

Programme on
**Regulating Electricity Tariffs and
Related Issues of Energy Scenarios**

(December 09 - 11, 2024)

PROGRAMME OVERVIEW

The key focus is on delving into the latest developments in legal, policy, rules, new businesses / markets, and regulatory aspects of electricity tariffs. This includes understanding the principles and methodologies of tariff determination, regulatory compliance, and the role of regulatory bodies understanding implications of them. Participants will engage in case studies and discussions on contemporary issues such as subsidy Mechanisms, cost-reflective pricing and the impact of renewable energy integration on tariff structures and/or dynamics of pricing. The programme also aims to provide insights into consumer protection, dispute resolution, and the balance between commercial viability and public interest in tariff regulations and promotion of sector.

The increasing focus on renewable energy and energy storage also has a notable impact on utilities development of carbon trading mechanism, carbon foot print and emerging realities. Therefore, it is crucial for executives responsible for regulatory affairs and the commercial aspects of power utilities to stay informed about the latest developments in legal, policy, rules and regulatory aspects related to electricity sector.

The Administrative Staff College of India has been at the forefront of guiding / advocacy / formulating regulation of electricity tariffs through its technical support and capacity-building initiatives for regulatory commissions Pan India, utilities, and Governments. We are pleased to introduce the upcoming programme titled "Regulating Electricity Tariffs and Related Issues of Energy Scenarios".

OBJECTIVE

The objective of this programme is to provide comprehensive insights into the evolving landscape of electricity tariffs and regulatory frameworks. It aims to educate participants on the complexities of tariff setting, the interplay between policy decisions and market forces, and the impact of regulatory changes on various stakeholders in the electricity sector. By examining current challenges and emerging trends, the programme seeks to equip professionals with the knowledge to navigate the regulatory environment effectively, understand the implications of tariff changes, and contribute to the development of fair and sustainable tariff structures.

Administrative Staff College of India (ASCI) is taking all the precautionary measures and following all the norms (in light of COVID 19) to provide a safe environment for the participants who are visiting our Campus to attend the Training Programmes.

ABOUT ASCI

ASCI is the first management development institution set up in the country at the instance of the Government of India and industry in 1956 to impart state-of-the-art management education for practicing managers, a legacy that we proudly take forward with a strong alumni of over 1,69,000. We are proud of our alumni which includes the leaders of Indian industry and senior Civil Servants in the government, public sector undertakings to be a part of this unique organisation. We are thankful to you all for the support extended in the past and look forward to your continuing patronage in 2024-25.

Also, ASCI conducts customized programmes for Government of India, State Governments, Public Sector, Private Sector and various international organisations. Our experienced faculty bring to the table a wealth of academic credentials, rich industry exposure and act as a catalyst in the classroom discussions, case study analyses and tutorials. Our faculty also conduct international programmes which provide an exposure to the global best practices. In addition to this, faculty at ASCI also carry out large number of management research activities (typically about 100 each year) which helps them provide the much needed value addition in the training programmes. In addition, we conduct non-residential programmes at our New Delhi Centre as well as off-campus programmes at the venue of the client's choice.
