One-Day Online Programme

Transition from ISO 27001:2013 to ISO 27001:2022
Key Strategies for Strengthening Information Security Framework – A Comprehensive Training for IT Leaders and Security Professionals

(January 23, 2025)

ISO
27001

Administrative Staff College of India

(accredited as उत्कृष्ट by Capacity Building Commission, GoI)

INTRODUCTION

ISO 27001 is the world's leading international standard for information security management published by the International Organization for Standardization. After 9 years, the ISO 27001:2013 version was replaced by a new significantly revised version in 2022. Companies certified against ISO 27001:2013 must transition to the 2022 revision within 3 years by 31st October 2025.

A comprehensive understanding of the key changes and enhancements in ISO 27001:2022 and Annex A controls helps in achieving seamless transition from ISO 27001:2013 to the ISO 27001:2022 version. This course equips the participants with practical examples, templates, and detailed guidance to confidently implement and maintain a robust ISMS by aligning with updated requirements.

LEARNING OBJECTIVES

- Gain a thorough understanding of the key changes and enhancements in ISO 27001:2022 and Annex A controls

- Understand the transition approach including important considerations essential for a seamless transition from ISO 27001:2013 to the ISO 27001:2022 version

- Enhance knowledge in information security management and privacy protection controls

CONTENT

- The Clausal requirements of ISO 27001:2022 with focus on what has changed

- The control requirements of Annex A (ISO 27002:2022) with focus on what has changed

- Important considerations such as Risk based and Process based approach, and mandatory documents for ISO 27001:2022 certification

- Scenario based risk assessment

- Transition approach required to implement ISO 27001:2022 effectively and get certified

PREREQUISITES

Basic knowledge of ISO 27002 Information security management system

MODE OF DELIVERY

The programme will be delivered via online mode and link for same will be shared.

TARGET AUDIENCE

ABOUT ASCI

"I need not tell you how important I feel this institution is, not because it is the first in Asia or third in the world, but because obviously,
it performs a task which is of high importance in the present state of our country, perhaps of other countries too."
-- Pandit Jawaharlal Nehru, the First Prime Minister of India during his visit to the College on 23 Oct. 1958

Established in 1956, it is the first and foremost institution of its kind in the country. Set up as an institution with a difference at the joint initiative of both the Government of India and the industry, it is an autonomous, self-supporting, public-purpose institution with the objectives of being a think- tank for policy inputs and to build the capacities of practicing professionals in the management of government and business enterprises.

ASCI is an institution of excellence and national importance, and a registered society by constitution. At the apex of its governance structure is a policy-setting, oversight body, the Court of Governors (CoG). It is a virtual who's who of eminent professionals, public figures and industry leaders who have distinguished themselves in their respective fields of specialization in education, enterprise, administration, management and governance spanning a wide variety of sectors like agriculture, banking, engineering, economics, judiciary, law, manufacturing, science and technology and public administration.

Capacity building and applied research assignments constitute the bedrock of the activities of ASCI. They have larger societal benefit and public good as the key cornerstones. ASCI integrates economic, social, cultural, financial, technological, regulatory, human, organizational, and environmental aspects into its management training and action-research initiatives for addressing issues of topical interest and current concern to the government and the industry. With its focus on policy, strategy, management, governance, regulation and socio-economic impact evaluation, ASCI brings knowledge inputs, informed advice, best practice and innovative ideas to bear on its training, policy advocacy, advisory and implementation-assistance services. In the process, it provides opportunities to State and Central Government Departments and Ministries in India and abroad as well as the industry, to develop sustainable policies, devise inclusive strategies and deploying robust plans towards improved economic performance, human development and social progress.

As a result, ASCI enjoys the trust and confidence of the government and industry and is relied upon and entrusted with assignments of varied scale, scope, sweep, spread and specialization.

About ESF Labs Limited

"ESF Labs Limited brings cyber resilience with innovation and excellence."

ESF Labs is a recognized Cyber Security and Digital Forensics Research Centre with over a decade of experience, focusing on delivering effective and innovative solutions and capacity building to clients. As a CERT-INDIA empanelled entity, ESF Labs, aims at assisting its customers to combat the various cyber threats they face through training/capacity building and solutioning. As a trusted partner, ESF Labs, works closely with corporations, law enforcement agencies, and governments to provide consultation services that enhance the client's cybersecurity and digital forensic capabilities. The solutions delivered are designed to minimize the risk exposure of organizations and also providing a strong foundation in cybersecurity and digital forensic posture.

ABOUT CYBER THEME PARK (CTmP)

AN EXPERIENCE CENTRE

Cyber Theme Park is an experience center that transforms theoretical knowledge into practical wisdom. It is a dynamic environment where individuals come together to engage in meaningful interactions, exchange ideas, and challenge their existing perspectives. We believe that true learning occurs when theoretical knowledge is applied and tested in real-life scenarios & situations. Our aim is to bridge the gap between theory and practice by creating an immersive experience with 4 distinct mindsets Attacker, Protector, Defender, and Overseer that transforms abstract concepts into tangible outcomes. The programme seamlessly blends theory with practical, immersing you in the world of attacker and defender techniques.
