

**Position / Title: Solid Waste Management Expert (Policy and Research)**

**Job Id: ASCI116**

**About Administrative Staff College of India (ASCI):**

Administrative Staff College of India (ASCI) is a leading policy think tank and a premier institution providing training, research and consultancy services to Government, Corporate (Public & Private) and Social sectors. It has trained over 2 lakh senior professionals (India & overseas) and completed over 2000 action research & problem-solving consultancy assignments. It has a multidisciplinary team of professionals who work with Ministries of Government of India, State and city Governments, corporates, international development organizations and others towards achievement of India's socio-economic goals.

The Centre for Environment, Urban Governance and Infrastructure Development (CEUG&ID) consists of a team of specialists and researchers from the fields of urban development, urban planning and social development. It embodies the vision to be a Centre of Excellence that supports cities to unlock their potential to become people centric, inclusive, credit worthy and sustainable. The Centre is focused on policy and advocacy, information support and knowledge management, capacity building, action research and networking to create impact while working to achieve the Sustainable Development Goals.

**About the Project:**

Urban India has experienced rampant open burning of waste for many years. Prevention of open burning in cities requires interventions in multiple areas, like improving the policy landscape overall waste management system, changing community behaviour, increasing awareness of SWM systems, and encouraging innovations.

In collaboration with the Royal Academy of Engineering, ASCI is developing a policy framework for preventing open burning and its institutionalization in the two states of AP and Telangana.

**Roles and Responsibilities:**

A thorough desire, inclination and experience in Research and evidence-based policy-making in environment-related subjects like solid waste management.

- Conduct desktop review field research and develop policy interventions to prevent open waste burning.
- Organise stakeholder consultations, develop action plans, and pilot the interventions in AP and Telangana.
- Preparation of knowledge products, toolkits, and other communication content which ULB officials and other stakeholders.
- Coordinate and assist the team in conducting capacity-building programmes and document the learnings accordingly.

- Prepare the project deliverables systematically and timely as per the project timelines and regularly report to the project lead.
- Develop social media content and regular updates on the programme as per requirement.
- Any other duty assigned by the programme advisor and programme lead from ASCI.

**Educational Qualification:**

- ✓ Masters in Environmental Science / Environmental Engineering /Development Studies/Policy Studies with good knowledge of solid waste management
- ✓ Demonstrated experience in **Research-based policy interventions in Solid Waste Management**
