के महानिदेशक (प्रभारी) डॉ. निर्माल्य बागची द्वारा दीप प्रज्वलन के साथ हुआ। उन्होंने केंद्र के उद्देश्यों पर प्रकाश डाला। साथ ही सार्वजनिक खरीद क्षेत्र की उभरती जरूरतों को पूरा करने में इसके महत्व पर जोर दिया। एस्की के अध्यक्ष के. पदनाभैया ने वर्चुअल सेंटर के शुभारंभ पर कॉलेज को बधाई दी और उद्घाटन भाषण दिया।
