Clients Speak

I am pleased to inform that the course I attended at ASCI on LARR Act, 2013 from 5th to 9th Oct. 2015 was extremely useful to me as well our 14 officers. We could get much more clarity on various provisions of the Act and some innovative practices adopted by few States/Organisations. The CMLARR Team is proficient in the subject. I thank them for providing the opportunity.

I am sorry that I was not fortunate enough to get benefited of the lecture here in Patna. But happy to share that it was applauded by one and all. Everyone liked it so much that they wanted such workshops held regularly once in 6 months. I congratulate you with gratitude.

Greetings from Uganda. Thank you so much for the time, hospitality, professionalism and good friendship you exhibited during our visit to your County. I wish to say that from this exposure visit we had, we have added a very strong network and indeed a strong team of allies who shall forever be remembered in the Arena of LARR. I know for sure that together we can make a difference by deploying the new knowledge in our work. God bless you!

Learning Visit for Government of
Uganda (May 11-20, 2015)

I still relish the beautiful training programme organised by CMLARR. Our problem with Land Acquisition magnified with building National Highways becoming first priority of the new govt. But with people like Dr. Nair around, I think we can handle it with more confidence. Indeed the ASCI training was the best I have received during my career spanning more than a quarter century.

Greetings from the city of temples - Bhubaneswar! This experience is certainly for life. Good learning's at good place with even better resource persons make one's experience worth it. 4Thanks to CMLARR for arranging such a wonderful training program on the latest act on the block - Act on Land Acquisition and R&R. I just want to highlight below my take-away(s) from this beautifully coordinated program in a nutshell.... Activity based learning - I think it was never monotonous when it comes to lectures and talks as the whole program was so beautifully scripted with live examples. - The Interface between "Experts / Researchers / Policy Implementers" and "Participant Government officials / learners" - And what clicked the most is the entire program was in the similar lines of a modern B-School Management Development Program; far away from the stereotypes. - To keep my opinion straight - I'm sure the learnings will come in handy in a big way in all our respective professional spheres.

On behalf of the World Bank, I would like to thank you and your colleagues at the Administrative Staff College of India for hosting us and for your warm generosity. It was a herculean task to arrange a week-long international workshop including field trips for over 100 participants. You and your team did a superb job facilitating this event and creating an open environment for all of us to exchange valuable experiences and learn from each other. Thank you for hosting what I hope will be an evolving international network of professionals committed to sustainable social sustainability.
